A Feeling of Security

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder remedy. The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetable herbs.

It is not a stimulant and is taken in teaspoonful doses.

It is not recommended for everything. It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root.

If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

The Dark Cloud.

It is not surprising that clouds come in for more or less criticism. They live high, are often dissipated, and can usually be classed with the vets.

A Lady of Distinction

Is recognized by the delicate fascinating influence of the perfume she uses. A bath with Cuticura Soap and hot water to thoroughly cleanse the pores followed by a dusting with Cuticura Talcum powder usually means a clear, sweet, healthy skin.—Advertisement.

Headquarters Train of Greeks in Asia Minor

Camels and motor trucks afford an odd contrast in this photograph which shows the headquarters train of the Greek forces in Asia Minor, preparing to leave the vicinity of Eski-Shehr in pursuit of the Turkish nationalists.

Long Siege of Freak Weather

World Is Slowly Recovering From
Severe Attack of Meteorological Mumps.

EXPECT PATIENT TO SURVIVE

United States Suffers Chiefly From Excess of High Temperature and Deficiency of Moisture—Some Recent Disasters.

New York.—The old spheroid known as the earth is emerging from what some human diagnosticians might call a severe attack of meteorological mumps. It has been accompanied by an intermittent fever, manifested in a world-wide heat wave of unusual length and intensity. In spite of crises and relapses, earthquakes, tidal waves, cloudbursts, typhoons, waterspouts, hailstorms, floods and hurricanes in many widely separated parts, from Kamchatka to Cape Horn and from Guam to Guadaloupe, the doctors are confident the patient will recover.

Meanwhile the United States for the last year has been suffering chiefly from an excess of high temperature and a deficiency of moisture, a condition unprecedented in the fifty years' history of the weather bureau.

Suffers Heat Waves.

The persistent higher temperatures, for which a number of speculative explanations have been given, began in August, 1920, and for the succeeding twelve months there was an average monthly excess above normal of 3.4 degrees. March, 1921, an unusually warm spring month, had an excess average of 10.8 degrees. The first slight break in the record occurred last August, which was slightly below normal.

In the nine months' period beginning in October, 1918, and ending in July, 1919, the average monthly temperature was 2.71 degrees above normal, and this was a record until sun spots, sea bottom upheavals, or other hypothetical causes sent the mercury still higher. The highest average temperature ever recorded in this country for the month of March, weather officials say, was 48.3, in March, 1921.

The average temperature for April, 1921—55 degrees—was the warmest for that month in half a century. May and June were not unusual, but July broke all records for the preceding eleven years.

Weather bureau officials here declined to discuss the possible connection between the present high temperatures and disasters of nature in many parts of the world.

A glance back for recent disasters and natural phenomena shows the following:

Two million Koreans starving in Manchuria owing to drought-rutted crops.

Three hundred buildings wrecked and many killed by hailstorm and waterspout at Baez, Cuba.

Three volcanoes, Villarrica, Linaima and Lanin, spout flames more than a thousand feet from craters.

Drought kills fish in river Seine and

France suffers most severe drought in 47 years.

Rhine and Moselle rivers do great damage in highest flood in 136 years. Cloudburst and hailstorm damage at Rome, Italy.

Mount Vesuvius shows activity and earthquake shock is felt from Lohorn to Lake Lugano.

Italian destroyers carry inhabitants to safety as volcano Stromboli resumes activity.

Damage of several million drachmas done in Greece by severe hailstorms.

Earth Blocks Canal.

Earth blocks Corinth canal.

Cyclone devastates three towns in Haiti.

Volcano Kilauea in Hawaii spouts immense fountains of lava.

Activity of the volcano Popocatepetl in Mexico increasing.

Earthquake shakes Vera Cruz and four other cities.

Lightning strikes oil wells, causing millions of dollars damage in Tampico and other districts.

Mexicans pray to "water goddess" to end drought.

Volcano Colima in Jalisco is in eruption.

Many lives lost in waterspout which destroyed part of Tangier, Morocco.

Volcano Masaya in Nicaragua in eruption.

