Making Good an Old Boast.

A process has been discovered whereby old leather can be converted into gelatin. Such transformation offers a ready way of utilizing many articles after their value to every one but the junk man appears to be gone. Since head coverings are sometimes made of leather, it would appear that at least the man confident that his candidate will win in an election may literally back up his confidence with the time-honored promise that he will eat his hat in the event that his man loses.

MARKET REVIEW

Compiled by the Nebraska State Bureau.

GRAIN MARKET UNSTEADY

Showing Net Declines. Potatoes Higher. Butter and Eggs Decline Under Heavy Receipts. Cattle Receipts were Light: Prices Steady to Lower. Fed Lambs were 50c Higher for the Week.

LIVESTOCK.

Cattle:—Offerings of cattle at Omaha were mostly of medium quality with few strictly choice to prime heaves included. For the week, prices were generally steady. Beef steers and she stock were steady to 25c lower. The bulk of steers sold at \$5.75 @ \$6.50; best heavy steers sold the middle of the week at \$7.40; yearlings, \$7.50. The bulk of cows and heifers ranged from \$3.75 @ \$4.50. Veals were 25c higher with a top of \$8.50.

Stockers and feeders were scarce. Not many country buyers were in attendance but the more desirable kinds of good young stockers and handy-weight feeding steers sold readily to order buyers.

Hogs:—The run of hogs was liberal and all classes and grades sold at prices mostly steady with the previous week. The bulk of hogs sold the middle of the week at \$8.90 @ \$7.10; top \$7.25. Packing grades, \$5.25 @ \$6.00.

Sheep:—Receipts consisted largely of fed lambs. Killing classes were 50c higher; others steady to higher. The bulk of fed lambs sold at \$10.85 @ \$11.00 with a Thursday top of \$11.35. Hwes, \$4.25 @ \$4.75; feeding lambs, \$8.75 @ \$10.30.

GRAIN.

Wheat:—The wheat market was unsettled and for the week made net declines. Demand for cash wheat was slightly improved and export demand was good. Receipts were small; country offerings decreased after the drastic decline in prices January 3rd. At Chicago, January 5th, No. 2 red winter sold at \$1.16; No. 2, hard \$1.07. May wheat \$1.11 5-8. Omaha, on same date, cash price, No. 2 hard \$1.06 @ \$1.07.

Corn:—Reduction in freight rates encouraged heavier movement of corn. The visible supply was 23,279,000 bushels, an increase of 1,711,000 bushels for the week. Chicago May corn, 53 @ 54c; cash, 47 @ 48c. Omaha, cash price, 39 @ 40c.

POTATOES.

The December estimated production for the 26 leading late shipping states showed a decrease of 5,456,000 bushels compared with last year. Demand was active last week and prices advanced. **Western Nebraska, Central District:** Cash wagon loads to growers—Ohios, No. 2, sacked, 80c; Triumphs, No. 1, seed, 1.70 @ 2.00. Dealers loading contract seed for southern trade, **Irrigated District:** Outside market strong. Buyers active, growers slow to sell. Sacked white varieties, quality poor, \$1.00 @ 1.25.

Local production for December was reported to be above that of the same month last year. Butter scoring 92, Chicago, 35c. Local prices: Country (best) 21c, (common) 18c.

Breathe Through the Side.

The enterpillar has no nose yet he does a regular A No. 1 job of breathing. He has a mouth, but nature has so arranged it that he can utilize this organ exclusively for feeding and doesn't have to breathe through it. He does all his breathing through special apparatus consisting of nine holes on each side of his body.

But Mankind!

Ants and men are the only things that fight by means of armies. We can excuse the ants—they have never been told to love one another.—Exchange.

Some Good in All Humanity.

It is only when we trust people a little that they are able to deceive us; a man must be very bad before he deceives anyone who implicitly believes in him; and a woman, however bad she may be, is incapable of doing it at all.—Exchange.

World's Oldest Language.

Though there is some difference of opinion, many authorities concur in the belief that the oldest language in the world is Sanskrit.

In the Pilgrim's Road.

We may fall a thousand times; but as long as we are ashamed of our failure, as long as we do not helplessly acquiesce, as long as we do not try to comfort ourselves for it by a careful parade of our other virtues, we are in the pilgrim's road.—Arthur Christopher Benson.

HELP INVALIDS TO FORGET

Presence of a Canary or Goldfish in the Sickroom invariably Has Beneficial Effect.

Next time you sit in a room, the furnishings of which include a bowl of goldfish, consider how much time you spend watching the small fish as they swim slowly about or dart about in pursuit of each other.

Probably you will conclude you were indulging the usual tendency of the normal person to be attracted to moving objects. In sick persons and convalescents this tendency is more pronounced, and in the aged and very young it is still more so.

