

# 29 REDS TAKEN IN FEDERAL RAID

### OUTLAW GANG IN PATERSON, N. J., ROUNDED UP.

## THE RAID A DRAMATIC AFFAIR

Official Records of the I. W. W. for Entire District East of Chicago Seized in Home of One of Anarchists—All Were Armed.

Paterson, N. J.—Twenty-nine radicals, said by secret service agents to include the most dangerous terrorists in the United States—members of the notorious L'Era Nouva group, whose creed is assassination and violence by individuals without waiting for "mass action"—were captured early today by 100 picked agents of the department of justice in a dramatic raid on headquarters here. Warrants had been sworn out for thirty-two, but three escaped the federal net. All official records of the I. W. W. for the entire district east of Chicago were seized in the home of Andre Graziano, anarchist. In this house, federal agents said E. F. Dore, Philadelphia, secretary of the I. W. W., was in hiding. He is under indictment in Chicago, and is alleged to have moved the records from Chicago to Philadelphia, thence to Paterson. The most important capture, federal officials said, was that of Ludovic Caminetta, editor of the Italian anarchist magazine, La Jacquerie (The Massacre). The printing office was raided and as the federal agents entered they found printers running off an I. W. W. pamphlet entitled "The Truth About Centralia." Every anarchist captured was armed. Six raiders were detailed to each arrest in view of the reputed desperate character of the men sought.

## WILSON TURNS DOWN PLAN OF THE ADRIATIC.

### Lloyd George's Proposed Settlement Criticized.

Paris.—Italian circles in London are reported to be greatly disturbed over a note sent by President Wilson to the supreme allied council, in session there, disapproving of the proposed compromise by which it was hoped the Adriatic question might be settled. Hugh C. Wallace, the American ambassador, delivered to the foreign office a memorandum from President Wilson, according to the Temps, in which the president said he could not approve of Premier Lloyd George's proposed settlement of the Adriatic question, which has been submitted to the Jugo-Slavs. The newspaper says that an identical memorandum was delivered to the British foreign office in London. The Temps say President Wilson allowed it to be understood that the United States would find it impossible to continue in conference if the allies settle the Adriatic question without consulting the United States. In his memorandum, President Wilson criticizes Premier Lloyd George's plan as communicated to the Jugo-Slavs by the supreme council on January 20. The president examined the plan, but declares he cannot approve of its tenor. He particularly opposes the idea of giving the Jugo-Slavs the choice between this plan and execution pure and simple of the London pact.

### Plan on an Aerial Journey to Alaska.

New York.—The Aero Club of the Northwest, with headquarters at Seattle, Wash., has asked official sanction for an aerial derby from Seattle to Juneau, Alaska, and return, it was announced here tonight by the Aero Club of America. The race will start on May 22 and is to be for seaplanes, as the route will be over water. Prizes totaling \$35,000 will be awarded. The proposed route of the derby will be from Seattle to Juneau, a distance of approximately 870 miles, and return to Seattle by way of Skagway, Sitka, Petersburg, Wrangell and Ketchikan. The purpose of the aerial derby is to introduce aerial navigation to the territory of Alaska; to exhibit the practicability of the inaugural of aerial mail routes between Seattle, Wash., and the Alaskan coast; to encourage the establishment of permit airways between the Pacific northwest and Alaskan towns; to promote the use of aircraft as commercial carriers, to encourage the study of flying conditions in the territory of Alaska, and to inaugurate a movement for the establishment of permanent airports along the Alaskan coast.

New York.—The masses of snow which have choked the streets of New York for the past ten days, defying the onslaughts of firemen, policemen, army flame thrower brigades of pick and shovel men, were frozen into ice fields today when the city was gripped in a cold wave. A biting gale from the northwest swept the metropolis and the mercury tumbled until it had dropped to nine degrees above zero, a fall of thirty-three degrees. An army of 15,000 men, headed by Mayor Hylan, spent the day in renewed efforts to open the thoroughfares.

## CONSTITUTIONAL CONVENTION NOTES

Lincoln.—An attempt to bring back from the files a proposition relating to the taking of the private property of one person for the private use of another proved successful on the floor of the convention by advocates of the amendment.

The contention of the friends of the proposition is that there are times when, in order to make a piece of land valuable, it is necessary to drain it across the land of some other farm, but under the present law the owner cannot be compelled to sell land on which the ditch should be dug. The proposition was discussed at considerable length and finally was placed on the general file.

The executive committee of the convention reported out a recommendation for the passage of the Byrum-Jackson proposal, No. 142, which would abolish Nebraska's code form of government and would reorganize the executive department under a board of elective officials, instead of secretaries appointed by the governor. A minority report was offered by Oleason of Cuming county. The majority was signed by seven and the minority report by six committee members. Both reports were placed on the general file to be fought out in committee of the whole.

All proposals relating to the judiciary system were indefinitely postponed when the judiciary committee reported out its recommendations in the form of a complete article on the court system. The recommendation was placed on general file. Several sweeping changes from the present system are recommended by the committee. The proposed plan would give the supreme court the power to call in district judges to sit on the supreme bench with the high court in two divisions, so that the docket can be cleared up if it gets congested.

