

# A VENERABLE PASTOR CURED BY PE-RU-NA.

Pe-ru-na is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.

The Oldest Man in America Attributes His Long Life and Good Health to Pe-ru-na.

Mr. Isaac Brock, of McLennan county, Texas, has attained the great age of 114 years. He is an ardent friend of Peru-na and speaks of it in the following terms. Mr. Brock says:

"After a man has lived in the world as long as I have he ought to have found out a great many things by experience. I think I have done so.

"One of the things I have found out to my entire satisfaction is the proper remedy for ailments due directly to the effects of the climate.

"For 114 years I have withstood the changeable climate of the United States. During my long life I have known a great many remedies for coughs, colds, catarrh and diarrhoea. I had always supposed these affections to be different diseases. For the last ten or fifteen years I have been reading Dr. Hartman's books and have learned from them one thing in particular: That these affections are the same and that they are properly called catarrh.

"As for Dr. Hartman's remedy, Peru-na, I have found it to be the best, if not the only reliable remedy for these affections. It has been my stand-by for many years and I attribute my good health and my extreme old age to this remedy.

"It exactly meets all my requirements. I have come to rely upon it almost entirely for the many little things for which I need medicine. I believe it to be especially valuable to old people, although I have no doubt it is just as good for the young."

—Isaac Brock.

A New Man at 79.

Major Frank O'Mahoney, West Side, Hannibal, Mo., writes:

"I am professionally a newspaper correspondent, now 79 years old. I have watched the growing power of the Peru-na plant from its incipency in the little log cabin, through its gradations of success up to its present establishment in Columbus, Ohio, and I conclude that merit brings its full reward.

"Up to a few years ago I felt no need to test its medicinal potency, but lately when my system needed it, your Peru-na relieved me of many catarrhal troubles. Some two years ago I weighed 210 pounds, but fell away to 168 pounds, and besides loss of flesh I was subject to stomach troubles, indigestion, loss of appetite, insomnia, night sweats, and a foreboding of getting my entire system out of order. During some months I gave Peru-na a fair trial, and it rejuvenated my whole system. I feel thankful therefore, for although 79 years old I feel like a young man."

—Major Frank O'Mahoney.

In old age the mucous membrane become thickened and partly lose their function. This leads to partial loss of hearing, smell and taste, as well as digestive disturbances. Peru-na corrects all this by its specific

operation on all the mucous membranes of the body.

One bottle will convince any one. Once used and Peru-na becomes a life-long stand-by with old and young.

Mr. Samuel Saunders of Blytheville, Mo., writes: "My disease was catarrh of the urethra and bladder. I got a bottle of Pe-ru-na and began taking it, and in a few days I was relieved and could sleep and rest all night. I think that Pe-ru-na is a valuable remedy. I had tried other very highly recommended medicines, but they did me no good. My physician told me that I could not expect to be cured of my trouble, as I was getting to be an old man (57 years). I feel very thankful for what Pe-ru-na has done for me."

In a later letter Mr. Saunders says: "I am still of the same mind with regard to your Pe-ru-na medicine."

Rev. J. N. Parker.

years, but not so much effected but that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with severe rheumatic pains in my limbs. I commenced taking Peru-na and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Peru-na, and now when 88 years old can say it has invigorated my whole system. I cannot but think, dear Doctor, that you must feel very thankful to the all loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity."

—Rev. J. N. Parker.

Mrs. F. E. Little, Tolona, Ill., writes: "I can recommend Peru-na as a good medicine for chronic catarrh of the stomach and bowels. I have been troubled severely with it for over a year, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared. I will recommend it to all as a rare remedy. I am so well I am contemplating a trip to Yellow Stone Park this coming season. How is that for one 71 years old?"

A TRAVELER AT SEVENTY-ONE YEARS OF AGE.

also a cough. Now my cough is all gone, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared. I will recommend it to all as a rare remedy. I am so well I am contemplating a trip to Yellow Stone Park this coming season. How is that for one 71 years old?"

Strong and Vigorous at the Age of Eighty-eight.

