Albion News: There are three candidates for congress in this district, Rice of Norfolk, Evans of Dakota City, Weekes of Norfolk, and people who favor the strict enforcement of the Volstead act and who oppose any liberalizing of that law will do well to determine the relative dryness of these candidates.

There are two reasons why Congressman Evans stands a good chance of being re-elected. For one thing he made a good record during his initial term, and for another thing he faces a divided opposition. Mrs. Weekes, the nominee of the non-partisan league, has been and was up to the time of her nomination, a democrat and she will draw her main strength from the democrats, not enough to elect her, but enough to defeat Mr. Rice, the regular democratic nominee.

As a hand-shaking, lime-light politician, Congressman Evans is a flat failure. His record in congress and his general character as a citizen must be his sole claim to continued support on the part of the voters of the Third district, but if the people are to know his congressional record they will have to ask for it or receive it through the medium of his friends. He simply hasn't it in him to get out and parade his virtues before the people. He takes his work seriously and seemingly thinks that if the people want him to stay on the job they will say so. Congressman Evans has made good and the opposition cannot cite a good reason for his rejection unless it be that he has not spent a lot of government money bombarding his district with government literature.

Big Double Circus

Coming This Way

Ringling Bros. and Barnum & Bailey Great Double Shows Are Impatiently Waited.

The world's two most famous circuses now merged into one and headed this way and will exhibit at Sioux City, Monday, Aug. 30.

It would seem as though everybody in this locality were planning to attend. The very name of the great new circus—Ringling Brothers and Barnum & Bailey Combined—has been sufficient to arouse far more interest than has ever before been shown in the coming of any amusement enterprise. And word from the Ringling Brothers, who are the directors of this gigantic circus, is to the effect that those who attend the performances will witness the greatest program ever presented in America. This is likewise true of the mammoth street parade, which will positively take place showday morning, the mammoth congerie and all else connected with this biggest of all amusement institutions. The famous showmen have made a complete survey of both the great circuses and merged the finest and best of each into one. Hundreds upon hundreds upon hundreds of performers will appear in the gigantic main tent. There will be scores upon scores of the cleverest dumb actors. A gorgeously costumed parade of stupendous size will open the program. Great companies of characters representing the best-loved stories of fable and nursery lore will appear. There will be splendid and many groups of beautiful horses in jeweled trappings. The army of clowns exceed all past records for fun and numbers. All contribute to the biggest circus in history.
