LEGISLATIVE DOINGS

The house is holding night sessions twice a week in order to dispose of bills that are up for third reading.

Eleven Nebraska institutions engaged in child work have petitioned bills that would interfere with their work.

The senate approved the bill that reduces the amount of butter fat that is included in ice cream. This may have the effect of reducing the price of ice cream.

The house added \$100,000 to the appropriation for state aid bridges. The appropriation bill was approved by the house without much difficulty.

By a close margin the house decided to put judges, school superintendents and others back on the partisan ballot, thus doing away with the non-partisan ballot.

Up to the present time Utah legislators have enjoyed four fist fights. Nebraska legislators have some lively scraps but all of them have been settled so far without resorting to Jack Dempsey methods.

Members of the house judiciary committee petitioned Governor McKelvie to introduce a bill to continue the supreme court commission for two years. The senate has twice killed a bill to continue the commission.

The language bill, passed by the senate, has reached the house and it is expected to pass without serious opposition, although an active lobby is working against it. It will have to be reported out by the sifting committee.

Some of the legislators say they are getting mighty tired of being called upon to settle private scraps that originate in Omaha. Some of them say if they had it to do over again they would vote to pass every Omaha bill that comes up, regardless of what it might do.

The senate finally passed the bill providing for a standard loaf of bread, but considerable oratory was necessary in order to do it.

WISE AND OTHERWISE

Mose Warner, the sage of the Lyons Mirror-Sun, famous weather forecaster and predictor, who has recorded in his mind all matters historical pertaining to this region of Nebraska, says in a recent issue of Mirror-Sun: "This is the finest winter ever known since the advent of the white race to this country, and even Indian tradition says nothing equal to it has been seen for the last hundred years. The grass has started to get green, and the farmers are sowing wheat and discing for corn."

John Burroughs truthfully says: The best and most hopeful feature in any people is undoubtedly the instinct that leads them to the country to take root there, and not that which sends them flocking to the town and its distractions. The lighter the snow, the more it drifts; and the more frivolous the people, the more they are blown, by one wind or another, into towns and cities.

Who said truth was stranger than fiction?

"YOU'RE FIRED," said the editor. "UNLESS YOU can dig up. A LIVE story today." SO THE cub reporter. DISAPPEARED FOR hours. BUT WHEN he recovered. FROM HIS trance, he had. A STORY—here it is. OUR DEPUTY constable. WAS WAKENED by the 'phone. AND A shrill voice cried. "FOR THE love of Mike. BEAT IT here quick. AND NAIL a nut. WHO'S TALKING wild. IN THE cigar store." THE LONG arm of the law. PUT ON his pants. SPED TO the scene.

AND AFTER a brief. BUT TERRIFIC struggle. MADE THE pinch. AND WHEN interviewed. BY OUR star reporter. GAVE OUT this statement. "HE'S A loony, all right. THE ASYLUM says, by Heck. THE WORST they ever had. WHY THE poor nut. CLAIMS HE can copy. THE SECRET blend. OF THE cigarettes. THAT SATISFY."

NO—the blend can't be copied. It's one way of blending fine tobaccos—both Turkish and Domestic—that the other fellow can't get onto. That's why Chesterfields "satisfy" and that's why only Chesterfields can "satisfy."
