

**WARNING!** Say "Bayer" when you buy Aspirin.

Unless you see the name "Bayer" on tablets, you are not getting genuine Aspirin prescribed by physicians over 22 years and proved safe by millions for

Colds Headache Rheumatism  
Toothache Neuralgia Neuritis  
Earache Lumbago Pain, Pain

Accept only "Bayer" package which contains proper directions.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.  
Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic Acid

## HIS GOOD BUSINESS SENSE CATS FOLLOW FISH DEALER

Easy to See That This Restaurant Proprietor Will Succeed in His Line of Trade.

First Guest—Hi, waiter, open that window, please. I can't stand this heat.

Waiter—Directly, sir. (Opens the window.)

Second Guest (a little later)—Waiter, there's draught enough to give one a death of cold. Do shut the window.

Waiter—Yes, sir. (Shuts the window.)

First Guest—Waiter, are you mad? Why have you closed the window? Open it again at once.

Waiter—Very good, sir. (Goes to proprietor.) Sir, one of the gentlemen wants the window open and the other wants me to shut it. What am I to do?

Proprietor—Do what the gentleman says who hasn't dined yet.—Pearson's Weekly.

### Two by Two.

It was Sunday morning and the car was crowded with persons on their way to church.

At one stop, an elderly man with a beard got on. A three-year-old piped up shrilly, and pointed to him excitedly. The father's face flushed, but he succeeded in quieting his young daughter. Two blocks further on another man, wearing a beard, got on. This time all the passengers around caught the words of the tot, and this is what she said: "Oh, look, father, there's another man with a tail on his face."

An authority states that a ton of diamonds is worth \$350,000,000. Remember this and don't pay a cent more.

Anyone can complacently wear a suit four years old when he's got eleven.

Beauty is only skin deep, but a sweet disposition extends all the way through.

It's pretty easy to be liberal with other people's money.

## "Those Who Dance Must Pay The Fiddler"

There's a settlement in profit or loss, for nearly every indulgence.

Sometimes the pay day is long deferred, and in that case the settlement may bear compound interest.

Often a payment in ill health is required for the dance had with tea or coffee during earlier years. Sometimes the collection comes in sleeplessness, sometimes in headaches, sometimes in high blood pressure, or in nervous indigestion—sometimes in all these penalties.

Nerves won't always stand the whipping of tea and coffee's drug, caffeine.

If you've been dancing to tea or coffee's fiddling, why keep on till payment time comes? If you're beginning to pay, now, why not cancel the contract?

There's an easy and pleasant way to avoid tea and coffee's penalties, as thousands have found who have changed to Postum. It is a delight with any meal—rich, comforting and satisfying—and it never harms. Even the little children can have a breakfast cup of Postum, with no fear for what may happen to sensitive nerves.

Instead of paying penalties for your meal-time drink, let it pay benefits to you, by giving natural health a full chance—and begin the new arrangement today. Any grocer will sell you, or any good restaurant will serve you Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health  
"There's a Reason"

## INVENTORY AIDS FARM BUSINESS

Assists Farmer to Determine Whether His Operations Are Profitable or Not.

### MAKE LIST WHEN CONVENIENT

Go Over Farm Carefully and Note Each Item as Found So Nothing May Be Missed—Classify and Appraise at Same Time.

(Prepared by the United States Department of Agriculture.)

Farming is a business, and like other business men the farmer should know which way he is going financially. To drift along year after year not knowing whether he is going toward success or failure is not the practice of successful business men, and it should not be the practice of farmers.

To gauge progress by an increase in cash in hand or to measure loss by additional debts incurred without taking into account decreases or increases in the value of all property owned, often leads to false conclusions. The storekeeper is well aware of this, and his annual "stock taking" is nothing more or less than the making of an inventory or list of property, without which he lacks accurate information concerning his profits and losses. Inventories are not difficult to make, and the United States Department of Agriculture has found that they are of great value to any farmer who is striving to better his condition. They overcome obstacles and place his business affairs on a secure basis.

### Make Inventory When Convenient.

There is no best time of the year to make an inventory for everybody and under all circumstances. Each one must decide for himself the date most convenient. In deciding, however, the most important consideration is to select a time of the year before the season's work in the field begins. It will save estimating large quantities of farm produce on hand if the inventory is taken as late in the spring as possible before field work begins.

Although any day will do, it is generally found best to select the first day of some month, and a fairly good guide in any section will be the date upon which tenants customarily change farms. The best inventory date may vary from January 1 in the cotton belt, to April 1 in New England and other northern states, and for special farms special dates are often required.

If no list of the farm property has ever been made, it is well to start preparations by going over the farm, field by field, and building by building, taking each item as it is found. In this way nothing is missed. The listing can be done in any memorandum book or on loose sheets of paper.

All property owned comes under the head of resources or assets. These may be subdivided into physical or tangible property, and financial, or intangible. The value of the physical property

The County Agent Explains the Simplicity of Making a Farm Inventory.

must be estimated and appraised. The financial property has a face value, which under any conditions ordinarily met with on the farm needs no appraisal. The physical property may be grouped under the following heads: Land, buildings, other permanent improvements, work stock, cattle, swine, sheep, poultry, machinery and tools, farm produce, farm supplies, growing crops. The financial items include cash on hand, cash in bank, accounts receivable, and notes receivable. By receivable is meant debts owing to the farm.

