WONDERFUL GAIN IN WEIGHT REPORTED

Young Woman Only Weighed 70 Pounds-Now Weighs Over 100 and Is Gaining Every Day.

"Before I began taking Tanine I only weighed 76 pounds, I now weigh over one hundred and am gaining every day," said Miss LaRue Davis of Chattanooga, Tenn.

"I bought my first bottle of Tanlac at Gas City, Ind., and it helped me so much that I continued using it. I have always been very delicate and suffered a great deal from stomach trouble and rheumatism. I rarely ever had any appetite and simply could not relish anything. I fell off until I only weighed 76 pounds and was so thin I looked perfectly awful. This is the condition

my complexion is improved. My appetite is good and I can hardly get enough to eat. Tanlac is simply graud and I can truthfully say it is the only medicine that has ever done me any good."

Tanlac is sold by leading druggists everywhere.-Advertisement.

Try Being Poor. "What's the good of wealth?" "What, indeed? I have four automobiles and the doctor says I must walk to and from the office."-Boston Transcript.

If You Need a Medicine You Should Have the Best

Have you ever stopped to that are ex-it is that so many products that are ex-tensively advertised, all at once drop out of sight and are soon forgotten? The Have you ever stopped to reason why of sight and are soon forgotten? The reason is plain-the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is and enters chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend for in and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Sw np-Root is due to the fact, so many people claim, that it fulfills al-most every wish in overcoming kidney, liver and bladder ailments; corrects uritroubles and neutralizes the uric nary acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cen's; also mention this paper. Large and medium size bottles for sale at all drug stores. Advertisement

HAVE HERITAGE OF HONESTY Little Doubt That Children Know In-

stinctively. That It Is Wrong to Commit Theft.

"I knew from a child that it was wrong to steal," said a very successful man, who has made a fortune without being a crook.

"That is what saves the world." replied an editor to whom he was talking. "Thank heaven, all boys are honest. They never become crooks till they are men."

That statement is not perfectly, although in a large measure, true. While children, if trained by scoundrels, will steal, they know instinctively that stealing is wrong. They would much rathe" be straight.

The theft of apples or watermelons or peaches committeed by youngsters I was in when I began taking Tanlac. is mischief. Show them that it is read-"Oh, I feel so different now. Even by stealing, that they are depriving someone else of what is rightfully his, and there will be no more climbing over back fences for them.

One of the reasons that this is not a difficult world in which to live is that honesty is instinctive, and theft has to be cultivated.

The average schoolboy despises a thief, and will have nothing to do with him. If he reads in the newspapers of an absconder or a forger or a man who misappropriates a trust, the lad is shocked and disgusted. It is only when he becomes hardened by contact with the world, and learns that men often prosper, even though they are dishonest, that he becomes hardened and justifies his own misdeeds.

Watch a crowd of boys at games, and you will find that the cheat is always marked and barred from the game if he continues to cheat.

The cheat himself was not a cheat always. He has learned cheating from another boy, who in all likelihood learned it from a man.

As long as we start honest, as most of us do, the great percentage of us are likely to remain so. Only those who are weak fall from their standards, and even they, when the race is over, heartily regret that they ever were anything but fair and clean and open minded in their dealings with their fellows,

Improved Airplane Propeller.

Announcement is made in the Times through will be imprisoned; lying upof the invention of an improved type on the lowest, and rising to some of airplane propeller whereby engine point in the highest, when a pervious power necessary for driving the airstratum brings it to the surface and plane will be lessened and the vibrait escapes in the form of spring. If, tion of the machine will be much rehowever, a shaft can be sunk to the duced. The new type of propeller lowest point, the water of the whole arises from the addition of a number basin will pass upward for escape of "veins" or flanges made of alumiand will rise to a level, corresponding num to the existing type of propeller. to the greatest height to which the These "veins" are about 6 inches in imprisoned strata reaches. The wells height and run parallel across the surwere named from one at Artols, face of the propeller at a distance of France, which was the first sunk with about one foot from each other. There full knowledge of the principle inare eight at the drive side, four at each end of the blade, and six on the wind side in similar position. It is claimed that by this arrangement the air is properly directed past the propeller blade faces, with the result that there is an avoidance of the air losses from the blade ends, which through natural causes take place in the present type of propeller, making posible a maximum thrust with a minimum expenditure of power.

CONDENSED CLASSICS ABBE CONSTANTIN By LUDOVIC HALEVY Condensation by Charles E. L. Wingate

Ludovic Halevy,

French author was born in Paris on the first of January, 1834. His father was p clever, versatile writer of verse, prose, vaudeville and drama; his uncle, Fromantal Halevy, was for BRBY YEARS ASSOciated with the opern; hence the double and early connection of Ludovic with the

Danse" with which he was to make his

readers so familiar. At eighteen he joined the ranks of the French administration and occu-

pled various posts. In the spring of 1860, being commis-mioned to write a play for the manager of the Varieties, Halevy asked the col-laboration of Heari Meilbac, and the proposal was immediately accepted, thus beginning a connection which con-tinued for more than 20 events. tinued for more than 20 years. The joint work of the two authors

had a great vogue, but Halevy is best known to more recent readers by his "L'Abbe Constantia," published soon after the conclusion of the Franco-Prussian war. Halevy died in Paris on the 8th of

7 ITH a step still valiant and

firm the old Abbe Constantin walked along the dusty road of the little village where for more than thirty years he had been the cure. At the entrance of the castle of Longueval he stopped and mournfully regarded the big blue posters ing across her bare shoulders, watched fixed on the pillars.

