M. MILLERAND WOULD END WAR

VERSAILLES PACT MUST BE ENFORCED, SAYS PREMIER.

POINTS TO DUTY OF ALLIES

French Statesman in Conference with Italian Prime Minister Counsels Moderation by Poland in the Interest of Early Peace.

Aix Les Bains.—"We must end the war," said Premier Millerand to the Associated Press correspondent at the conclusion of the afternoon conference with the Italian premier, Signor Giolitti. "The war must be ended. This is why we have given Poland the counsel of moderation which she seems disposed to follow."

"Our interviews have been most cordial and confident. Naturally, we have agreed that an accord between Italy, Great Britain and France is indispensable, not only in the interest of the three allied powers, but for the maintenance of the world peace."

"The peace of Versailles must be enforced as well as that of St. Germain and the others, because they constitute an entity and one of them cannot fall without the others being shaken."

"We also discussed the question of Russian soviet. Evidently each country consults its international policy before adopting a precise attitude. You know what the French policy is. The policies of our allies do not appear to be different in principle."

"Our position is unique. It is our duty to make all efforts to persuade our Italian and Jugo-Slovakia friends that it is to their interest and also the world's that this problem too long deferred be settled at the soonest moment possible in moderation."

M. Millerand said he had reiterated to Signor Giolitti that France did not wish in any way to interfere in the Adriatic question, but that he hoped that Italy and Jugo-Slovakia would reach an understanding.

Labor in Italy for Compromise.

Milan.—A plenary meeting of the workmen's organizations was held to consider the industrial upheaval which has come through the strike of metal workers in Italy. The socialist deputy, Daragona, presented a resolution in the name of the general conference of labor favoring a compromise. This was adopted by a majority of 200,000 votes. The total representation present was 1,094,000.

Air Mail Plane Reaches Frisco.

San Francisco.—The west was moved twenty-four hours nearer the east when the first transcontinental mail plane landed sixteen hours late. When the service settles down to schedule the planes will deliver mail on the two coasts two days sooner than trains do now. Vieling with the pony express and the first fast mail trains as a maker of national history, the plane swept over San Francisco bay a few minutes after 2 o'clock and at 2:25 came to a rest on the Marina field overlooking the Golden Gate. The mail it bore was transferred to a waiting motor truck and rushed to the general postoffice. While winging its way here from Mineola field the plane passed two eastbound transcontinental mail planes which cleared from here, the first to leave San Francisco in this service. It brought seven sacks of mail, four destined for San Francisco, one for Washington, one for Oregon and one for California points.

Mexico Second in Production of Oil.

Washington, D. C.—Mexico promises to become the oil reservoir of the Western hemisphere, the department of commerce declared in a review of the petroleum industry in that country. Exhaustion of 40 per cent of the producing fields of the United States, the department's review stated, has caused Mexico to take second place in oil production, although only about 12 per cent of the Mexican wells is being produced. Oil exports from Mexico during the first six months of 1920 totaled 60,000,000 barrels, an increase of 72 per cent over 1919. The review states that of the 231,250 square miles of Mexican territory believed to contain oil deposits not more than 800 square miles are being exploited. Curtailment of production is ascribed to lack of transportation and storage activities and to the unsettled political conditions. Of the \$350,000,000 estimated to be invested in the Mexican oil industry, about 70 per cent is British and Dutch capital and 3 per cent Mexican and other interests. The United States received 71 per cent of the oil exported during the first six months of 1920.

Billy Sunday Coming to Sioux City.

Sioux City.—Rev. William A. ("Billy") Sunday, the evangelist, will conduct a series of evangelistic meetings some time during the fall of 1921 in Sioux City. This is the definite assurance given the committee of ministers and laymen which met him at Omaha. The exact date of his coming has not been set, but it will be during one of two open dates, either next September or November.

LITTLE ADVICE FOR GROCER

Would-Be Wag Had Picked Out the Wrong Woman on Whom to Exercise His Wit.

There was an expression of melancholy tinged with resentment on Mrs. Brown's face as she entered the grocer's shop.

"I want," she began impressively, "to talk to you about them eggs I had last week. They weren't anything like as fresh as they might have been."

"That's strange," replied the grocer, who fancied himself something of a wag. "We always have an almanac hanging up in the fowl run to keep the hens up to date."

"Oh!" came the retort with crushing emphasis. "Then all I have to say is that somebody with brains about as added as them eggs has been mistandling the hens with last year's calendar. Just you hang up a 1920 card, my good fellow, and maybe them chickens 'll start working overtime to catch up to it!"

EATONIC Users

—Do This—Get the Greatest Benefits

Chicago, Ill.—Thousands of reports from people all over the U. S. who have tested eatonic, show the greatest benefits are obtained by using it for a few weeks, taking one or two tablets after each meal.

Eatonic users know that it stops Belching, Bloating, Heartburn, and Stomach Miseries quickly, but the really lasting benefits are obtained by using eatonic long enough to take the harmful excess acids and gases entirely out of the system. This requires a little time, for eatonic takes up the excess acidity and poisons and carries them out of the body and of course, when it is all removed, the sufferer gets well, feels fine—full of life and pep.

If you have been taking an eatonic now and then, be sure and take it regularly for a time and obtain all of these wonderful benefits. Please speak to your druggist about this, so that he can tell others that need this help. Adv.

Unvarying Disapproval.

"You say you have always objected to the use of money in politics?"

"Always," answered Senator Sargent, "especially when a fellow has more of it to use than I have."

Not to Be Outdone.

Frances, Janet and Eleanor were discussing the respective merits of the babies in their households, and Frances had led off with:

"My baby brother is only four months old and he has two teeth already."

"My little sister," announced Janet, "is only five months old and she has three."

"That's nothing," said Eleanor. "My little brother hasn't any teeth yet, but when he does have some they are going to be gold ones!"

Every man has his worthless days, but if he does not fight them every day will become his worthless day.
