M. E. Church Notes

Rev. E. C. Moore, Pastor

Our hearts are saddened, and our deepest sympathy called forth, by the passing away, so near together, of one of the youngest members of the Sunday school, and one of the oldest members of the church.

Despite the inclement weather, and the sorrow of the community, the Sunday school and church attendance at both services was very satisfactory last Sunday. In fact, the Sunday school was but a little below the high mark for the year. The continued interest and attendance of the young folks at the church services is also quite encouraging.

The Ladies Aid society will meet at the parsonage next Friday afternoon.

It is being planned to hold a Valentine social at the church basement for the young people, Tuesday evening of next week, at 7:30.

The series of Sunday evening sermons now being given by the pastor on "Great Souls," seems to be well received so far. Subject next Sunday evening, "The Mountain and the Man."

HOMER

D. C. Bristol has been made an offer of \$4,000 for his collection of Indian curios, now at the Lincoln museum. His sons, Charles and Will, went to Lincoln last week to see about the deal.

If Dakota City is ready to say "goodbye" to the court house we think Homer should bid for it. So, Sioux is to all intents and purposes a Sioux City suburb, and most of her people are employed in Sioux City. But Homer is purely of and for Dakota county. The South Sioux City Mail evidently forgets that Homer is the best business center.

We produce most of the county's officers and incidentally some of the cases to help fill the valuable records.

Warren Kinnear was a Winnebago visitor Thursday.

Will Blacketer, prospective sheriff, was a Homer visitor from Dakota City Thursday to attend the funeral of Max Nelson.

Miss Lisle Smith, who was teaching as a substitute in the Brushy Bend school, came home Tuesday of last week. The teacher she was substituting for having recovered from her illness.

Win. Winch suffered a bad case of tonsillitis last week, but was in the store Saturday looking rather the worse for wear.

George Wilkins of Emerson was a Homer visitor Friday.

The Lon and Bill McEntaffer families, who have been in the Chas. Scott house with Bruce Oghurn since they were burned out of the Walter Smith house, moved Saturday into the Herrmann house.

Art Rymill and wife of Iowa, and Walter Rymill of Lusk, Wyo., were guests at the Bob Jones home Sunday evening. Walter returned to Lusk Monday.

Chas. Whaley fell from the loft of John Blacketer's barn Friday and injured his back quite severely.

Prof. Jacony is on the sick list this week, but is some better at this writing.

Dr. Nina Smith, whose life was despaired of for more than a week, is considered now out of danger, which her many friends will be glad to hear.

Forest Buttler and wife of Sioux City visited Mrs. Buttler's sister, Mrs. E. S. Redden and family Sunday.

Mrs. Chas. Whaley is on the sick list with the prevailing cold or grip.

Mrs. Chas. Borowsky of Miller, S. D., is a guest of her son, Chas. Borowsky, Jr., and family.

Geo. Beckwith attended the funeral of his aunt at Tekamah Monday.

The Geo. Sault children are on the sick list.

Monday night about 7:30 the fire bell rang at a great rate and we soon learned that the Farmers Exchange hall was on fire, or the scenery on the stage rather. There had been

FARMERS TO HOLD INSTITUTE

The 17th annual Farmers' Institute of Dakota county will be held at Homer on Thursday and Friday, February 9th and 10th. The program consists of speaking, demonstrations and exhibits which should be of interest to all men and women, young and old.

The work will be conducted in two sections, for men and for women. The men's which will be held at the Exchange hall, will observe the following schedule:

  - 11 a. m.—Health and Hygiene (Joint Session), Miss Louise M. Murphy, Extension Service.
  - 1 p. m.—Joint Business Session.
  - Vocal Solo, Mrs. L. L. Ream.
  - 1:30 p. m.—Home Furnishings, County Home Demonstration Agent.

Ribbons only will be given as rewards for exhibits this year. However, after seeing two very successful grain and livestock shows held this season, where large entries were made and ribbons only were awarded, we feel sure that people will bring their wares to the show as in former years. After all, whether we win or lose, or get cash prizes or only ribbons, the real benefits to be derived from entering any contest comes from comparing your skill with that of your neighbor.