Rev. J. N. Parker, Utica, N. Y., writes:

"In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much effected but that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with severe rheumatic pains in my limbs. I commenced taking Peru-na and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Peru-na, and now when 88 years old can say it has invigorated my whole system. I cannot but think, dear Doctor, that you must feel very thankful to the all loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity."

—Rev. J. N. Parker.

In a later letter she says: "I am only too thankful to you for your kind advice and for the good health that I am enjoying wholly from the use of your Peru-na. Have been out to the Yellow Stone National Park and many other places of the west, and shall always thank you for your generosity."

—Mrs. F. E. Little.

If you do not derive prompt and satisfactory results from the use of Peru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

## THE LIVE STOCK MARKET.

Latest Quotations from South Omaha and Kansas City.

### SOUTH OMAHA.

**CATTLE**—There was a very light run of cattle, so that the market went a little higher again. Buyers all seemed to have quite liberal orders, so that trading was brisk and everything offered sold in a hurry. There were only a few bunches of corned steers on sale and those changed hands freely at prices ranging from strong to a dime higher than yesterday. As compared with Tuesday and Wednesday the market is fully 15c higher. The cow market was also active and strong to 10c higher. Prices on cow stuff have improved the last two days fully as much as values on beef steers, so that the market is nearly back to where it was a week ago today. The same as with steers the situation could probably best be described by calling the market nearly steady to a dime lower for the week. Bulls are selling in just about the same notches they were a week ago. Prices have not changed much, as they have been extremely low for some time past. About the only change in the market from day to day was in the demand, as it was much easier to sell bulls on some days than on others. Veal calves held up in pretty good shape all the week. There were only a few stockers and feeders on sale and the demand was limited, with prices a shade lower.

**HOGS**—The demand on the part of the packers was quite liberal, so the market opened active and 50c higher. The bulk of the medium weight hogs sold from 7.75 to 8.25; while the prime heavyweights sold largely from 8.25 to 8.50. The light hogs sold from 7.75 down. It was evident that packers were anxious for supplies, and it only took a short time for them to buy up all the early arrivals.

**SHEEP**—Quotations. Choice western lambs, \$5.75@6.00; fair to good lambs, \$5.00@5.25; choice native and Colorado lambs, \$5.00@5.25; choice yearlings, \$4.75@5.00; choice wethers, \$4.50@4.75; fair to good, \$4.00@4.25; choice ewes, \$4.00@4.25; fair to good, \$3.50@3.75; feeder lambs, \$3.25@3.45; feeder yearlings, \$3.75@4.00; feeder wethers, \$3.75@4.00; feeder ewes, \$3.50@3.75.

### KANSAS CITY.

**CATTLE**—Corn cattle firm; canner cows weak; good cows steady; stockers and feeders, slow and weak; choice export and dressed beef steers, \$4.00@4.25; fair to good, \$3.00@3.25; stockers and feeders, \$2.00@2.25; western fed steers, \$2.75@3.00; Texas and Indian steers, \$3.00@3.25; Texas cows, \$2.00@2.25; native cows, \$2.00@2.25; native heifers, \$2.00@2.25; canners, \$1.00@1.25; bulls, \$2.25@2.50; calves, \$2.00@2.25.

**HOGS**—Market steady to be higher; top \$7.02; bulk of sales, \$6.75@6.90; heavy, \$6.50@6.75; mixed packers, \$5.50@6.00; light, \$6.25@6.50; yorkers, \$7.75@7.75; pigs, \$6.00@6.25.

**SHEEP AND LAMBS**—Market steady; native lambs, \$1.00@1.15; western lambs, \$1.00@1.15; fed ewes, \$1.00@1.15; native wethers, \$1.50@1.65; western wethers, \$1.00@1.15; stockers and feeders, \$1.50@1.65.

### IOWA GETS RHODES BEQUEST.

Hawkeye and Seven Other States May Send Scholar to Oxford.

CHICAGO—Eight American students, representing as many central states, will be able to go to Oxford university next year on Cecil Rhodes' scholarships, according to the provisions made at the convention of the University of Chicago.

One or more from each will go the year following and thereafter two will go from each state during every three years. Each student will have \$4,500 for three years at Oxford.

The eight states, all of which were represented in the convention, are Iowa, Illinois, Michigan, Indiana, Ohio, Kentucky, West Virginia and Wisconsin.

