### No Tin From South China.

The supply of tin from the Yunnan district of South China may be cut off entirely at no distant date, even though this district is said to be capable of supplying one-fourth of the world's demand. It is now credited with one-twelfth. The present returns to the mine operators do not justify operation of the mines.

### BALL PLAYED BY PRISONERS

Eastern Penitentiaries Have Teams That Put Up Good Exhibitions of the National Game.

Many prisons and penitentiaries have baseball teams composed of inmates, and the national sport has done much to revive the health and spirits of prisoners. These baseball teams are "informed and play a regular schedule of games, but of necessity these games are always played on the prison home grounds.

One of the best known prison teams is that of Sing Sing. It is known as the Mutual Welfare League team, and last season it won more than 95 per cent of games played with visiting nines. The prison baseball field has a splendidly graded surface, and there are bleachers for spectators. The team plays Saturday and Sunday afternoons. Visiting teams come from New Jersey and Connecticut. The prison team has won from some of the best semi-professional nines of these states. The Eastern penitentiary in Philadelphia has long maintained a baseball team, and has developed many good players.

"On a bathing beach last summer a beautiful young girl appeared in a bathing suit that was extremely daring. "Her aunt approached her as she was swaggering in this costume beside the water's edge and remonstrated with her.

"Sylvia," said the aunt, "I consider that costume absolutely shocking."

"Oh, you do, do you?" the girl replied indifferently. "Well, wait till you see me in my new evening gown."

When an airplane ascends to heights greater than 20,000 feet, he is sure to use oxygen. He carries it in liquid form in a vacuum tank provided with a mechanism to control the evaporation.

The liquid may be electrically heated to accelerate evaporation; or a heated coil of copper or aluminum in the liquid may be used; or the liquid may be siphoned out into an evaporating chamber from which the gas is conducted through tubes to the airman's mouth. — Popular Science Monthly.

to \$2,231,001 the excess of expense and maintenance over revenues for the six years the canal has been in operation."

At the rate of revenue this year it is expected that by June 30, 1921, the collections for tolls and other canal revenues will exceed by \$1,000,000 or more the total current expenses of operation and maintenance from the opening to that date, after which, the canal authorities argue, there should be an excess of \$5,000,000 or more each year.

### Auxiliary Services Utilized.

The auxiliary services of the canal have been largely utilized and are of great value in carrying out the policy of making it attractive in all of the incidental services that are considered by shipping interests in routing their vessels. General Harding said, adding that it has not been the purpose to make larger profits on these activities, but rather to regulate the charges so as safely to cover the cost. From these miscellaneous services the receipts for the year were: Coal, \$6,032,578; water, \$55,412; oil, groceries and miscellaneous supplies, \$1,274,566, and mechanical repairs to ships, \$3,963,933.

### BOY, 12, STARTLES SINGERS

Another Prodigy Reaches Highest Note Ever Reached by the Human Voice.

New York.—Among boy prodigies Edward Roehle Hardy, 12-year-old Columbia freshman, may boast the mastery of a dozen languages, and Samuel Rzeschewski, 9-year-old Polish chess wizard, recently checkmated nineteen West Point strategists in a row—but neither of them can sing.

Robert Murray, 12, of Tacoma, Wash., can. Recently before a group of famous Metropolitan stars, including Mme. Frances Alda, who "discovered" the youth last summer, Murray not only reached with ease the high notes in arias of Galli-Curci and Tetrazzini fame, but, to the astonishment of his hearers, he transposed those high notes to a higher key and breathed them with equal facility and resonance. The singers who heard the performance asserted that this was the highest note ever reached by the human voice.

After the storm subsided, he summoned help from the mainland, 12 miles away.

## PANAMA CANAL SHOWS PROFIT

Closes the Best Year, Financially, in Its Six Years of Operation.

### MARKED GROWTH IN TRAFFIC

General Harding, Governor of Canal, in Report Predicts Revenue of Over \$5,000,000 Annually Soon.

Washington.—The Panama canal has closed the best year, financially, in its six years of operation, with an excess of \$2,387,500 in revenue over the expense of operation and maintenance.

