 Then she ignored them.
 And finally she denied them.
 However, there are always a few kind friends to remind her of them, and to keep the score for her.

Mrs. Meyer Finally Found Relief and Health in Lydia E. Pinkham's Vegetable Compound

Orange, Cal.—"I always feel very grateful to you, as some twenty years ago three doctors said I had to have a serious operation. I had a tumor, and ulcers which would gather and break. Pinkham's Vegetable Compound, and I took it until I was cured and saved from the operation. I have told women of your wonderful medicine times without number, and I am willing that you should use these facts and my name if you like. "There's a Reason"

Sold by all grocers

When a Federal Bureau reminds you that children should not drink coffee or tea—why not think of your own health?

The Federal Bureau of Education includes in its rules to promote health among the Nation's school children, the warning that children should not drink coffee or tea.

The reason is well known. Coffee and tea contain drugs which stimulate and often over-excite the nerves, and so upset health.

The harm is by no means confined to children, as any doctor can tell you.

If health is valuable to childhood, it is valuable always. If harm to health should be avoided until bodies grow up, is it worth taking a chance with health when bodies have grown up?

You can have that delicious and satisfying cereal beverage, Postum, with any meal, and be safe—you, and the children, too. There's charm without harm in Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.
