

RACE CLASH AGAIN IN THE WINDY CITY

TWO WHITES KILLED DURING
THE ENCOUNTER.

NUMBER OF OTHER INJURED

Trouble Follows Report That Flag
Had Been Burned by Band
of Blacks.

Chicago.—Rioting which is believed to have started over attempts by negroes and sailors to avenge an alleged insult to the American flag by members of a society advocating the return of negroes to Africa, resulted in the death of two white men, one a sailor, the wounding, probably fatally, of a negro policeman, and injuries to several other persons.

Investigations conducted by the police brought forth evidence which they said pointed to an organized attempt on the part of the negro organization known as the "back to Abyssinia movement" to precipitate trouble, while other reports were that the trouble was started by a group of sailors who jeered and hooted at a parade of negroes.

It was said that as the parade disbanded, several of the negroes gathered about the flag, set fire to it and then opened fire on it with revolvers. Several sailors and negroes are said to have rushed from nearby pool halls and remonstrated with the Abyssinians.

Joseph P. Owens, a negro policeman, attempted to arrest one of them and was shot through the back. Whether Owens fired first is not known, but a volley of shot followed his attempt to arrest the negro. R. L. Rose, a sailor of J. company, Fifteenth regiment, who got into the trouble, was shot through the heart and Joseph Hoyt, a cigar dealer, who rushed from his store when he heard the shots, was shot through the head, both dying instantly. Owens' condition is critical.

This version of the affair is the one generally accepted by the police, but negro witnesses say that the insult to the flag was caused by a group of sailors jeering the paraders and that the flag burning was meant as a defiance to the sailors personally and not as an insult to the country.

Hardly had the first shot been fired when many of the parading negroes rushed to a nearby automobile and grabbed rifles which were cached there, according to the police. Within a few moments more than a thousand negroes had gathered. Police lines were formed and after an hour or two the district, which was the scene of rioting a year ago when more than thirty whites and negroes were killed, was quiet.

The trouble occurred at Thirty-fifth street and Indiana avenue near the scene of last year's race riots, in which more than thirty whites and blacks were killed and hundreds injured.

Police declared that they probably never would know the exact number wounded. Several were carried off by friends, it was believed for the parading negroes disappeared rapidly after the first shots.

MARTENS IS RECALLED BY THE SOVIET AUTHORITIES

"Ambassador" May Not Be Permitted
to Leave Pending Disposition
of Deportation Case.

Washington, D. C.—Ludwig C. A. K. Martens, who for more than fifteen months has been in the United States as self-styled Russian ambassador, has been recalled by the soviet authorities, it was learned in official circles.

Martens' confidential secretary, Sanford Nuorteva, left the United States several weeks ago by way of Canada and now is believed to be attending the conferences being held in England by Gregory Kraasin, bolshevik minister of commerce, it was said by department of justice officials.

Martens' recall, it was stated by those acquainted with the facts in the case, was at his solicitation. Neither the "ambassador" nor those who have been associated with him were prepared to say whether the soviet authorities would send another representative to the United States and make another attempt to obtain semi-recognition through that means.

Martens on his arrival in the United States in March, 1919, sent credentials to the state department but no attention was given them by the department.

At present Martens is involved in deportation proceedings conducted by department of labor officials. The hearings were adjourned until July 8, when they are expected to be concluded and the decision referred to Assistant Secretary of Labor Post and finally to President Wilson for approval. Officials declined to say whether Martens would be permitted to leave the country pending final disposition of the deportation action.

THREE NEGROES LYNCHED BY A DULUTH, MINN., MOB

Not a Shot Fired During Attack, the
Assailants Using Bricks, Clubs,
and Streams of Water.

Duluth, Minn.—Three negroes were lynched here by a mob estimated at 5,000 persons, which overpowered the police, took possession of police headquarters and seized six negroes who were held in connection with an attack on a young white girl.

Not a shot was fired in the attack on the police station, the members of the mob using bricks and other missiles, and in the final stages of the fight streams of water from fire hose taken from the police themselves.

A mock trial was held by the mob in the station and three of the negroes were found guilty and the three others also held in connection with the assault were acquitted and turned back to the police.

Shortly after midnight the mob still surrounded the police station, but there was no indication of further trouble. The police believed the mob would disperse in a few hours without further disorder.

Eight policemen and a newspaper reporter suffered minor injuries in the attack on the police station. They were hit by bricks or other missiles or were swept off their feet and severely bumped in the water fight.

It was reported that three or four trucks and automobiles loaded with members of the mob had started toward the town of Virginia, where it was said four other negroes had been arrested in connection with the same case.

The negroes were roustabouts with a circus that appeared here and the alleged attack on the 17-year-old white girl took place on the circus grounds. The circus had moved on to Virginia, and it was said eight negroes were taken into custody there, but only four held.

One report was that the Virginia authorities and John Murphy, Duluth's chief of police, had started back to Duluth with these four suspects before the mob trouble broke here, but it is understood the party has been diverted to another city.

The negroes hanged were Isaac McGhie, Elmer Jackson and Nate Green, all about 22 years old. All professed their innocence.

First indications the downtown district received of trouble brewing came when trucks loaded with men dashed up and down the principal streets, the men calling "for volunteers to avenge the wrong done the white girl."

There was a ready response and it was estimated the mob numbered 5,000. Then the storming of the jail began.