Brig. Gen. Chester Harding, governor of the Panama canal, predicted in his annual report to the secretary of war, that within a reasonable period of normal world conditions, the canal will earn an actual profit on its cost, which has been \$368,650,000, exclusive of expenditures for its military and naval defense. In the meantime, the general added, the canal is performing an important commercial service by stimulating American trade with the west coast of South America and the Orient. More than 25 per cent of the cargo handled through the canal since its opening was in transit between the United States and South America, and 14 1/2 per cent was between the Atlantic coast of the United States and the Orient.

### Traffic Has Increased.

Within the six years of operation, General Harding's report said, there has been a marked increase in traffic through the canal notwithstanding the fact that the World war interfered with the normal development of ocean-going commerce. After the entry of

## MILLION A YEAR CLASS LOST 74

Internal Revenue Statistics, However, Show Decrease in Taxable Incomes.

### AVERAGE TAX PAID \$254.85

Personal Returns Filed During 1918 Numbered 4,425,144, and Tax, Both Normal and Surtax, Was \$1,127,721,835.

Washington, D. C.—Despite the loss of 74 members of the country's million-a-year income class, the taxable income of the United States increased in 1918 by over \$2,272,000,000, as compared with 1917, according to the income statistics issued by the bureau of internal revenue.

Income reported for 1918 amounted to \$15,924,639,355, against about \$13,700,000,000 in 1917, though 141 persons filed returns for incomes of \$1,000,000 or over in 1917 and only 67 in 1918.

Average Tax Paid \$254.85. Personal returns filed during 1918 numbered 4,425,144 and the tax, both normal and surtax, amounted to \$1,127,721,835, the average tax for each individual being \$254.85. As compared with 1917 a growth of 952,234 was

shown in the number of returns filed. The increase in the total tax was \$434,228,881.

Returns for incomes of \$500,000 to \$1,000,000 were filed by 178 persons, while 1,516,988 persons filed returns for incomes from \$1,000 to \$2,000. Incomes from \$2,000 to \$3,000 were shown on 1,496,878 returns, and there were 610,695 returns on \$3,000 to \$4,000 a year incomes.

For incomes of \$5,000 to \$10,000, 319,356 returned and from incomes of \$10,000 to \$15,000 there were 69,992 returns. More than 30,000 persons made returns on incomes from \$15,000 to \$20,000, and 16,000 on incomes from \$20,000 to \$25,000, while 9,996 persons reported incomes of from \$25,000 to \$100,000 and 2,358 made returns for incomes between \$100,000 and \$150,000.

### Those Paying the Most.

The largest tax, amounting to \$147,428,355, was collected on incomes from \$30,000 to \$100,000, with \$142,448,679 collected on incomes from \$10,000 to \$25,000 coming next. Incomes between \$1,000 and \$2,000 paid \$26,481,000.

The number of wives filing separate returns from their husbands was 35,942, the income represented being \$333,218,749.

Of the industrial groups from which income was derived agricultural and related industries led, with 372,336 returns, reporting a total net income of \$1,122,532,163.

Income derived from investments for the year was \$4,847,914,000. Rents and royalties paid \$975,670,696; interest on bonds, notes, etc., including fiduciaries and foreign sources, \$1,403,485,691; and dividends, \$2,468,740,244.

### Pays for Slow Time.

Montgomery, Ala.—The Louisville & Nashville railroad must pay Mrs. Ellen Carey of Decatur, Ala., \$500, because the clock in the railroad station at Decatur was slow. She was accompanying the body of a son, and missed her train because the clock was four minutes behind time. She sued for \$3,000. The court figured that her anxiety was worth \$500.

### Angry Farmer Hanged Balking Horse; Fined \$25

As a punishment for balking, Edward Byrne, a farmer of Crum Elbow, N. Y., tied one end of a rope around the neck of one of his horses, threw the rope over a tree limb and fastened the other end to the bridle of another horse, which became frightened and pulled so hard that it strangled its mate to death. Members of the S. P. C. A. investigated and Byrne, pleading guilty, was fined \$25.

### TEDDY BEAR SAVES CHILD

Clasped in Her Arms, Toy Shields Body From Wheel of Automobile.

