Farm Bureau Field Notes C. R. Young, County Agent

The Farm Bureau is just starting the membership drive for pig raising clubs. The plan is to take boys and girls from 10 to 18 years old. Each member must own his or her pig. They must start with pigs not more than 12 weeks old, and begin feeding sometime before May 1 and July 1. We recommend the use of pure-bred pigs, but grades may be raised. Records must be kept of all feed fed and any other expense. This report and a story must be returned at the end of the feeding period, which is 16 weeks.

Our premium is the largest and best we have had to offer, being too long to give here in full. Among the county prizes is a free trip to Lincoln during the Junior Club week in 1921, for the county winner, with any breed. The Hampshire Association offers \$25 for the best record with a Hampshire pig; \$15 second prize, \$10 third, and fifteen lower prizes, amounting in all to \$100. Several smaller prizes will be given. As State prizes, Armour's Farm Bureau offers \$75 to be spent on a trip to the Chicago Inter-National Livestock Show to be held next fall. The Hampshire and Chester White Association each offer five fall gilts as prizes to be given to the five members ranking the highest.

We are able to help members buy good pigs and to secure loans for those who do not have money with which to buy. The Hampshire Association offers to sell 12 weeks old pigs at from \$30 to \$50, and guarantees to buy them back at the end of the club season at twice the amount paid. A more complete prize list and plan may be had by writing the County Agent. Those intending to join should do this at once.

Mr. Ivan D. Wood, extension engineer for the State University, assisted during the past week in laying out several demonstration projects. These were a drainage project for Thos. Graham and J. A. Wetmore; the planning of farmsteads for Don Forbes and S. H. Bridenbaugh, and the laying out of water supply systems for Mrs. Elizabeth Leahy and E. J. Smith. The first of these was the utilization of a spring some distance from the farmstead, while the other was a pressure system.

Cholera Serum at Low Price

The State Serum Plant at the University Farm, Lincoln, is now selling anti-hog serum virus at one cent per c.c. When virus alone is ordered the price is two cents per c.c. This serum was not produced by the State but purchased from reputable producers and retested at the State Plant and found to be potent. The State Plant also has a quantity of fresh hog cholera virus of extra quality.

IT WAS SOME FLOOD

The Ponca Journal, one of the real "old time" newspapers of this section of the state reports the following items from its issue of April 28, 1881, anent the flood of that spring, which the older residents here will remember with vivid recollections:

Parties who were on the river bluff Sunday afternoon could see with a field glass a small sail boat on the Dakota bottom, going from house to house taking off the inhabitants.

Fearful floods are being experienced all over the western states, but none of them can compare in destructiveness to the floods lately along the Missouri, especially in Dakota Territory.

On Tuesday the ferry boat came from Sioux City to Jackson bringing several tons of freight for Ponca. It was transferred at Jackson to the cars, and then brought to this place yesterday. The mail also was sent up, and as it was the first this town had seen for a week, it was joyfully received.

On Green Island there is not a house left. All that once fine country is devastated. Every evidence of settlement, fences, roads, dwellings and groves has been swept away. In their place is seen a vast field filled with flood wood, ruins and ice. There

are immense masses of ice, some of which are thirty feet high, and which will take all summer to melt.

Attorney Gantt and Sheriff Jones went to Sioux City on Sunday and returned Tuesday. They went by wagon, hand car and boat. They stopped Sunday night at the Ferry House of Covington, to the steps of which they tied their boat. Monday morning they again embarked and sailed into Sioux City. They came back by the ferry boat as far as Jackson, and thence by wagon home, bringing with them a portion of the mail for this place.

FOR SALE

I have several desirable residences in Dakota City that I will dispose of. Rent is high now, and it will pay you to own a home and be independent.

I also have about thirty lots in South Sioux City to dispose of.

THE POSSESSION OF VALUABLES

entails the responsibility for safe-guarding them.

One may go to great pains to hide his stocks, bonds, records, receipts—or an endless variety of other things—about the home or place of business, and yet go unassured of their safety.

This institution, on the contrary, with its superior safe equipment, is able to positively guarantee their protection and preservation.

And at a cost within the means of all!