That psychology of this attraction was given by Dr. Edward N. Leavy, formerly veterinarian to the animals in Central park zoo. He is now connected with a Fifth avenue pet store. "Sick persons lying in bed spend a great deal of time watching the goldfish if an aquarium is in their room," he said. "It takes their minds off their pains and aches and is very beneficial."

Canaries share with goldfish the honor of being the chief animate entertainment to the sick.—New York Sun

One isn't troubled much by the laws against violence if he isn't troublesome.

The Wrong Foot.

From a telegram recently received by the district superintendent of an Indian railway from a Babu station master: "Coming on duty early in the morning clad in my new and white uniform I perceived a man seated on a box in a naked and aggressive manner. Taking him to be an ordinary passenger, I proceeded to slap him, whereupon he hastily arose, unlocked the said box, clad himself in a policeman's uniform he took thereout and arrested me. The shoe is thus situated on the erroneous peddle. Please arrange."—London Morning Post.

National Emblems.

The rose, England's national flower, was chosen as the country's symbol at the close of the War of the Roses. The shamrock is firmly imbedded in Irish hearts because St. Patrick used it to illustrate one of his sermons. The thistle was adopted as the national emblem of Scotland because, in the reign of Malcolm II, a moat filled with thistles saved a Scotch fortress from Danish invasion.

A Forgotten Art.

In New York's streets there may be counted hundreds of signs that read "Watchmaker." Yet perhaps less than a dozen of such concerns could make a watch.

The crooked path is longest.

You are entitled to the benefit of the doubt. Why not take advantage of it?

The law is very careful in protecting the rights of a prisoner charged with a crime.

How about the Law of Common Sense and the man who has committed an error only? Isn't this a good place to use the benefit of the doubt, too?

Take your own case: If you don't know for sure whether tea or coffee is harming you, you do know that many are harmed by the drug element in tea and coffee, and that headaches, nervousness, or high blood pressure are symptoms which often tell that the drug, caffeine, is giving the nervous system too much jolt.

Probably you know, too, that some people can't drink a cup of tea or coffee at bed-time, and sleep well that night.

Where many have been harmed by tea and coffee, and you may be harmed, isn't it well to put the benefit of the doubt on your side before doubt becomes an unpleasant certainty?

There's charm without harm in Postum—a pure cereal beverage, rich in flavor, fully satisfying; the favorite table drink of thousands.

Suppose you try giving yourself this benefit today, and keep up the test for ten days; then judge the results. See if you don't feel better and work better. You can get Postum wherever good food and drink are sold or served.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Why Pretty Young Artist Has Decided to Celebrate Her Birthdays for Years to Come.

"I had a birthday recently," said the pretty young Artist to the Business Woman, when they met for luncheon. "And the results were most pleasing."

"Gracious," said the Business Woman, "I thought you told me last year it was positively your last; mine come and go, and I've gotten to that stage where I really am in ignorance of the date."

"I had planned to let November 20 pass and not even think of it. But I suddenly realized I needed so many things, like handkerchiefs, hose, gloves, etc.—things that somehow go with birthdays. I had an inspiration—a lovely, practical one. I'm the youngest of a big family—so I typed on note paper a subtle reminder, my name, November 20, 1897, and my present address—you see, nothing but suggestion! It worked beautifully—every day for a week I've been getting something. I've decided it's silly to give up birthdays—expect to keep mine every year."—New York Sun.

Smack That Child.

A mother was reproving her little six-year-old girl for being naughty. "If you are so tiresome and disagreeable," she said, "you will not be loved, and when you grow up your friends will be few."

The child replied at once: "I shall not want any friends, for I shall get married."

"Oh, no," replied mother, "you will not get married, if you are disagreeable, for gentlemen are particular."

After a short pause, the little girl remarked: "Well, mummy, I don't think daddy was particular."

What Ailed Her Pulse.

Little Louise was recovering from a bit of fever and her appetite had begun to assert itself. She gave a look at the meager slice of toast and the broth that had been brought to her bedside.

"Can't I have more than this, mother?" she asked. "It isn't half enough."

"Not just yet," said mother. "I am afraid to give you more. Your pulse is still too quick."

"But, mother," urged Louise, "don't you see it's my excitement because I can't get enough to eat that makes my pulse so quick?"—Wayside Tales.

Applied Advice.

"I see young Richleigh has given his limousine to a well-known actress."

"I suppose that is his idea of hitching one's wagon to a star."—Boston Transcript.

WESTERN CANADA
Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at \$15 to \$30 an Acre—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches, schools, good markets, railroad facilities, rural telephone, etc.
