Lincoln Woman

Gains 25 Pounds

HAD TO BE WHEELERED AROUND IN CHAIR FOR A YEAR-TANLAC RESTORES HER

"I don't believe I would be alive today had it not been for Tanlac," said Mrs. M. A. Van Kleeck, of 1011 N. 29th street, Lincoln, Neb. "Beginning eight years ago," she continued, "I went down from a strong, healthy woman weighing one hundred and eighty pounds till I hardly weighed a hundred and had become a complete physical wreck. I suffered terribly from stomach trouble. I also had sick headaches a great deal of the time and was so nervous and miserable I could hardly sleep. I had the best of treatment and was given all kinds of medicines but kept getting worse, and for two years I was so weak and run down that I couldn't walk to the corner and finally got to where I had to be wheeled about in a chair for a whole year."

"I have gained twenty-five pounds since taking Tanlac, and it has done me more good than all other medicines I have ever taken put together. Before I finished my first bottle my appetite improved and I began to feel better, and after taking this medicine a few weeks I was enjoying normal health again. For five long years before taking Tanlac I was never in a store, but I can now walk all over town shopping, and by taking a little Tanlac every now and then I am able to keep feeling well. I have already recommended Tanlac to many of my friends who have taken it with good results, and I surely will praise it the longest day I live."

Tanlac is sold in Dakota City by Neiswanger Pharmacy, in South Sioux City by McBeath's Pharmacy, in Homer by Brassfield & Jensen.

SALEM

Dewey Heikes returned Sunday from a several weeks' stay at the rancho at Butte, Neb. Mr. and Mrs. Geo. E. Heikes entertained the Geo. W. McBeath and John H. Ream families at dinner Sunday. Chris Paulson lost a valuable cow last Friday night, from too much alfalfa pasture. This cow had produced twenty pounds of butter a week all spring, and it means quite a loss to Mr. Paulson. This week will finish up the planting of the late corn, which was delayed on account of the excessive spring rains. The rain of Monday night did not do the damage in this locality that it did a few weeks ago, although it was sure some rain. Quite a number from here went to Homer Tuesday to see the damage caused by the flood of Monday night.

Yellow Corn Superior to White

Farmers are right when they say yellow corn is superior in feeding value to white corn, according to an experiment performed by the Nebraska Agricultural Experiment Station at Lincoln. Two lots of rats were fed yellow and white corn, with proper supplemental feeds to make balanced rations. The rats fed white corn made a poor growth, finally stopped growing altogether, and several of them died of starvation. The rats fed yellow corn, on the other hand, made a normal growth and at the end of the experiment weighed more than twice that of those fed white corn. Scientists believe that this experiment, which was a check on similar experiments in another state, proves that there is something in yellow corn which is vital to proper growth and which white corn does not possess. It does not follow from the experiment, however, that white corn should not be grown. The addition of proper supplemental feeds may make white corn as valuable as yellow corn. Experiments will be performed by the Station to determine whether certain feeds can be added to white corn and its deficiency thereby offset.

Publications of Interest to Women

Recent publications by the Nebraska College of Agriculture of interest to women are "Suggestions for Household Exhibits at County Fairs," and "The Buffet Luncheon." The county fair circular is an elaborate discussion of women's part in fairs, general suggestions regarding their exhibits, suggestions for putting up exhibits, what to do for judges, judges' rules, suggestive premium lists, and a score card for judging. This is a valuable circular for county fair boards, women and others interested in better county fairs. The buffet luncheon circular deals with this form of entertainment for class reunions, club meetings, church entertainments, wedding receptions, etc. It gives many suggestions regarding table linen, decorations, menus, dishes, dining room equipment, and the like. It also contains a suggestive menu for fifty people, with recipes worked out in detail and proportions given for each serving. Both circulars may be obtained free.

Shall Nebraska Keep Her Promise?

NEBRASKA HAS NEVER ERECTED A MEMORIAL TO HER SONS WHO FOUGHT IN ALL THE WARS

The Time Has Come for The Patriotic People of The State to Pay this Lasting Tribute to Our Fallen Heroes

Big Drive June 6-30

The Nebraska War Memorial Association has planned a magnificent memorial building to be erected on the University campus at Lincoln. It will cost \$1,000,000. It will be paid for by the contributions of the patriotic men and women of Nebraska. Each county will pay its due proportion.

- The Memorial Hall will be the big feature of the great edifice. Upon its marble walls will be engraved the names of all Nebraska soldiers and sailors. The Museum will afford a safe place for all war trophies, relics, battle-flags, insignia, etc., etc. The Assembly Hall will afford a meeting place for all patriotic societies, composed of men and women who wore the uniform or who did war work. The Stadium will appeal to the young men and women who delight in athletics—out-door sports. The Gymnasium will be fully equipped with every facility for conserving the physical well-being of the veterans. The Memorial building will provide headquarters for all associations of veterans of all the wars.

It will be a splendid tribute to the valor and heroism of Nebraska Soldiers and Sailors. Every man and woman in Nebraska wants to have a part in this tribute.