Defiance.—A fuzzy, brown Teddy bear which she held clasped in her arms, probably assisted in saving the life of the four-year-old daughter of Mr. and Mrs. Albert Degler. As the father backed his automobile out of the garage one of the rear wheels passed over the body of the little girl. She was still holding the Teddy bear in her arms when picked up. The wheel of the car also passed over the toy bear, which shielded the child's body. Indications are that the girl will recover.

### Take the Safes With Them.

Lafayette, Ind.—There's a new outdoor sport in Indiana. It consists of stealing safes and hauling them away from the store to be opened at leisure. A lot of yeggs have become experts. Edward Spangler of West Street found his safe in a field, after it had been carried off by a yegg.

## WHEN MADRID IS GAY

Presence of King in Town Cause of Wonderful Spectacle.

Brilliant Daily Display in the Palace Yard as the Guard is Changed.

Madrid.—More color is to be seen in the palace yard of Madrid when King Alfonso is in residence than is to be found in any other part of Spain. The military spectacle alone is brilliant, with the striking uniforms of red and blue hussars, the dark blue of the artillerymen and the red trousers and blue tunics of the infantry as the old and new guards face each other at 10 o'clock, with the flags unfurled in the center and the two regimental bands drawn up in circles playing martial airs.

The customary brilliant sunshine makes the fixed bayonets and unsheathed swords flash in the air as the

various units carry out the smart military exercises.

Thousands of civilians, mostly visitors to Madrid, gather around the precincts of the palace to watch the spectacle. Numbers of them are from the Spanish provinces, and their bright shawls and scarves mixed with the more prosaic dress of the Madrilenians form a fit setting to the bright picture.

Further details are added by the hincant vendors of peanuts and hot butter rolls and other delicacies loved by the children, who under the eye of their nursemaids in their picturesque costumes of varied hues run hither and thither.

Sometimes the king himself comes out on the balcony to salute his guard and then all is hushed while he faces the regimental flags, and after bowing his head raises his hand to his kept.

The picture is on view for about an hour every morning.

## CANADA BIG WINNER

Captures Many Prizes at Leading American Fairs.

Remarkable Showing Made at International Live Stock Show at Chicago—Carried Off Sweepstakes For All Wheat.

Something that lends emphasis to, and affords definite proof of, the generosity of the soil and climate of western Canada, is shown by the numerous exhibits made by both the government and individual farmers and stock raisers of that country, at many of the leading state and county fairs in the United States this season. Particularly is this the case with regard to exhibits made at the International Live Stock Show recently held at Chicago.

First and foremost to the average farmer will appeal the fact that Canada carried off the Sweepstakes for all wheat, and that out of a total of twenty-five prizes, Canada took twenty. In oats the Grand Championship was won by a farmer living in the Province of Alberta. Canada also was awarded the championship for Durum wheat, while for Flint Corn out of a total of ten prizes, Canada took first, second, third, sixth and seventh.

Not only in grains did Canada prove her right to rank as a first class agricultural country, but she carried off many prizes for cattle, horses, sheep and hogs, a partial list of which follows:

Cattle, Canada was awarded the championship for Grade Shorthorns, also in the College Special class, Canada gained first, fourth and sixth prizes.

Horses, Grand Championship for Clydesdale stallion, also Grand Championship for American bred mare, as well as first for three-year-old Clydesdale stallion, first for one-year-old Clydesdale stallion, and second for the aged class.

In the Belgian class, Canada obtained first and reserve for Championship Belgians, as well as second for Aged stallion.

Sheep, Canada obtained Championship for block, male and female, in addition to first prize in all group prizes.

Hogs, in the Yorkshire class Canada was very prominent, taking the Championship for pen of Yorkshires, and championship for best single barrow, as well as over twenty first, second and third prizes in other classes of Yorkshires.

With regard to the live stock shown it must be borne in mind that these have not been fed on corn, on which the average western farmer places his reliance, but on the wonderful oats and barley grown in western Canada, supplemented by the native grasses, of which a most artistic display was made by our neighbors to the north.

Canada has conclusively proved that not only can she take prizes for the grain she raises, but can also take prizes with the animals to which these grains have been fed, and this in open competition with the world.—Advertisement.
