How can women who are weak and sickly expect or hope to become mothers

How can women who are weak and sickly expect or hope to become mothers of healthy children? Their first duty is to themselves. They should overcome the derangement or debility that is dragging them down, and strengthen the entire system, as did Mrs. Janssen, by taking Lydia E. Pinkham's Vegetable Compound and then they will be in a position to give their children the blessing of a good constitution.

SOLDIERS ON FORCE

Courts Support the Police Splendidly, Although a First Offender is Hardly Ever Sent to Jail-Intoxication on Wane.

New York.-How London is policed by 2,200 constables over an area 30 miles in diameter without a revolver in the pocket of a "bobby" was discussed by Inspector A. J. Spriggs, honorary secretary of the London Metropolitan Police Athletic association, who is living at the New York Police club, according to the New York World.

"Crime wave, you say?" he asked, quizzically, when questioned on the sitnation in London. Why, we have our good and bad spells, like you do here." He then explained that London appoints 1,000 constables a year. He said the force had been depleted by more than 1,000 during the war, many of the men never returning. But even in normal times, he explained, the department requires 1,000 new men an-

"How's that?" "Our men are not armed."

"Why?" "No need for it-a criminal does not

expect to be shot, and I suppose he does not care to risk being found with a gun," responded the Londoner.

London policemen are promoted 'right off" for especially good work, Inspector Spriggs explained. He said that almost every man entering the department in the last year or two had been a soldier.

Toloski told the court he believed he was justified in treating his wife any way he saw fit, as he had always done so in Russia, but the magistrate said he would give him a taste of Russian punishment, since he was so fond

An ancient law was invoked to permit the lashing. Warden Gallinger supervised ten lashes in the afternoon. Ten more will be given at the end of Toloski's twentieth day of impris-