Dr. G. B. Parkin met the university and college presidents and as representative of the Rhodes will trustees, authorized them to make the detailed provision. It was decided that each scholar must have legal residence in the state from which he is appointed, and that a standing, self-perpetuating committee in each state shall conduct the annual examination and make appointments on the basis of these tests.

These examinations are to be open to all students from the particular state, whether they have attended college in other states or not.

### Scotch Stories.

The recent St. Andrew's Glinners, according to the Westminster Gazette, have been noteworthy for the profusion of Scotch stories, which in several cases fairly set the tables in a roar. Some of them have an ancient ring, but there is one that is perhaps not generally known. A doctor was attending a dangerous case where a Scotch butler was engaged. On calling in the forenoon he said to Donald: "I hope your master's temperature is much lower today than it was last night." "I'm no' sae very sure about that," replied the butler, "for he de'd this morning."

### Finished the Quotation.

Appropos of mottoes on houses, a correspondent of the Westminster Gazette related that a man in Scotland wished to have cut over the door of a new house the text: "My house shall be called a house of prayer." He left the workmen to carry out his wishes during his absence, and on his return his horror was great to find the quotation completed. "But ye have made it a den of thieves." "We had a wee thing mair room, ye see, so we just put in the o' the verse." Was the explanation given by the Bible loving Scot.

### New Cure for Lame Back.

Rutledge, Minn., Feb. 16th.—Mr. E. C. Getchell of this place relates a happy experience which will be read with interest by all those who have a similar trouble.

It appears that last winter Mr. Getchell was seized with a lameness and soreness in his back which grew worse and worse till at last it became very bad and made it very difficult for him to get about at all.

After a time he heard of a new remedy for backache which some of his friends and neighbors said had cured them, and he determined to try it. The name of the remedy is Dodd's Kidney Pills and Mr. Getchell has proven that it is a sure cure. He says:

"I used two boxes of Dodd's Kidney Pills according to directions, and my lame back was entirely cured and I am all O. K. again. Dodd's Kidney Pills are as good as represented."

This remedy is very popular here, and has worked some remarkable cures of Backache and Kidney Trouble.

### Caught in a Fly Wheel.

CHICAGO, Ill.—John Ward, an oiler in the engine room of the Grand Pacific hotel, was instantly killed Friday while oiling the machinery. His body was carried around in the large fly wheel time and time again before the power could be shut off. He was dead when finally extricated from the machinery. Ward was 21 years old and was at one time known as a successful jockey on southern and western tracks.

### Acres Trouble is All Over.

LA PAZ, Bolivia—The Bolivian government Friday delivered its reply to the ultimatum presented by Brazil. Bolivia accepts unconditionally but under protest, all the demands. Therefore it is most improbable that any collision between the Brazilian and Bolivian forces will occur. It is generally supposed here that the Acre revolutionists will surrender their arms to the Brazilian troops immediately.

### Young Lad Manages Depot.

CARBONDALE, Ill.—Charles Dixon, aged 15, has been appointed agent of the East and West railroad at Redd-Joyville, Ill. The boy is believed to be the youngest railroad agent in the country to have active charge of an office.

## WESTERN CANADA AROUSING GREAT INTEREST.

The Wonderful Yields of Wheat Attracting Thousands.

Until the last five or six years but little attention was given to that vast area of grain-producing land lying north of the 49th parallel, and immediately adjoining the northern boundaries of Minnesota and Dakota.

The Canadians themselves were aware of the wealth that lay there, but being unable to fully occupy it, they have asked the Americans to assist them in converting the land from its virgin state to one that will largely supplement the grain-producing area of the North American continent and the response has been most liberal.

During the year 1901 upwards of 20,000 from the United States went over to Canada, being induced to settle there by the reports that reached them of the success of those who had preceded them during the previous years. This 20,000 was increased to 30,000 during the year 1902, and it is fully expected that there will be fully 60,000 during the present year. The work of the immigration branch of the Canadian government is not now being directed towards giving information as to the advantages of settlement in Canada as it is to extending an invitation to the Americans to follow those who have gone.

