

STANDS OFF A LOT OF DOCTOR BILLS

Recommends Pe-ru-na for Catarrh of the Stomach, Colds and Grip

"I have used Pe-ru-na for several years and can heartily recommend for catarrh of the stomach or entire system. I always get benefit from it for colds and grip. It stands off lots of doctor bills and makes one feel like a new person."

R. F. SUTTLES,
R. F. D. No. 3, Box 51, Waynesburg, Kentucky.

It is wise to keep a bottle of Pe-ru-na in the home for emergencies. Coughs and colds may usually be relieved by a few doses of Pe-ru-na taken in time. Nasal catarrh, indigestion, constipation, diarrhoea, rheumatism or other troubles due to a catarrhal condition of the mucous membranes all call for Pe-ru-na as the successful treatment. The health building, strength restoring qualities of this well known remedy are especially marked after a protracted sickness, the grip or Spanish Flu. PE-RU-NA is justly proud of its record of fifty years as health protector for the whole family.

Sheeted Klansmen Appear at a Funeral

UNDERWOOD & UNDERWOOD

Appearing suddenly and mysteriously, six white-sheeted Ku Klux Klansmen placed a cross of red roses on the grave of S. H. Turley, ex-soldier, who died in the streets of Birmingham, Ala., after having been, it is alleged, turned away from the hospital doors. The crowd maintained an awed silence during the presence of the Klansmen and immediately after the last volley by the firing squad the white-garbed figures vanished as mysteriously as they had come.

OIL STOCKS STILL SELLING

Modern Inventions Help Crooked Salesmen Unload Stock on Unsuspecting Buyers—"Wildcat" Brokers Make Fortunes.

New York.—In years gone by, the gold brick artists and oil stock salesmen were so successful that P. T. Barnum once remarked that a "sucker" is born every minute. Today, with modern inventions and a public just as eager to be "stung," the "sharps" find the birth rate even higher, and their profits are so much the greater. It has been estimated that in the last year more than \$500,000,000 has been thrown away by the people of the United States on "wildcat" schemes that range from oil stock to making metal from horses' hoofs and extracting gold from sea water. According to statistics, there are more "suckers" in the country today than Mr. Barnum imagined.

During the last year, hundreds of stock brokers have been arrested in various cities for selling "wildcat" stocks. In many cases, however, the "brokers" were tipped off that they were being watched and, like the Arabs, they folded their tents and silently stole away. With them went the money of ministers, department store clerks, stenographers, telephone operators, housewives, and staid business men. There are at the present time, it is estimated, approximately 1,000 "bucket shops" in the United States. If these 1,000 shops are to remain open, they must have \$100 a day each, which, in a year of 300 days, means an income of \$30,000,000 annually for office expense alone. This is to meet the expense of wire and ticket services and blackboard boys, with the gullible paying the cost.

A favorite trick of the bogus stock salesmen is to secure from the telephone list or directory the names of physicians, ministers, and school teachers. The salesman makes a call and, by his persuasive voice, is usually able to sell at least ten shares of a certain stock for \$1 a share. A few days later another agent calls and offers \$2 a share for the stock, but the buyer, instead of reselling, buys more stock from the second salesman. The slick salesman then disappears and the buyer realizes that wallpaper is much cheaper than the paper he has purchased.

A mushroom bucketshop in Philadelphia a year ago played a wonderful game while it lasted. Out of the telephone directory the operators took 2,000 names, and to these addresses they sent trade letters. To 1,000 of the addresses these so-called brokers stated that a certain stock was due for a sudden rise. To the other 1,000 persons went similar letters stating that this self-same stock was due for a fall. In this manner, the bucketshop keepers made 1,000 friends who thought the brokers knew what they were talking about when the stocks did go up. This was followed by telephone calls for orders and many shares were purchased. The 1,000 persons who were told the stock would go down were not bothered again.

