PE-RU-NA

For Coughs, Colds and Catarrh

Mr. E. W. Marshall, Hampton, Michigan, suffering from Systemic Catarrh involving Head, Nose, Throat and Stomach, claims a complete cure. His letter is convincing: "For the past two years I have been troubled with systemic catarrh. I used several boxes of Pe-ru-na tablets and they have effected a complete cure. I do not hesitate to recommend Pe-ru-na for all catarrhal conditions."

Mr. Marshall is just one of many thousands who have been benefited by Dr. Hartman's famous medicine in the past fifty years.

It is by stimulating the digestion, enriching the blood and toning up the nerves that Pe-ru-na is able to exert such a soothing, healing influence upon the mucous membranes which line the body. It is a wonderfully effective remedy to restore strength after a protracted sickness, the grip or Spanish influenza.

Keep in the House Sold Everywhere

At birth the pulse of a normal individual beats 136 times a minute, at the age of thirty, seventy times.

In Tahiti serious crimes are punished by tattooing a mark upon the forehead of the delinquent.

CARRIED SECRET TO GRAVE SUNSHADES FOR LUCKY DOGS

Canadian Prospector Refused to Divulge Location Where Gold Cropped Out.

A man who kept his secret to the end was the Canadian hunter Gilbertson. Sixty years ago, when he was making a canoe trip up the Wapshe River, the New York Evening Post states, he struck camp for the night near what later discoveries indicate must have been a large body of gold-bearing ore. Without knowing what this ornamental stone was, he took home a big piece to use for a door weight. A while after this a geologist who was visiting Gilbertson identified the ore, and a rush to stake claims along the Wapshe ensued. But the unwitting prospector would never tell where he made his great find. In later years he became insane and died, still refusing to reveal the location. This season a systematic search of that country is being made in hope of rediscovering "the Gilbertson lode."

Lost.

Stella—Did she lose her heart?
Bella—Yes, she wants it returned with one question asked.

The sea is generally getting more and more salty.

Alfred the Great built England's first fleet in 878.

Innovation That Was Brought About by the Protracted Spell of Unusually Hot Weather.

One of the quaintest innovations of the recent heat wave in London was the introduction of sunshades for dogs. These consisted of light crepe-de-chine protections suspended over the animal's necks by light wire strands.

The "lucky" animals whose masters or mistresses bought the sunshades did not seem so pleased with them as perhaps the donors had hoped, remarked London Answers.

One dog found the heat so oppressive that he sought the shelter of a railway tunnel on the Highbury tube. Here he was, however, so frightened by the continual passing of trains that he shrank into a dark corner and remained there for two days, until his master, on the information of a railway man, fetched him.

Although sunshades for dogs made their first appearance, there was a strange absence of the straw hats that horses used to wear before the war. Have horses been so hardened by the great campaign that they do not need the consideration that dogs get?

She always believes that her shoes look larger than they really are if they feel comfortable.

MARKET REVIEW

Compiled by the Nebraska State Bureau.

BIG DECLINE IN GRAIN PRICES

Cattle Steady to Lower, Choice Yearlings and Calves Up; Hogs and Sheep Higher.

Cattle—Receipts of cattle at Omaha last week totaled approximately the same as the week before, although opening with the lightest Monday's run since the first week of September. A large percentage of the supply consisted of western steers with an occasional load of cornfeds. Reports of heavy receipts of grass beefs at River markets, especially at Kansas City, affected local buyers' orders to some extent but desirable kinds finally moved at steady to higher prices. Good yearlings and light steers offered the strongest competition thruout the week.

For the week good and choice heavyweights and yearlings were 25c higher. Yearlings reached a top of \$10.50. The bulk of fed steers sold from \$7.75 to \$9.50. Grass steers brought \$5.00 to \$6.00 with a top of \$7.75. Cows and heifers sold steady to 25c lower, the bulk going at \$3.50 to \$5.50. Bulls were 50 to 75c lower, selling mostly at \$2.75 to \$3.50. Calves gained 25c, reaching a top of \$10.00.

Hogs—All classes and grades of hogs were 10 to 25c higher for the week. The bulk of medium and light butchers selling toward the last of the week at \$7.25 to \$7.75 and packing classes at \$6.10 to \$6.60. The demand from both shippers and packers was active. The receipts for the week were below those of the previous week by approximately 2,000 head.

Sheep—Receipts of sheep for the week were 28,000 head less than the previous week and prices ranged fully 25c higher on most grades. Not so many country buyers were on the market but regular order buyers were active and packers were out early. The bulk of westerns sold at \$8.00 to \$8.25; natives, \$7.25 to \$7.75; ewes, \$3.75 to \$4.25; wethers, \$4.50 to \$5.00 and yearlings, \$5.00 to \$6.00.

GRAIN.

