Will Renkel was down from Hub-
bard on business Monday.

Thos. Graham was over from Sioux
City Tuesday on business.

Ed Phillips was up from So. Sioux
City the past week, visiting relatives
and friends.

Chas. Voss & Sons of Omaha pre-
sented, marketed a car of hogs in
Sioux City Tuesday.

Mrs. Will H. Orr entertained a
woman's club of twelve members at
a three course luncheon Saturday af-
ternoon.

The Farmers' Grain & Supply Co.,
of Dakota City, Neb., is now in a po-
sition to supply their customers with
Gooch's Best Flour.

Kathryn Ashford, daughter of Mr.
and Mrs. Geo. W. Ashford, of Homer,
visited over Sunday here in the Dr.
C. H. Maxwell home.

Albert Schumacher is here from
Council Bluffs, Iowa, assisting at the
Mell A. Schmied home, while Mr.
Schmied is in the hospital.

Little Dorothy Lean, daughter of
Mr. and Mrs. Frank Lean, was operat-
ed on Sunday at the Samaritan hos-
pital, Sioux City, for appendicitis.

Mr. J. F. Stahl, of Madison, S. D.,
is spending the week here with her
brother, Mell A. Schmied, who is in
a Sioux City hospital for treatment.

H. C. Hansen and family drove up
from the farm west of Homer Satur-
day and made a short visit here in
the Robert Hansen home, while en-
route to Sioux City.

The Nebraska College of Agricul-
ture gives the following suggestions
for making a lawn: Plow or spade
the ground to a depth of 8 to 10
inches. Pulverize the soil thoroughly
and apply well-rotted manure to the
depth of at least one inch. Work
this well into the soil. The ground
should then be leveled off and thor-
oughly raked, thus pulverizing the
soil and producing a good seed bed.

The following lawn mixture is rec-
ommended for eastern Nebraska.
(parts by weight) Kentucky blue
grass, 4 parts; Canada blue, 2 parts;
redtop, (fancy) 1 part; meadow fes-
cue, 1.5 parts; English rye, .5 part;
Rhode Island bent, 1 part. If clover
is desired, add one part of white
clover by weight. One pound to
300 square feet or five bushels to the
acre, is about the proper amount of
seed. Cast the seed in a north and
south direction and then east and
west, to insure even distribution.
Rake to entirely cover the seed and
roll with a moderately heavy roller.

Short work was made of the case
against Joe Garcia and Joe Jesu, two
Mexicans arrested at Laketon, a sid-
ing on the Burlington at Crystal lake.
Fred Schmidt and Dave Barrett, rail-
road detectives, last Thursday night,
when the pair was apprehended loot-
ing merchandise cars. A truck load
of goods was recovered and returned
to Sioux City. The Mexicans were
taken to Hartington, Neb., by Sher-
iff Geo. Cain Friday, where district
court was in session, and after plead-
ing guilty as charged, Judge Graves
gave them a sentence of from one to
five years in the penitentiary. Sher-
iff Cain landed them in the pen on
Saturday. Officers Schmidt and
Barrett were over again on Monday
night and located some more loot un-
der the old dance hall building at
Crystal lake park. They recovered
101 cans of cigars that had been re-
creted there by thieves. This is only
a small part of the stolen goods, ac-
cording to the officers, who state
that there are three separate gangs
of thieves operating at the sidings
at Crystal lake.

Government Issues Farmers' Almanac
"Beware of false prophets. Don't
plant by the moon." "Keeping farm
accounts never worried Adam; but he
was only a gardner." "The owner of
a scrub bull should have a leather
medal—made from the bull's hide." These
bits of advice are contained in
"An Agricultural Almanac for 1921,"
issued by the United States depart-
ment of agriculture. The almanac,
which appears as farmers' bulletin
1202, offers seasonal suggestions on
such topics as the weather, farm
plans, fruit, livestock, poultry, farm
operations, marketing, etc. Refer-
ences to other publications of the de-
partment tell where detailed infor-
mation on each subject can be had. A
section on "Farm Helps" discusses
farm laws and gives tables and di-
rections for such things as mixing
stock feed, fertilizers, and spray so-
lutions; weights of seed and grain,
and other information useful to
farmers and their families. A limited
number of copies is available for dis-
tribution, and application should be
made through county farm bureau,
or to the college of agriculture at
Lincoln.

Clown Teaches Health to Children
In the interests of better child
health, Nebraska county farm bu-
reaux, women's clubs, the agricultural
extension service, schools and other
organizations are co-operating in
bringing to this state Cho Cho, fa-
mous health clown of the child health
organization of New York. Because
all children love a clown the methods
of Cho Cho are very effective. With
charming nonsense and drill antics
he drives home the simple truths of
health and hygiene. He teaches
children that vegetables and fruits
are to be preferred to pills and po-
tions, and that good health is the
foundation of right living. His health
rules for children are: Brushing the
teeth at least once a day; a full bath
more than once a week; drinking as
much milk as possible, but no coffee
or tea; eating some vegetables or
fruit every day; drinking at least
four glasses of water a day; a bowel
movement every day; playing part of
every day out of doors; sleeping long
hours with windows open. Arrangements
are being made to follow up
Cho Cho with a definite campaign
for child health improvement. Where
health habits are taught early they
become permanent and of inesti-
mable value.