Typhoon and floods in Philippines.

and especially on island of Luzon, do great damage.

Six new craters opened at Mount Izalco, Salvador.

Waterspout in Main-Doura, province of Spain, damages crops and villages.

Heat in the Alps causes glaciers to shrink and nine mountain climbers are killed.

Seventy-five dead in tornadoes which sweep southern United States.

Flood inundates Pueblo, causing \$10,000,000 property loss.

Forty-seven perish in San Antonio (Texas) flood.

One consolation of the freak weather, however, is the prospect of an "open winter."

Farmer Crams Melons Into Boys for Robbery

Council Bluffs, Ia.—To be compelled to gorge themselves on a truckload of melons which they had stolen from a field was the novel form of punishment for nine young men caught by Walter J. Miller, melon grower.

Miller surprised the youths and advanced on them with a revolver, forcing them to drive the truck to his house.

He then locked them in a room, and holding them in terror forced them to eat melons that his wife passed through a window.

At the end of the melon-eating contest the robbers were all rolling on the floor in agony while three melons only remained in the truck.

MAN'S WORK BEATEN BY ANTS

Perform Engineering Stunts Surpassing Human Feats.

New York Subway Insignificant in Comparison With Insects' Tunnels—Wonderful Works of Cutting Ants in Texas.

New York.—The subways and tunnels under the Hudson and East rivers have attracted attention throughout the world, and by some have been named as one of the greatest engineering feats in this era of wonderful feats. Man has all the machinery that science could invent to assist him, cement and stone to make the tunnels waterproof, instruments of precision to help him in driving the tunnels or subways in the right direction and at the proper level below the water line or street level.

It is interesting to compare this work of man with similar works of the cutting ants in Texas. Compare the work of man with all his machinery and instruments and that of the ants with only their jaws and perhaps one pair of legs which they use at a time, the size and length of the tunnel with that created by man, and, lastly, the relative size of the ants and man, and you must admit that taking all things into comparison the work of the ants is of far greater magnitude than that of man.

Dr. Henry McCook states that General Fountain, while stationed at Fort Clark, noticed that the troop garden was constantly being raided by these ants, which stripped the vegetables of

their leaves, compelling them to abandon the garden. Another location was selected, surrounded by an irrigation ditch, but before long the ants again appeared. The officers thought that they had tunneled under the water, and one of them, skeptical of their ability to accomplish such an engineering feat, investigated. He drained the irrigation stream (some four or five feet wide), dug up the bed and traced the insects' trail from their point of entering the garden to their old nest on the opposite side. There are also other accounts of their making galleries under the water.

A farmer near Austin, to get rid of depredations of an immense colony of these ants near his home, had set his men to dig it up. To reach the central nest he had traced the ants from a tree inside his home premises, which they had stripped of leaves, to a point 600 feet distant.

The nest occupied a space as large as a small cellar, the lowest and main cave being as large as a flour barrel. From this point radiated the avenues over which the ants marched on their raids.

Doctor McCook, with the assistance of a civil engineer, proceeded to survey the main course of the insects. In some places the tunnel was as deep as six feet beneath the surface, the average depth being about eighteen inches. At the "exit hole," 484 feet from the nest, the tunnel was two feet deep. Besides this main line there were two branch tunnels which deflected from the trunk line to gain entrance to a peach orchard 125 feet distant.

communities of 2,500 inhabitants or more. How the funds are provided for constructing and maintaining roads also will be made known. The amount invested in road machinery—an item concerning which even approximate information is lacking today—will be sought. After the information is obtained it will be kept up to date.

In undertaking the survey the bureau requests the assistance of every unit of government doing road work in the nation; of road officials the country over, and of associations, organizations and individuals, down to the man with a flivver, having information or data as to local highway activities. As future legislation may be based on percentage of road mileage, it is pointed out that it is essential for each unit to have its total, as well as its improved road mileage, carefully and correctly recorded in the survey.

Longer Skirts for Teachers Ordered. Lyndhurst, N. J.—Longer skirts and no silks or satins—this is the latest order to teachers issued by the Lyndhurst school board. The order does not specify the length demanded.