They announced the sale of the castle, the former home of the cure's me," she thought, "but now I am very dear old friend, the marquise, who had sure that I, too-oh! yes! I, toorecently died.

And the result of the auction? The great estate bought by two en tire strangers!

"Do you know who they are?" asked Madame de Lavardens. "Yes, Mrs. Scott is an American pos- to the abbe that he adored Bettina.

One day when Jean was telling of his expectations of promotion and the probability that he should wander from garrison to garrison, fizelly coming back to the little house that was his father's, as an old colonel on half pay, she exclaimed : "Always quite alone?"

"Why quite alone? I certainly hope not.

"You intend to marry?"

"Yes, certainly."

"Yet you have refused several good "Because," he replied. "I think it

best not to marry rather than to marry without love." "And I think so, too."

She looked at him; he looked at her and suddenly, to the great surprise of both, they found nothing more to say -nothing at all.

But now Jean is no longer tranquil; with impatience and at the same time with sorrow he sees the moment of his departure approach. Yet how could he stay and resist the temptation of Bettinn's charm?

As an honorable man Jean felt for Bettina's money horror, positive horror.

In Bettina's mind the sensation of love had come at the same time that it had to Jean's. But, while he, horrified, had cast it violently from him, Parisian stage. At the age of 6 he she on the contrary had yielded in all might have been seen playing in that "Foyer de la the simplicity of her perfect innocenze to this flood of emotion and of tender-Dess.

> As Bettina grew more tender, Jean become more gloomy. He was not only afraid of loving; he was afraid of being loved. He felt he ought to remain away, but he could not; the temptation was too strong.

He tried to avoid Bettina at receptions and even to leave without saying good-bye.

"If I touch her hand," he thought, 'my secret will escape me."

His secret! He did not know that Bettina read his heart like an open book

When Jean descended the stairs these words were upon his lips:

"I love you, I adore you, and that is why I will see you no more!"

But he did not utter them; he actually fled into the darkness.

Bettina standing in the hall door and taking no notice of the rain drivhim go.

"I knew very well that he loved Meanwhile Jean hastens to his dear old friend the cure to tell him that he is going away immediately to Paris to seek exchange into another regiment, to leave the little hamlet forever. And then in his emotion he confessed

sessing a colossal fortune. Ten years "It is a madness which has seized ago Mrs. Scott begged in the streets me," he exclaimed. "Ah! if she were "Do you know what I think, Jeau?" exclaimed his good friend. "Jean, 1 "And I believe it, too; but that is the very reason I must go. Her money is the great obstacle." At that moment someone knocked gently at the door. It was Betting.

Some men who don't seem to know when they are whipped, doubtless have suspicions.

WIFE TAKES HUSBANDSADVICE And Is Made Well Again by Lydia E. Pinkham's

Vegetable Compound

Springfield, Mass. - "The doctor told my husband that I had to have an oper-

ation, otherwise I would be a sickly woman and could not have any more children on account of my weakened condition. I refused to have the operation. My husband asked me to try Lydia E. Pinkham's Vegeta-ble Compound to see if it would not help ne. For the first

four months I could do but little work, had to lie down most of the time, was nervous and could eat hardly anything but my husband was always reminding me to take the Vegetable Compound, which I did. Of my eight children this last one was the easiest birth of all and I am thankful for your Vegetable Compound. I recommend it to my friends when I hear them complaining about their ills."-Mrs. M. NATALE, 72 Fre-mont St., Springfield, Mase. Sickly, ailing women make unhappy homes, and after reading Mrs. Natale's letter one can imagine how this home

was transformed by her restoration to health. Every woman who suffers from such ailments should give Lydia E. Pinkham's Vegetable Compound a fair trial. It is surely worth while.

Gets Power From the Air.

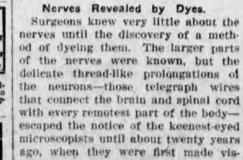

Hermann Plauson has actually

been extracting electric current from the air and using it for power. The Scientific American says he uses a captive balloon having a metallic cover provided with a large number of pointed projections or spikes and allows it to ascend to a height of 1,000 or 1,600 feet above ground. Positive electricity is then collected from the air and transmitted to the ground through a wire rope fitted with sparking gap, which in turn produces an electric vibration in a circuit. M. Plauson obtained with one balloon at a height of 1,000 feet a supply of 17.28 kilowatt hours per diem, and with two balloons 91.6 kilowatt hours. He calculates that a battery of ten baltoons should give an annual supply of 210,000 kilowatt hours.

Palaces for \$10 a Month. Costly marble palaces, erected in the Sixteenth century by Dutch merchants on the all-but-forgotten isles of the South seas, are for rent at two pounds ten shillings a month, approximately \$10, according to letters received by Sydney newspapers from mariners and itinerant merchants. The letters were in answer to a re-

quest for information made by an English novelist, who is visiting Australia in search for a forgotten island of romance in the Banda sea.

One of the letters gave details of the Island of Banda Neira, where merchants erected palaces, now for rent at \$10 monthly, out of the proceeds of their flourishing nutmeg and other spice plantations in the Sixteenth century.