The following day out went 1,000 letters to the ones to whom the "guess-right" letters had been sent. In this instance, 500 letters predicted an advance in the stock and to the remainder went word of a decline. This left 500 customers who would by this time swear by the "prophets." When the list was completed, and the brokers had made a nice haul, new names were taken from the telephone directory and the process repeated.

Prominent Names a Factor. A favorite trick of the stock swindlers—that is the mushroom variety that bloom overnight, fleece the "innocents," and then depart either to a prison cell or parts unknown—is to adopt the trade name of prominent de-

ceased bankers, or the name of a building in which they establish luxurious furnished suites. Then they sit back and listen to the dollars clinking into their coffers from the pockets of the unsuspecting, who believe they are dealing with the sons of the financial wizards of a generation ago.

Any secret process to manufacture anything is one of the favorite foundations on which to construct a swindle. It seems to cloak charlatanism and furnish a tempting appeal to human credulity. Not long ago a company was formed in one of the large eastern cities to make cosmic bearings for automobiles and airplanes. The process was to be kept secret, it being decided not to even patent the process because of the danger of its being stolen.

When the secret was revealed at a directors' meeting, after the proper amount of stock had been disposed of, it read as follows: "To 100 pounds of metal add four ounces of horse-hoof parings, three ounces of borax, two ounces of powdered glass, and one ounce of sea salt. After copper, lead, and tin are fluid, put in horse-hoof parings and stir well, then add glass, borax, and sea salt combined, then stir."

A Good Formula. Not the least amusing thing in relation to the formula was that it is all right. The company expected to make the concoction at a cost of 18 cents a pound, and sell it at 85 cents, but a subscriber to the stock who could not quite fathom where the horse-hoof parings came in began an investigation, despite the fact that he had been sworn to secrecy. He learned that foundrymen throughout the country had been using this formula for half a century, and that the product could be sold by them for 11 cents a pound, or 9 cents cheaper than it cost the company to manufacture it. The officials of the stock company were arrested, but, it is said, they had taken in more than \$575,000 through the scheme.

Chess by Wire Popular Pastime in the Yukon

Seattle.—When the long winter nights—24 hours long, in fact—prohibit almost any sort of amusement to the operators on the 2,000 miles of Canadian government telegraph line through the Yukon, the "brass pounders" play chess by wire. Two men tap out their moves to each other and other men "watch" the games by listening in on the line and making the moves on boards of their own.

This is vouched for by G. S. Fleming, district superintendent of the Canadian government lines at Whitehorse, who is in Seattle.

FORTUNE HELD FOR MISSING

Man Has Been Away for Eleven Years and It Awaits Him in Denver Bank.

Denver, Col.—There are 11,000 honest-to-goodness American dollars jolling around the vaults of a local bank that belong to Louis C. Casper but the young man cannot be found. If Casper falls to put in an appearance before Jan. 1, 1923, he will be declared legally dead and the money will be distributed among twenty-odd cousins of the missing youth. Young Casper disappeared early in 1910, on a day when his mother sent him to the bank to deposit \$1,000. The money never reached the bank and Louis has not been heard from since. In 1918 his mother died. Two years later his father died, leaving an estate of \$11,000. A Denver law firm instituted a country-wide search for Casper.

DOES LAUNDRY WORK AND HOUSEWORK TOO

Surprised to Find Her-self Feeling So Well

Taunton, Mass.—"I used to have pains in my back and legs so badly, with other troubles that women sometimes have, that my doctor ordered me to stay in bed a week in every month. It didn't do me much good, so one day after talking with a friend who took Lydia E. Pinkham's Vegetable Compound for about the same troubles I had, I thought I would try it also. I find that I can work in the laundry all through the time and do my housework, too. Last month I was so surprised at myself to be up and around and feeling so good while before I used to feel completely lifeless. I have told some of the girls who work with me and have such troubles to try Lydia E. Pinkham's Vegetable Compound, and I tell them how it has helped me. You can use my testimonial for the good of others."—Mrs. BLANCHE SILVIA, 59 Grant St., Taunton, Mass.

It's the same story—one friend telling another of the value of Lydia E. Pinkham's Vegetable Compound.
