A number of the women are very enthusiastic about the way pressure cookers will cook foods. All nourishment which is cooked out of the foods is retained in the cooker and foods are cooked in an atmosphere of vapor from their own juices which adds to their food value. The high temperature at which the foods are cooked, breaks down the connective tissues in the meats and the fiber in vegetables, and softens foods so that they are more easily assimilated.

The steam pressure cookers are so responsive that much time is saved. Such a cooker will cook chicken tender in thirty minutes, potatoes in ten minutes and other foods in a very short time. Steamed puddings should be cooked at a low pressure so as to be light when done. When used for processing in the cold pack method, the cooker should be removed from the fire at the end of the process period and cooled gradually. Do not allow steam to blow off or escape because you will lose the liquid out of your jars.

These cookers also save labor because the foods are cooked by steam, hence do not stick or burn. This saves stirring and watching and gives time for other duties while the cooking is in progress. Fuel is saved, because after the pressure is obtained a low fire is all that is required to keep up the pressure.

Sheep Men Consider Pooling Wool

The Nebraska Sheep Breeders' Association meeting at Lincoln January 19, passed a resolution asking sheep breeders in each county in the state to decide on or about February 10 whether they desire state federation for the marketing of wool. If enough counties so desire, the state association will perfect arrangements for pooling. Iowa sheep men last year pooled their wool and received an average of 62 cents a pound. Before any organization was in existence in Iowa, wool was as low as 35 cents a pound. Nebraska breeders last year sold their wool at eleven combination sales for an average of 47 cents a pound.

DAKOTA CITY SCHOOL NOTES

A. H. BRUNELLE, Principal

The pupils of the fourth grade have been studying in geography the production of chocolate and cocoa; in connection with this interesting subject, they joined with the third grade and under Miss Cook's direction gave a cocoa party last Wednesday afternoon. The Messrs. "Tick" Antrim, "Cliff" Gribble and "Brick-top" Graham were among the honored guests.

The high school students spent a pleasant evening last Friday, when they gathered for a Valentine party. The committee had planned a number of lively "stunts" with which the hours passed swiftly. That very important feature, the refreshments, had not been overlooked, and so about eleven o'clock the games ceased to make way for this closing feature. Goldie Frederick, Genevieve Mason, Anna Blanche Evans, and Mildred Ream comprised the very efficient committee.

Exceeding the fondest hopes of the local followers of the game, the basketball team overwhelmed Emerson in a fast game last Thursday. Emerson's close guarding prevented a score for several minutes after the opening of the game; but the defense was finally solved; the visitors stiffened again at the opening of the second half, but again broke down before Dakota City's determined attack. Though the game was unintentionally rather rough on both sides, the local team put up a neater brand of play than they have displayed during the season.

Line-up and summary—Dakota City. Emerson. Bruskern. forward. Kramper. Rockwell. Forward. Graham. Peters. center. Frederick. W. Jensen. guard. Antrim. Schindler. Guard. Gribble. Substitutes: E. Jensen for Schindler, Fisher for Bruskern.

Goals from field: Graham 8, Frederick 6, Gribble 5, Kramper 4, Rockwell 1, Peters 2, W. Jensen 1. Free throws: Graham 2, out of four attempts; Rockwell 5, out of 7 attempts. Final score: Dakota City 48, Emerson 13.

Previous to the game, the high school girls served supper to the visiting team and coach. The team goes to Emerson for a return game next Wednesday, and at the same time, the second team will make the journey to play Emerson's second team. Both teams may look for stiff opposition, as Emerson will have the advantage of playing on her own floor, with the added desire for revenge; and Emerson's second team has been pushing the first team all season. Twelve men will make the trip.

M. E. Church Notes

Rev. S. A. Draise, Pastor

There are some real Nebraska church people in Dakota City. You would have known that for sure if you had seen them come to Sunday school and church last Sunday. There were a few, though, who "got cold feet" and failed. The honor roll in S. S. lost one name—some have never been on it. How about next Sunday. Let us make it a "bumper" for attendance.

The morning preaching hour will be occasion for the report of the Inter Church World convention, at Lincoln. You will be interested. The evening service will be a commemoration of Washington. A program of special singing and an address in keeping with the day.

Do you know there are three women and two men who still have a "perfect" absent record of church attendance during the past 5 years. Do you believe that? Hardly reasonable, but true.

Sunday Evening Program: Hymn—Holy, Holy; All standing and singing.

Prayer—Rev. Lowe. Song—Chorus, The Lord is my shepherd.

Vocal Solo—Mrs. Schmied. Duet—Mrs. Mason and Mrs. Lean. Solo—Rev. Lowe.

Chorus of Juniors—Brighten the Corner.

Solo—Elda Berger. Duet—Kathryn Warner and Helen Walden.

Chorus by Primaries—Bonnie Flag. Solo—Genevieve Mason.

Ladies Quartet. Scripture and Announcements. Offering. American.

Hymn—Lead On O King Eternal. No. 488—M. E. Hymnal.

You will find a welcome when you come to this service.

Road Builders to Meet.

The third Nebraska road institute will be held at the University of Nebraska the first week in March. All Nebraska engineers, surveyors, draftsmen, highway commissioners, county commissioners or supervisors, road builders, contractors, and others interested in the improvement, construction, and maintenance of Nebraska's public roads and bridges have been invited to attend. Some of the subjects on the program are: Organization of state highway department, bridges, culverts, earth road construction and maintenance, construction and maintenance of permanent improved roads, motor transportation, and inspection of actual work being done in Lancaster county. The main object of the Nebraska road institute is to aid in the dissemination of knowledge of the construction and maintenance of roads and bridges and the materials to be used in their construction. More than 300 persons attended the institute in 1919.
