WOMAN KILLED AND MANY PERSONS INJURED.

AN ACCIDENT IN NEW JERSEY

Machine Gets Beyond Control of Pilot And Glides Along River Ice into Scores of Merry-makers.

Red Bank, N. J.—A runaway airplane, starting from the ice, crashed into a crowd of several hundred skaters on the Shrewsbury river, killed Mrs. Anna C. E. Hounihan, severed the right arm of her brother Lawrence Conley, and slightly injured many others.

Thousands of persons, gathered along the river bank to witness the iceboat and skating races, saw the accident.

The airplane, piloted by James Cagney, former army aviator, maneuvered over the heads of the skaters for several hours, then descended. The crowd gathered around the machine. The rivermen fearing that the ice would give way, suggested that Casey leave. He assented, turned the propeller and jumped for the cockpit. The machine swerved and started toward the crowd. Mrs. Hounihan, with her brother and two children, stood in its path. Conley attempted to drag her to safety, but both were caught in the propeller blades.

A Dangerous Curve

A WIZARD OF THE BLACK RACE IN THE LAW'S CLUTCHES

Colonization of the Republic of Africa One of the Big Schemes of Marcus Garvey.

New York.—Marcus Garvey's heralded plans for the colonization of Africa by means of a half dozen stock selling corporations caused his arrest on charges of using the mails to defraud.

This provides a climax to a bizarre career that lifted the negro from obscurity to mellifluous titles, hero worship and wealth. "Provisional president of the Republic of Africa," guiding spirit of the Black Star line and other organizations, he was hailed in Harlem as a wizard.

Specifically Garvey is accused as president of the Black Star line, of advertising and selling passage to Africa on a mythical vessel and that he used the mails to defraud in disposing of stock in the Black Star line.

Four months of investigation—promoted by antagonistic members of his race—led to the arrest. For Garvey's plans reached out to embrace 4,000,000 of his people and triple that in dollars that would build up an industrial empire of negroes. Some comprehension of the extent of his plans can be obtained from this:

The Black Star Line alone is capitalized at \$10,000,000.

The Universal Negro Investment association is credited with 4,000,000 members. Each member pays 35 cents a month, 10 cents of which goes to the home office, the rest for expenses of the branch headquarters. At the last convention a special levy of \$1 was placed on each member—a total of \$4,000,000, making the financial possibilities rosy upon paper at least.

A NEW IRISH LEADER IS PICKED BY DAIL EIREANN

Leave Chamber While Vote is Being Taken—Members of New Cabinet Quickly Announced.

Dublin.—After electing Arthur Griffith president and naming a cabinet to assist him, the Dail Eireann adjourned until February 14 to permit the new government to proceed with carrying out the provisions of the Anglo-Irish treaty.

After bolting the session with his followers in protest against the nomination of Griffith for the presidency, Eamon De Valera returned to the afternoon session with a promise of help for Griffith as president of the Dail, but not as head of another government.

Despite Griffith's assurance that he would keep the republic going, Mr. De Valera declared Griffith could not act as president and at the same time as head of the provisional government. He urged that someone other than a signatory of the treaty be made the head of the Dail. The suggestion was not followed, however, and De Valera and his party left the chamber, the unanimous election of Griffith following.