The report of the legislative committee recommends a two-house legislature instead of a one-house body, which has been suggested and discussed by the convention. The report embodies many of the proposals recommended for indefinite postponement. The report recommends that the 1921 legislature divide the state into districts, each one of which will elect but one member of the legislature. Another system of districts for the election of senators is recommended.

In a single day during the past week almost 100 proposed changes to the constitution were indefinitely postponed by the convention. The judiciary committee presented 59 recommendations for indefinite postponement when it presented its own recommendation for a court system for the state. The legislative committee recommended that 39 proposed changes be killed and the committee on revenue and taxation passed the same sentence on eight proposals.

The committee on miscellaneous subjects reported for indefinite postponement Proposals No. 98 and No. 215, forbidding aliens from owning land. Another proposal of a milder nature is still before the committee.

On recommendation of the revenue committee the following proposals have been posted for indefinite postponement: Nos. 22, 68, 76, 97, 193, 219, 231 and 261, all relating to exemptions of property from taxation.

Representatives of the Omaha Grain Exchange, the South Omaha Live Stock Exchange and other institutions asked the committee on corporations to kill a proposal making all exchanges of that nature public markets.

By a vote of 33 to 61 the convention refused to raise from indefinite postponement file Delegate Epperson's proposal requiring a vote of the people of a town to issue bonds for paving of intersections of streets.

The convention in committee of the whole approved proposal No. 104, by Nye, a proposal to increase the minimum age limit for commitment of persons to reform schools from 16 years to 18 years.

A proposal to provide an appointive board to manage the state normal schools was approved during the past week by the convention. Effort to have the board made elective was defeated.

Proposal No. 115, by Lahners, to prohibit change in boundaries of school districts without a majority vote of electors of each interested district, has been sent to the grave yard.

Attempts to amend the proposed taxation section of the new constitution, as recommended by the committee on revenue and taxation, failed Friday in the convention.

Members of the American Legion appeared before the educational committee and urged that only the English language be used in the grade schools.

By a decisive vote the convention killed Proposal No. 223, by Delegate Lewis of Wayne county, to levy a state tax for educational institutions.

The convention approved a proposal providing that constitutional amendments submitted by the legislature can be adopted by a majority of those voting on the amendment, provided such a majority is 35 per cent of the total vote cast at the election. The present constitution required a majority of all votes cast at the election.

## NEW DEMAND IS MADE FOR KAISER

### Allies in Second Note to Holland Insist Former Emperor Be Given Up.

## VEILED THREAT IS MADE

### Told Not to Create Greater Difficulties by Insisting on Right of Asylum for Man Characterized as Author of World's Troubles.

London, Feb. 14.—A new allied note to Holland regarding the extradition of former Emperor William will be dispatched today, according to the Evening Standard.

The note, says the newspaper, makes a strong appeal to the Dutch government not to create greater difficulties in Europe by insisting on the right of asylum for the man characterized as the author of the world's present troubles.

From other sources it was learned that the note does not make any requests of Holland, but it is hoped that the Dutch government will be drawn into reopening the negotiations which ended with the refusal to give up the ex-ruiner. It is intimated that Holland has not received a suggestion to this effect unkindly and that she might be willing to intern the former emperor outside of Europe.

A note to Germany with regard to the allied extradition demands is also being prepared. The council is represented as being in agreement on this document, which, it is intimated, may give Germany an opportunity for further negotiations.

Paris, Feb. 14.—France is threatening Germany with a blockade, effective March 1, unless Germany takes steps to deliver coal promised to France under the terms of the peace treaty, it was learned this afternoon.

This threat is contained in a note handed by Premier Millerand to the German charge d'affaires.

The note charges that Germany is 5,000,000 tons in arrears of the amount of coal promised to France, and insists that steps for delivery be taken at once.

The note raises a new point inasmuch as France takes the view that pledges made by Germany to France concern only France and are independent of the scope of the allied reparations commission.

## U. S. BLUEJACKETS IN ODESSA

### Bolshevik General Threatens to Fire on British Warships Unless They Leave.

Constantinople, Feb. 16.—General Uborevitch, twenty-eight-year-old bolshevik commander at Odessa, has threatened that he will open fire on the British warships there within three days if they remain in the harbor, according to a message from Rear Admiral A. McCully, commanding the United States naval forces there.

Rear Admiral McCully sent an officer ashore in an attempt to get Americans believed to be still in Odessa. These included Jacob F. Rubin of the Union bank of Milwaukee and three other men, named Barnett, Young and Tate, the latter a former soldier. Rubin did not care to leave. The others were not found. A list of the Americans was given to General Uborevitch, who promised that they would not be molested.

## DEATH IN SOUTHERN STORM

### Part of Georgia Swept by Gale—Plantations Wrecked and Entire Family Reported Killed.

Macon, Ga., Feb. 14.—One whole family of white persons and a ten-year-old negro girl were killed and a woman seriously injured, and considerable property damaged by the storm which swept portions of South Georgia. The damage was greatest in Irwin and Mitchell counties, where the storm assumed the proportions of a tornado, cutting a path approximately 200 yards wide through certain portions.
