

Interesting from Start to Finish if You Like Real Good Things.

The story is interesting, the characters are real people who do and say what real folks would say and do if thrown into the pathetic, the passionate and the comical situations with which the play abounds. All together it is a play full of laughs, laughs that come natural. At no time is the play funny to those playing it, the fun is visible only to the audience. They know things are progressing to the end desired, but the perplexed German baron, the lovely Virginia girl, and those who are seeking to make true love run smooth and those who are trying to prevent its running smooth are always most seriously and earnestly amusing to the audience.