Seed Potato Growers Encouraged

In spite of the generally low price
of potatoes, growers of good seed in
western Nebraska are making money
this year. A large amount of seed
potatoes have been marketed for \$2
or more a hundred pounds, while
eating potatoes are now bringing
only 60 cents a hundred. Western
Nebraska dryland sections are pro-
ducing what is considered a superior
grade of seed of the Triumph variety.
It is practically free from disease
known as mosaic, which is doing con-
siderable injury in other states.
Buyers from Texas and other south-
ern states, where Triumphs are de-
sired on account of their earliness,
are bidding up for Nebraska seed.
The state college of agriculture is
encouraging the growing of seed po-
tatoes by a system of inspection and
certification. Growers following es-
tablished lines of culture have their po-
tatoes inspected in the field and bin.
Then they are carefully graded and
sacked and sealed with a certifica-
tion tag, which insures the buyer
that he is obtaining seed of good
quality. Certification also usually
insures the grower an extra price.

Matrimonial Ventures

The following marriage licenses
were issued by County Judge Mc-
Kinley during the past week:

Name and Address.	Age.
Henry C. Powell, Dakota City	22
Winnie R. Hackett, Dakota City	17

Francis E. Engebretson, Sioux City, Iowa	21
Sophia Wolfe, Sioux City, Iowa	25
Bert Brassfield, So. Sioux City, Legal	
Mary Burton, Omaha, Neb.	Legal
George Randall, So. Sioux City	21
Gladys Wybe, Sioux City, Iowa	20

For Sale

Two-row stalk cutter; Van Brunt
drill, with grass attachment; 7-foot
McCormick binder, with tractor
hitch; a good fanning mill; 1-horse
drill for seeding winter wheat.

WILL H. ORR,
Dakota City, Nebraska.

Alfalfa Bringing More Than Corn

In some places in the state a ton
of alfalfa now will bring more than
a ton of corn. Corn at 30 cents a
bushel will bring approximately
\$10.75 a ton, or at 42 cents, \$15 a
ton. Considering the amount of la-
bor and expense in producing the two,
alfalfa should be the better paying
crop. The state college of agricul-
ture is looking for a considerable
acreage of alfalfa, sweet clover, and
other pasture crops to be seeded this
spring. In spite of price tendencies,
livestock production appears to be
more promising than grain farming.
The experiment station at Lincoln
has found sweet clover to be a good
pasture crop. Seeded about April
15, it is ready, under favorable con-
ditions, to pasture by the middle of
June. As a rule, the earlier it is
seeded the better. Rape is a hog
pasture crop worth while. It also
should be seeded early, preferably in
March in eastern Nebraska.

BOMBAY A CITY OF BEGGARS

Government is Planning Severe Meas-
ures to Repress Nuisance That is
Becoming Intolerable.

Some time ago the government of
Bombay appointed a committee to
consider and formulate proposals for
the purpose of suggesting practical
measures whereby the ever-growing nu-
isance of professional beggary might be
abolished. The committee has now
completed its investigation and has
issued a report.

The report shows that there are in
Bombay city alone 5,000 professional
beggars, and the beggars in other
parts bring the total for the presi-
dency to over 60,000. The general
conclusions of the committee are that
there must be introduced at the ear-
liest opportunity an act for the preven-
tion of professional beggary, which
will be applicable to the whole of the
presidency.

Sadhus and fakirs, it is suggested,
should be exempt from the operations
of the act, which it is proposed should
make begging a cognizable offense.

Those who have visited India will
doubtless recall with feelings of horror
the terrible sights they have witnessed
of beggars, many of them physical
wrecks and suffering from loathsome
diseases, seated about the roads sol-
larding alms from passersby.—From
the Times of India.

War Maps for Envelopes.

From the Red Cross Bulletin of the
Baltic states, published at Riga:

"The shortage of paper has resulted
in many novel makeshifts. One of
these is the use of German and Rus-
sian official war maps as material for
envelopes.

"Large quantities of war maps of the
Russian, the German imperial army
and the German western volunteer army
were captured by the Letts since their
independence in November, 1918. They
were sold to private interests, who
make many varieties of envelopes from
them. The paper is of excellent qual-
ity.

"No attempt was made to remove
the map proper. The maps were sim-
ply folded and cut to size and glued.
It is very convenient to open a letter
and find that the inside of the envelope
is a map of the district of which the
letter treats."