### Don't Overlook Debts Owed.

In no case should a list of liabilities—bills and accounts owed by the farm—be omitted from the inventory. Liabilities are an offset to the resources. When all the items with their valuations have been entered the work is finished by summing up the valuations. This is best done by adding each page separately and carrying the totals to the last page where they may be conveniently added to attain a grand total. The liabilities are summed up in the same manner. When the sum of the liabilities is subtracted from that of the resources the remainder is the net or present worth.

## MAKE DEFINITE PLAN OF GARDEN ON PAPER

First Get Exact Dimensions of Available Land.

Ascertain Which Spots Will Be Best to Certain Crops Requiring Sunshine—Run Rows North and South.

(Prepared by the United States Department of Agriculture.)

A definite plan for the garden should be drawn on paper before any planting is done, suggest garden specialists of the United States Department of Agriculture. First determine the exact dimensions of the available land; then ascertain which parts of the garden will be best adapted to certain crops, especially those that require a large amount of sunshine. Outline the garden plan on paper and sketch in the crops that are to be planted upon each part.

In planning the garden it should be borne in mind that certain crops, such as lettuce, radishes, and early beets, can frequently be grown in the same rows with other crops and be removed before the main crop attains sufficient size to require the entire space. It should also be remembered that carrots, beets, salsify, early turnips, parsnips and all crops of that type may be grown in rows of 12 to 18 inches apart and will occupy a comparatively

Setting Out Plants Started in Hotbed.

small amount of space if grouped together. The taller growing crops, such as pole beans, tomatoes trained to stakes, and sweet corn, should be planted at one side of the garden where they will not shade the smaller crops.

It is generally conceded that the rows should run north and south; however, it is more important to arrange the rows for convenience of cultivation than for exposure to the sunshine.

Due consideration should be given to both companion and succession cropping. By companion cropping, the plan of planting two or more crops together and removing those that mature first is followed. By successive cropping one crop follows another, keeping the land fully occupied all the time. Thus, early cabbage may be followed by celery or late tomatoes; early corn or early Irish potatoes may be followed by turnips, late beans, late beets, or late cabbage. The arrangement of crops, however, depends somewhat upon the locality and length of the season.

Detailed directions for locating and planning gardens are contained in free bulletins of the United States Department of Agriculture, which will be sent upon application to the department.

### COST OF MILK PRODUCTION

Dairymen Should Be Interested in Knowing How Much Feed and Labor Are Required.

Dairymen throughout the country should be interested to know how many pounds of grain, hay and silage, and how many hours of labor it takes to produce 100 pounds of milk in the different sections of the United States. The bureau of animal industry, United States Department of Agriculture, began a series of studies in 1915 on groups of dairy farms to obtain accurate information of this kind.

The results are shown for southeastern Louisiana in department bulletin 955. The figures for northwestern Indiana are contained in department bulletin 868; North Carolina and western Washington in department bulletin 919; and for Vermont in department bulletin 923, which may be purchased from the superintendent of documents, Washington, D. C., at five cents the copy. The various tables are based upon figures obtained during a two-year study, and weighted averages of the records were used whenever they would express the results more accurately. The surveys include also an inventory of dairy buildings, live stock, and equipment used.

### AVERAGE PASTURE FOR PIGS

From Fifteen to Twenty Is Recommended by Iowa Station—More Will Spoil the Grass.

Fifteen to twenty pigs, weighing about 100 pounds each, will be all the average pasture can stand. More than this number is liable to spoil the pasture and the danger from spreading disease is increased, says the animal husbandry department at Iowa State college.

## If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores. Advertisement

Out of Place.  
"It's no fool job, I tell you."  
"Then why undertake it?"—Boston Transcript.

## Sure Relief FOR INDIGESTION

Unpropitious Setting.  
"Hum," said the magazine editor, "this is going a bit too far."  
"What's the trouble?"  
"A chap who says he has received fifty rejection slips from me in the last twelve months states in this note that he'd like to meet me."  
"Well, you might grant the poor devil an interview."  
"But he adds, 'in an alley, after dark.'"

Most chesty men are narrow minded.

### AS SURE AS DAWN BRINGS A NEW DAY

"Not yet."—Life.  
Were it not for the bliss of ignorance, some people would always be unhappy.  
We have to play life's game with the hands dealt us, so why waste time wishing we had the other fellow's?

## How Yeast Vitamon Tablets Put On Firm Flesh

Quickly Increase Your Energy and Beautify the Complexion—Easy and Economical to Take.

Thin or run-down folks! Take Mastin's VITAMON—two tablets with every meal. Then weigh and measure yourself each week and continue taking Mastin's VITAMON regularly until you are satisfied with your gain in weight and energy. Mastin's VITAMON contains highly concentrated yeast-vitamins as well as the two other still more important vitamins (Fat Soluble A and Water Soluble C). It is now being used by thousands who appreciate its convenience, economy and quick results. By increasing the nourishing power of what you eat Mastin's VITAMON supplies just what your body needs to feed the shrunken tissues, strengthen internal organs, clear the skin and renew shattered nerve force without upsetting the stomach or causing gas. Pimples, boils and skin eruptions seem to vanish as if by magic and the complexion becomes radiantly clear and beautiful.

IMPORTANT! While the amazing health-building value of Mastin's VITAMON has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anemia, indigestion, constipation, skin eruptions, poor complexion and a generally weakened physical and mental condition, it should not be used by anyone who OBJECTS to having their weight increased to normal. You can get Mastin's VITAMON tablets at all good druggists.

Are Positively Guaranteed to Put On Firm Flesh, Clear the Skin and Increase Energy When Taken With Every Meal or Money Back

if it isn't MASTIN'S it isn't VITAMON
