Catarhal Deafness Cannot Be Cured
by local applications as they cannot reach
the diseased portion of the ear. There is
only one way to cure Catarhal Deafness,
and that is by a constitutional remedy.
HALL'S CATARRH MEDICINE acts
through the blood on the mucous surfaces
of the system. Catarhal Deafness is
caused by an inflamed condition of the
mucous lining of the Eustachian Tube.
When this tube is inflamed you have a
rumbling sound or imperfect hearing, and
when it is entirely closed, Deafness is the
result. Unless the inflammation can be re-
duced and this tube restored to its nor-
mal condition, hearing may be destroyed
forever. Many cases of Deafness are
caused by Catarrh, which is an inflamed
condition of the mucous surfaces.
ONE HUNDRED DOLLARS for any
case of Catarhal Deafness that cannot be
cured by **HALL'S CATARRH MEDICINE**.

DAKOTA CITY SCHOOL NOTES

J. Irwin Long, Superintendent

(Written by George Lahrs)

The Dakota City high school went
to Hubbard last Friday where they
won their seventh victory by a
score of 18 to 0. The Hubbard
players, although they out-weighted
and out-sized our players very much,
showed a very noticeable lack of
skill and team work, which our boys
plainly exhibited.This Friday we are scheduled to
play Jackson here, and we hope that
our players will give as good a show-
ing as they have thus far done.Henry Krumwiede was absent from
school Monday, having gone to Sioux
City to do some shopping.The Dakota City girls' basketball
team will play South Sioux City here
Thursday of this week. Come and
see a well played game.Everyone was in bad humor Mon-
day, being displeased with the weath-
er. In fact, everyone is patroniz-
ing the radiators trying to keep
comfortable.Miss Rogers and pupils enjoyed a
little Hallowe'en party in their room
Friday after recess, bobbing for ap-
ples, telling stories and eating can-
dy, popcorn, wafers, peanuts and ap-
ples.The 7th and 8th grade boys and
girls took it upon themselves to de-
corate their room for Hallowe'en, and
I assure you they did fine.Mrs. Vern Heikes has been secured
as special teacher for music. She
will use Tuesday and Thursday fore-
noons for her days of instruction.Miss Petrashek and the 5th and 6th
grades celebrated Hallowe'en Friday
afternoon by playing games suited to
that day.Several prizes were awarded Lor-
raine Biermann and Laurence Lean
as the winners. "Popcorn, candy,
peanuts and apples were served."The primary pupils celebrated Hal-
lowe'en Friday by playing games.
After the games popcorn and candy
were served.Miss Kroger and the 3rd and 4th
grade pupils celebrated Hallowe'en
Friday afternoon by bobbing for ap-
ples, scrambling for peanuts, and oth-
er games. Popcorn and candy were
served.Francis Mehon of the 3rd grade, has
moved to Ponca with her parents.

FARM BUREAU SETS

CORN HUSKING PRICE

The Nebraska State Farm Bureau
has announced that it considers 6 or
7 cents a bushel a fair price for
husking corn. This announcement
came after a series of conferences
with county farm bureaus to learn
the sentiment of farmers in the dif-
ferent sections of the state. Six
cents is the figure agreed on where
an elevator is provided for unload-
ing and seven cents where there is
no elevator. Both figures apply to
fairly good corn that is standing
well. Last year farmers paid 8 to 10
cents a bushel for shucking, but
corn was worth practically twice as
much then as it is now, and labor
was much scarcer. The Iowa Farm
Bureau decided on 6 cents as a fair
price this year.

Co-operative Marketing on Increase

The importance of farmers' co-op-
erative organizations as agencies for
improving marketing methods is
gaining rapid recognition at the pres-
ent time. The existence of at least
14,000 farmers' buying and selling or-
ganizations in the United States
shows clearly that American farmers
appreciate the value of organized ef-
fort in affecting savings and improv-
ing service in the marketing of their
products. The United States Depart-
ment of Agriculture has just issued a
bulletin giving valuable suggestions
for organizing co-operative market-
ing associations. Some of the sub-
jects with which it deals are: Pur-
pose and possibilities of co-operative
marketing, when should a co-opera-
tive marketing organization be formed,
essentials to success, membership
contracts, pooling sales, forms of or-
ganization, financing, how to orga-
nize, by-laws, selection and qualifi-
cations of the management, duties of
the members, co-operative market-
ing and existing organizations. Ask
the State College of Agriculture at
Lincoln for farmers' bulletin 1144,
"Co-operative Marketing."

Nebraska Third in Land Values

Nebraska cultivated land is now
third highest in the big agricultural
section of the United States, accord-
ing to the 1919 yearbook of the De-
partment of Agriculture. The aver-
age value per acre of plow lands is
given by states as follows: Iowa,
\$219; Illinois, \$170; Nebraska, \$125;
Indiana, \$119; Ohio, \$105; Wisconsin,
\$100; Minnesota, \$100. Other corn-
belt states average below \$100. Some
of the western irrigated fruit and
vegetable lands have high value, Cal-
ifornia and Arizona averaging \$130
per acre each, with Washington \$115,
Idaho \$105 and Utah \$103. States
surrounding Nebraska have the fol-
lowing values: South Dakota, \$90;
Missouri, \$87; Kansas, \$70; Colorado,
\$66. Some of the densely settled
eastern states have the following val-
ues: Rhode Island, \$85; Massachu-
setts, \$72; New York, \$64; New Jersey,
\$60; Delaware, \$66.

Getting Ready for the International

Preparations for the world's great-
est Live Stock Exposition at Chicago
during the first week of December,
are now well under way. Each sea-
son this spectacle of animal life is
given a new stage setting, involving
the labor of hundreds of men for sev-
eral weeks and an expenditure of
many thousands of dollars. Part of
this is necessitated by essential con-
veniences for man and beast; part
goes to furnish the coloring that has
given the Exposition atmospheric
brilliance, intensified as each season
rolls around. An enormous sum is
required for light effects, a feature
of the "International" that has al-
ways been abreast and much of the
time in advance of such improvement,
as electrical ingenuity develops. This
year a number of scenic novelties
have been introduced, arrangement
of exhibits has been perfected and a
more elaborate setting given the lat-
est addition to this aggregation of
spectacles—the Grain and Hay Show,
under the auspices of the Chicago
Board of Trade.When the gates are thrown open to
the public Nov. 27th, a month hence,
all this elaborate and expensive get-
ting ready program will insure the
most successful International Live
Stock Exposition since the inaugura-
tion of that enterprise, which has
been effective in promoting the wel-
fare and progress of the live stock
industry of all sections of North
America.

LOST

Good Horses and Mules in Demand

The number of horses in the United
States is estimated at approxi-
mately 21,100,000 head, a slight
decrease over a year ago but more than
in 1914. The average price per head
is placed at \$94.39, the lowest since
1908. There are approximately 5-
000,000 mules in the United States,
with an average price of \$147.10, the
highest in the history of the country.
In spite of the low average value per
head of h.r.s., drafters have been
bringing good prices. On the St.
Louis market last year the price of
drafters ranged from \$140 to \$325,
while mules varied from \$150 to \$400.
Experts predict a continued good
price for draft horses and mules of
the better quality.