Those who have charge of the work point with considerable pride to the success of those who have been induced to take advantage of the offer of 160 acres of land free in Canada, and have no cause to hesitate in continuing the invitation. Many of those interested say there are no more free homesteads to be had in Canada, but the writer has most positive assurance from the Canadian government that there are thousands of such homesteads to be had, and in one of the districts now being opened up fully as good as the best, and it is probably the best.

The Canadian government has established agencies at St. Paul, Minn.; Omaha, Neb.; Kansas City, Mo.; Chicago, Ill.; Indianapolis, Ind.; Milwaukee, Wis.; Wausau, Wis.; Detroit, Sault Ste. Marie and Marquette, Mich.; Toledo, Ohio; Watertown, S. Dakota; Grand Forks, N. Dakota, and Great Falls, Mont., and the suggestion is made that by addressing any of these, who are authorized agents of the government, it will be to the advantage of the reader, who will be given the fullest and most authentic information regarding the results of mixed farming, dairying, ranching, and grain raising, and also supply information as to freight and passenger rates, etc.

A man's heart is blamed for a lot of things that his head is responsible for.

### Charlotte Yonge's Growing Popularity.

Charlotte M. Yonge died two years ago, and since that event a steadily increasing demand for her stories has developed, so the publishers report. Whether it is because of a turning point in the problem novel and the super-strenuous historical story to the quiet style of the older novelists, or whether it is due to renewed interest in an old favorite, is difficult to say; but the fact remains that such stories as "The Cunning Woman's Grandson," "Founded on Paper," "The Patriots of Palestine," "The Herd Boy and His Hermit" and "The Making of a Missionary" are selling better now than they did during the several years just preceding the author's death.

### A Historic Irish Hill.

The historic hill of Tara in County Meath, Ireland, which was sold at auction Thursday to an unknown woman, was closely identified with the early history of Erin and was the seat of the Irish kings at one time. From its crest was taken the famous coronation stone which is now in the throne of Edward the Confessor in Westminster abbey, having been carried thence from Scome, where it was used as the throne of the Scottish kings. The last great Irish gathering on Tara hill was in 1843, when Daniel O'Connell addressed a great assembly in favor of the repeal of the union.

### Two noblemen in the reign of Maximilian II—

one a German, the other a Spaniard—who had each rendered a great service to the emperor, asked the hand of his daughter in marriage. Maximilian said that, as he esteemed them both alike, it was impossible to choose between them, and, therefore, their own prowess must decide it; but, being unwilling to risk the loss of either by engaging them in deadly combat, he ordered a large sack to be brought and declared that he who should put his rival into it should have the fair Helena. And this whimsical combat was actually performed in the presence of the emperor.

### An Extraordinary Strike.

An extraordinary strike is reported from Crezieres, near Poitiers, France, the school children of the elementary school having refused to attend their classes unless their head master, a M. Call, was dismissed from his position. They have been harshly treated by the master. They are supported by their parents, who have petitioned the government to send down an official to inquire into the affair. This the government has agreed to do.

## Substitutes for Tobacco.

Dried holly leaves, the bark of the willow and leaves of the stag's horn sumach are among the substitutes for tobacco used by the American Indians. In Switzerland a weed called mountain tobacco is smoked in great quantities. It is powdered before using, and causes the smoker to become a mental and physical wreck. The natives of South Africa are peculiarly affected by smoking the dried leaves of the camphor plant. The smoker trembles with fright at nothing, weeps bitterly, and uses all sorts of words which do not in the least express his meaning. The wild datura, another South African plant, poisons slowly any one using it.

## English Laborer's View.

Mr. Barnes, the engineers' delegate who came from England to America with Mr. Mosely's industrial commission, having arrived home, gives this summary of the conclusions he came to in the course of the inquiry into American "push." Machinery: More used than at home. Sanitation: Not so good. Hours of work: Longer. Work: Not so good. Wages: Higher. Cost of living: Higher still. Trades unionism: Not so strong. Providing England uses the best machinery he thinks Britain has nothing to fear from America and is quite able to hold her own.

Many artists who claim to be wedded to their art seem to have been handicapped by divorce proceedings from the start.

## \$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O. Sold by druggists everywhere. Beware of cheap imitations.