The trend of the grain market was downward all week and prices reached new low levels for the season. However, export demand was better toward the last of the week and a late message reported two million bushels of wheat sold, mainly to Italy and the Orient. Latest reports placed the visible supply of wheat at 52,795,000 bushels, an increase of 1,636,000 for the week. It is estimated that only 46 percent of the northwestern wheat crop remains to be moved. The total exports for week last reported were 5,546,000 bushels as compared with 4,370,000 bushels for the preceding week. For the week to date, Chicago December wheat lost 10c; Minneapolis, 13c; Kansas City, 9c and Winnipeg, 15c.

POTATOES.

Potato shipments reached the highest point, so far this season, during the week ending October 1st, when 10,601 cars moved, nearly doubling the previous week's volume of 5,824 cars. The season's shipments to October 3rd inclusive were 82,118 cars. The season's shipments from western Nebraska to October 3rd, inclusive were 1,128 cars as compared with 250 cars to the same date last year. On the Omaha market, Nebraska potatoes, grade No. 1 sold at \$2.25 to \$2.35; No. 2, \$1.50 to \$1.75. Prices to growers in western Nebraska—carloads f. o. b. sacked, Early Ohio, No. 1, \$1.80; No. 2, \$1.50 to \$1.60; wagon loads, cash to growers, \$1.17 to \$1.25, mostly \$1.17 per 100 lbs.

DAIRY.

Eastern Butter markets developed a stronger tone when definite information became available as to the quantity of Danish butter to be expected in the near future. Better grades advanced from three-quarters to a cent during the week and undergrades showed slight improvement. Closing prices for 92 score—New York, 46c; Chicago, 44c; Philadelphia, 46c and Boston, 46c.

Latest reports from The American Association of Creamery Butter Manufacturers show an increase of 9.8% over the corresponding week a year ago and an increase of 44% over the previous week. The total receipts at Chicago for the month of September were 14,884,367 lbs. Of this quantity of butter, Nebraska contributed 1,107,412 lbs. Locally, country butter is selling at from 25 to 30c and the station price for butterfat is 34c.

POULTRY.

Receipts of both poultry and eggs at the principal markets continue considerably in excess of last year and prices remain steady to higher. Eggs advanced a cent to a cent and a half at New York and Chicago during the week. Local prices: Select, 34-37c; No. 1, 32-35c. Local prices, poultry: Broilers, 18-25c; springs, 16-17c; hens, 16-19c for lights, heavy hens, 19-20c.

No Room for More.

Violates Traffic Laws.

"While returning to camp one night I walked right into a herd of elephants," states a well known explorer in his memoirs. We have always maintained that all wild animals above the size of a rabbit should carry two head lights and one rear light while traveling after dark.—London Punch.

TAKES CARE OF 5 CHILDREN

Mrs. Taylor's Sickness Ended by Lydia E. Pinkham's Vegetable Compound

Roxbury, Mass.—"I suffered continually with backache and was often despondent, had dizzy spells and at my monthly periods it was almost impossible to keep around as my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it, and doctor's medicine did not help me. A friend recommended Lydia E. Pinkham's Vegetable Compound and I have found great relief since using it. My back is much better and I can sleep well. I keep house and have the care of five children so my work is very trying and I am very thankful I have found the Compound such a help. I recommend it to my friends and if you wish to use this letter I am very glad to help any woman suffering as I was until I used Lydia E. Pinkham's Vegetable Compound."

Mrs. MAUDE E. TAYLOR, 5 St. James Place, Roxbury, Mass.

A Day of Rest.
"Funny thing about Jackson; he never motors his wife out to the country any more on Sundays."
"There's a reason. He claims it's bad enough to have to lug home stuff from the city on week days without having the wife pick up produce bag gains along the country roads on Sun days."—New York Sun.

A Suggestion.
Mrs. Scapp—'I've talked and talked to you until I am worn to a frazzle.

HOME TOWN HELPS

PREDICT SMALL TOWN BOOM

Residential and Industrial Roadjustment May Come During the Next Twenty Years.

Is this country to see very soon a "boom" of the smaller community as contrasted with the great city? The editor of the William Feather Magazine of Cleveland suggests it, as follows: "Within the next twenty years it seems certain that two movements will take place that will enlarge the small town.

"One of these will be the migration of business and professional men and their families to towns of 5,000 to 20,000 located within a fifty-mile radius of cities in which they work during the day.

"The other will be the decentralization of industry and the movement of both factories and working forces from the city to the small towns.

"With improved living conditions, factories will favor small town sites, figuring that they will thus reduce their labor turnover, and save enough in overhead, taxes and interest on expensive city sites, more than to compensate them for the disadvantage of doing business in a small town.

"If this adjustment does take place it will solve many of our most perplexing problems, for there is no question that our cities are getting too big. A city, like a business, can get so large that the law of diminishing returns begins to operate. It is an established principle that when a business grows beyond a certain point the return on the capital invested decreases.

"The same principle applies to cities. Big cities have such problems as transportation, housing, health, fire and police protection, from which the small town is largely free.

"The factors which are doing much to hasten this decentralization are the automobile, the motion picture and the talking machine, all of them recent inventions.

