FUR STOLES AND CAPELETS; TAILORED SUIT WOMAN'S ALLY

WITH the tang of autumn in the air, a study in the lighter furs is most apropos. Later comes the heavier fur coat. Leading up to its entree, designers have been giving much thought to the evolving of fur wraps to span the interim between early autumn and sleighbell time.

Judging from the sumptuous fur displays in fashion centers, the problem is solved. The answer is adorable fur capelets and shawl-like wraps made of most unusual peltry, such as American broadtail in taupe, black or brown, caramel-colored caracul, unspotted ermine, gray squirrel, krimmer, astrakhan, Persian lamb and most

When in doubt, choose a suit. Ever ready, in good taste of almost every occasion, it remains pre-eminently woman's staunchest ally in the matter of smart appearance.

Top a tailored suit with a fetching hat, grace it with the companionship of a brilliantly-colored vestee or perfectly-matched blouse, tune to it the new strapped sandals with modish hose, wear with it the best of gloves and "it must follow as the night the day" that aristocracy of fashion is the reward.

As to the silhouette, straight-line, unbelted models are favorites, such as our illustration sets forth. When belts are worn, for quite a few Rus-

For elegance personified, the mole shawl-cape portrayed herewith has no superior. It is a decided innovation, suggesting a shawl topped with a voluminous cape-collared, and it has a "silver lining." At each move of milady, entrancing glimpses of gray metal brocade of regal quality are revealed.

Speaking of moleskin, the temptation is to digress from the subject of fur wraps long enough to tell of the cunning moleskin envelope pocketbook anyone can make who is clever with the needle. Join tiny pieces of mole-

sian blouse effects are noted, metal girdles, or entrancing interweavings of gay-colored patent leather, encircle not the waist line, but the hip line. Which means that low waist effects, to the point of exaggeration, are approved.

Regarding fabrics, it gladdens the heart of us to know that our early love, broadcloth, is reinstated in the favor of best designers both in this country and in Paris. The list of correct fabrics includes duvetyn, marvelous, English tweed, wool velours, poret twill and tricotine. Soft, deep piled fabrics dominate.

Among the novelties, cire (waxed) braid is a favorite. The suit illus-

To return to our subject: Long stoles or scarfs of kolinsky or Japanese sable, the latter being the original of the subject of our illustration, are a vogue de luxe. Such a wrap is admirable for real service with a tailored suit.

After the first two days trading was less active but prices remained steady to 25c higher than the previous week. A new top for the year to date was made Wednesday on choice light yearlings, selling at \$11.50. The bulk of fed steers sold at \$7.10. Grass steers at \$5 to \$5.75. GRAIN

Stocks of coarse grain in storage are very large. The movement of corn continues above immediate requirements and a shortage of elevator room is reported to exist at many terminals.

Wheat—Wheat continued to decline, Chicago December wheat selling below \$1 for the first time since October 1915. Immense stocks of Canadian wheat, slow milling and flour demand with several Minneapolis mills shut down and lack of foreign demand were influence.

Corn—Influenced by wheat, Chicago December corn dropped to a new low level since December 1910. Some export demand was reported. The total exports for the last week of October totalled 654,000 bushels.

This little bit of advice may help you regain your Health, Strength and Vitality

Thousands of people suffer from nervousness. They are run down and miserable without knowing the reason why.

They do not stop to think that much of their trouble may be caused by drinking tea and coffee which contain the drugs, thein and caffeine. When you over-stimulate the system for any period of time, the result may be nervousness with its many accompanying ills. You may fail to sleep properly and your sleep does not refresh you as it should.

Postum, made from scientifically roasted cereals, will help you to overcome all these conditions. For it contains only healthful substances, instead of drugs, as are found in tea and coffee.

Postum helps build sound nerve structure, by letting you get sound, restful sleep.

In flavor, Postum is much like high-grade coffee. In fact there are many people who prefer Postum for its savory flavor alone.

Order Postum from your grocer today. Serve this rich, fragrant beverage for the family. See how the children will like it, and how much better everybody will sleep at night.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.