"Made Me Well and Strong"

ANOTHER WOMAN WHO IS THANKFUL FOR

PE-RU-NA

"I have taken several bottles of Pe-ru-na and find it a great benefit. I had pains in my stomach and bowels, but by the use of Pe-ru-na and Macdonald's, I am well and strong again. I always keep a few bottles in the house." Mrs. OGDEN GRAY, 14 P. D. St., 3, 1st Fl., Nichols, Iowa

Mrs. Gray's experience is just more evidence that Pe-ru-na is quite as good a remedy for catarrh of the stomach, bowels or other organs as it is for colds, colds and nasal catarrh. Pe-ru-na is a wonderfully fine medicine to have in the house for everyday use. Send to the Pe-ru-na Company, Columbus, Ohio for free booklet and medical advice.

SPOHN'S DISTEMPER COMPOUND

Influenza, Distemper, Coughs and Colds

is indispensable in treating no prevalent among homes with the coming of fall and winter. For nearly thirty years "SPOHN'S" has been given to prevent these diseases, as well as to relieve and cure them. An occasional dose "SPOHN'S" your horse and keeps disease away. As a remedy for colds actually suffering, "SPOHN'S" is quick and certain. 60 cents and \$1.20 per bottle at drug stores. SPOHN MEDICAL COMPANY, GOSHEN, INDIANA

Why does a boy dislike a cat? Because of the tricky way a cat treats a mouse.

NAME "BAYER" IS ON GENUINE ASPIRIN

Take Tablets Without Fear, if You See the Safety "Bayer Cross."

If you want the true, world-famous Aspirin, as prescribed by physicians for over twenty-one years, you must ask for "Bayer Tablets of Aspirin." The "Bayer Cross" is stamped on each tablet and appears on each package for your protection against imitations.—Advertisement.

An Opportunity.

"I never saw the equal of those Jagsbys next door," said Mr. Bibbles. "They are always wanting to borrow something. I honestly believe we've lent them everything in the house except the piano and our twin beds."

"I'm sorry you are so wrought up," said Mrs. Bibbles. "Mr. Jagsby has just sent over to know if—"

"Don't say it! Don't say it!"

"If you have a few empty bottles you could spare, pint or quart size."

"Out of the way, woman! I'll take them over myself!"—Birmingham Age-Herald.

Profits of Production.

Two farmers met after church as usual and had this conversation:

"Sold your pig?"

"Yes."

"What'd ye get?"

"Thirteen dollars."

"What'd it cost ye to raise it?"

"Paid \$3 for the shoot, \$5 for the lumber in the pen and house and \$5 more for the feed."

"Didn't make much, did ye?"

"No, but I had the use of the pig all summer."—Honolulu Star-Bulletin.

Every Individual.

Every individual has a place to fill in the world, and is important in some respect, whether he chooses to be so or not.—Hawthorne.

As long as a man is able to keep out of a dentist's chair he may be able to suffer in silence.

Why should you follow a crooked path?

Often a cowpath has been allowed to become a village street, and as the village expanded, tradition has made the winding way an expression of a cow's will.

Habit is always forging chains to enslave us, so that what has been found bearable by the fathers is accepted by the sons.

Who cannot recall the coffee-pot Mother put on the stove early in the morning, warning us not to let it boil over?

As children, we were not permitted to drink tea or coffee, because it would stunt our growth or make us nervous and irritable. When older, however, we craved a hot drink with meals, and custom gave us our tea or coffee.

Finally upon the instructions of the doctor, Mother gave up her tea and coffee. But that meant nothing in our young lives. Our vitality was then strong enough to throw off any ill effects.

But our time came, and we learned by experience that we could not drink tea or coffee. When we had it for breakfast it put our nerves on edge. When we drank it at the evening meal, we tossed about in wakefulness most of the night.

And then we found Postum, a pure cereal beverage, free from the harmful drug, caffeine, in tea and coffee. We liked the rich, satisfying flavor of Postum—and also the better health which resulted. And, too, we were surprised to find how many of our neighbors had made the same discovery—had learned the value of "health first."

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

Postum for Health
"There's a Reason"