FARM PRODUCE ENTRIES

For the first time, poultry will be added to our premium list. An entry will consist of three hens or one rooster of any breed. Each breed will compete with others of the same breed only. Birds may be entered the first day, but need not be until the second. They must be entered before 10:30 a. m. on the second day. The poultry will be shown at the Exchange hall. Free exhibit crates will be furnished.

Entries will be as follows:—

**Poultry—All Breeds:**

Entries in poultry will consist of a pen of three hens or one cockerel or cock bird, or the best pair of fowls. The pair may be made from the first two entries.

**Farm Produce:**

Corn—any variety. Ten ears and single ear entries will be made. Popcorn will only be shown in 10 ear samples.

One full peck will constitute an entry of small grain and potatoes. Separate classes will be made for winter and spring wheat, early and late oats, barley and potatoes.

All produce should be entered by 10:30 a. m. on the first day, as it will be judged during the afternoon of that day.

The women's exhibit will be placed at the High School building. Entries for women will be as follows:

**Domestic Science:**

- Best butter, angel food cake, layer cake, frosted loaf cake, doughnuts, apple pie, lemon pie, white bread and graham bread.
- Canned Fruits and Vegetables: Best canned peaches, pears, cherries, corn, peas, beans. Best plum, orange or apple jelly.
- Domestic Art: Best fancy quilt; cotton quilt; crocheted filet, six patterns; tatting, six patterns; crocheted lunch cloth edge; crocheted edge of Turkish towel; embroidery, colored and white eyelets.

**ENTRIES FOR GIRLS 16 YEARS OR UNDER**

**Domestic Science:**

- Best white bread, graham bread, frosted loaf cake, layer and angel cake, half dozen oatmeal cookies, half dozen sugar cookies, loaf nut bread, apple pie and lemon pie.
- Domestic Art: Best sewing bag, Fennel stitching, patching, bungalow apron, cap, plain corset cover, and half dozen button holes.

The Institute Board feels that they have a very strong program to offer this year. They ask your cooperation in making this the best institute ever held in the county. This can be done if every one planning to attend will bring a number of exhibits and urge upon their friends to come and do likewise.

It has been suggested that a car of good Marquis seed wheat be brought into the county this spring. If sufficient good seed is not available, we will be glad to cooperate with those interested.—Farm Bureau News.

**Organized Club Work for Women**

If you are interested in organizing a club, talk the matter over with your neighbors. A few women who are interested can create a desire for a neighborhood club by explaining the benefits to be derived from such an organization. All women are feeling the need of mental growth and social contact. They realize keenly that to be the best kind of wives and mothers they must take an interest in all community affairs. How better can this understanding come about than through neighborhood clubs, where all members have the same interests at heart?

Mrs. Schuttler, director of the National Farm Bureau Federation, gave an especially good talk on the Family Type of Farm Bureau. She said that the possibilities of partnership in the family on the farms were greater than in almost any other business, and that it is only through the co-operation of the whole family that farm life can be made ideal for the younger generation. Her plan was for more social life and better education in the rural communities. She made the statement that she had learned more in the community club in her county than in the schools she had attended. She believes that Extension Service will make farm life easier and give the women more time for home making aside from housekeeping.

Suggestions for Women's Club Work

**The Oldest Man in the World**

Just part of a skull, two molar teeth and a thigh bone! Pieced together they made what? One of the most perplexing mysteries in the study of human history. Were these the remains of an ape-like man who lived 500,000 years ago? Scientists believe that they were; they call him the "Dawn Man," and out of the record embedded in the rocks they have reconstructed the conditions of his life. How he killed his food and tore the raw flesh from the bones; how he married and fought and died! How little by little he clawed and clubbed his way up to mastery over the beasts. It is a fascinating, gripping story, but it is only one of a thousand stories that stir your blood in this greatest book of modern times.