"The automobile has shortened the distance between the small town and the big city by 75 per cent.

"The motion picture has given the small town the cheapest and most popular form of entertainment ever devised, while the talking machine has enabled the people to hear the world's best music right in their own homes.

"One other force has aided and is aiding the small town, and this is cheap printing and low postal rates. National weeklies and monthlies through their editorial and advertising columns, have brought the world's news and markets to every door."

NO SIGNS ON THE HIGHWAYS

San Diego Bars Things That Obstruct the Motorist's View of Dangerous Curves.

All signs, stands or obstructions of any kind must at once be removed from the public highways or rights of way in and about San Diego, Cal., by virtue of an ordinance passed by the county board of supervisors. After listening to specific instances of the placing of advertising signs in such a way that they obstructed the motorists' view of dangerous curves and thereby menaced those who use the highways, the supervisors agreed that the practice should be stopped immediately.

The new ordinance will affect the placing of advertising signs on county highway bridges, or over the highways at any point. It also will force the vendors of fruit or other produce along the county roads to keep their stands away from the highways and off the right of way.

Labeling the Washington Trees.

Following correspondence with officers of the American Forestry association, Colonel Sherrill, the engineer officer in charge of public buildings and grounds, has arranged to label the principal trees in Washington's parks, so that everybody interested may know their identity.

The approved design for the label is a small cast iron plate curved to fit the trunk and screwed securely into place. On the surface of this plate is fastened an aluminum plate showing in embossed letters the common and scientific names of the tree. These plates will be placed on about 1,000 trees, including all the rare and least-known specimens, and as many of the indigenous and better-known specimens as possible. It is said that the collection of trees in Washington includes one or two specimens of practically every tree in the civilized world that will grow in that climate.

Postcards Help Boost City.

To encourage civic art and to oppose influences which hinder the city-beautiful movement, the Municipal Art league of Chicago has prepared a series of postcard views of Chicago and vicinity. The new cards are made from prize-winning pictures in a recent photographic contest and are finished in the finest photogravure work. They are an absolute departure from the idea of the ordinary picture postcard, and are expected to add to the prestige of the city by a truer and more satisfactory expression of its beauty.—Popular Mechanics Magazine.

MOTHER! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, plump child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Gland Causes Divorce.

The increased prevalence of divorce in proportion to the growing wealth of the country was attributed by Dr. Ernest E. Tucker of New York at the annual convention of the American Osteopathic association to a change in function of the pituitary body, one of the smallest of the so-called ductless glands, which, he said, is about the size of a pea and is hidden on the underside of the brain.

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be despondent; it makes any one so. But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Advertisement.

The Days of Long Ago.

North—Poor Jack is about down and out.

West—But he was a wonderful toastmaster!

The Cheerful Liar.

First Trunk—Enjoy your vacation?
Second Trunk—Feeling fine; I could lick my weight in baggage men.

It is not the correct thing even in polite society to return the visits of a physician.

Manners can make fortunes.

Used in One Family For Twenty-Eight Years

JANE, Mo.—"Twenty-eight years ago I was in very poor health, having taken the measles when my oldest child was one month old. My blood was out of order and I also had inflammation of the womanly organs and bladder. I doctored with the best doctor I knew of, but gradually grew worse until I was unable to do anything. I heard of Doctor Pierce's medicines so got a bottle of 'Golden Medical Discovery' and one of 'Favorite Prescription,' and I immediately commenced to improve. After taking three bottles of each I was able to do light housework and felt like a different person—a very small expense compared with what I had been paying the doctor. Since then I have always used these medicines in my family."—Miss CHARLES SHANKS.

Send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for a trial package of any of his remedies. No alcohol.

Keep Clean

Internal cleanliness means health. Without forcing or irritating, Nujol softens the food waste. The many tiny muscles in the intestines can then easily remove it regularly. Absolutely harmless—try it.

Nujol
For Constipation

ITCH!

Money back without question if HUNT'S GUARANTEED SKIN DISEASE REMEDY (Hunt's Salve and Soap) fails in the treatment of Itch, Eczema, Ringworm, Tetter or other itching skin diseases. Try this treatment at our risk. Sold by all reliable druggists. A. B. Richards Medicine Co., Sherman, Texas

The Man Who Said:
"The proof of the pudding is in the eating"—
was only half through

He started a good pudding-proof, but he didn't finish it.

There's a lot of trouble in the world from puddings that taste good but don't do good.

They "eat" well, but that ends the recommendation.

Sanitariums are full of pudding-eaters who stopped the test at taste and forgot to inquire whether their food gave the body what it needed—until the body rebelled.

Grape-Nuts is a food that tastes good and does good. The proof of Grape-Nuts begins in the eating and goes on through the splendid service which Grape-Nuts renders as a real food. Grape-Nuts is the perfected goodness of wheat and malted barley—delicious to taste, easy to digest, and exceptionally rich in nourishment for body and brain.

"There's a Reason" for Grape-Nuts
