BILLS IN SIGHT

SEVERAL MEASURES WILL BE PASSED BY THE HOUSE.

AN ARMOR PLATE FACTORY

Mr. Hitchcock of Nebraska Will Propose an Amendment to the Naval Bill to Provide for Government Plant—Program in the Senate.

WASHINGTON.—The house has the naval bill under debate and at the proper time it is probable that a rule will be brought in making the item, providing for a training station on the great lakes, in order. It is expected that a contest will ensue over the location of the station.

Notice has been given by Mr. Hitchcock (Neb.) that he will propose an amendment to the naval bill, providing for the construction of a government armor plate factory. The Indian and district appropriation bills will follow the naval bill and there is some expectation that all of them will be passed this week by the house.

At the first bill during the week the bill providing for a committee to investigate and report on the shipping industry may be called up under a rule limiting debate to a few hours. Following the Indian and district bills will come the postoffice appropriation bill, but it may not be ready for consideration before next week. If the appropriation bills are all out of the way by Friday the private claims or pensions may have a show.

Mr. Williams, the minority leader, served notice that he would endeavor to secure the reading of Washington's farewell address and then have an immediate adjournment.

The Panama canal question will continue to hold exclusive attention of the senate until Tuesday, when voting will begin on the treaty. It is probable that the doors of the senate chamber will be closed the greater part of the time the treaty is under consideration. Monday and Tuesday Senator Morgan prepared a number of amendments and if offered they will be presented in executive session.

Mr. Morgan probably will speak on some of his amendments, but the prospect is that very few other senators will desire further to discuss the treaty or any amendments to it. All amendments will be voted down. There will be only sixteen or seventeen votes or pairs against the ratification of the convention. Senator Hoar probably will make another speech before the vote is taken.

With the Panama question disposed of the senate will take up appropriation bills, giving precedent to the agricultural bill. There are features in this measure which will arouse opposition and it is expected that it will be debated at some length. By the time the agricultural bill shall be passed the legislative, executive and judicial appropriation bill will have been reported, to be soon followed by the naval, pension and army bills.

Omaha Man Shoots a Woman.

ST. LOUIS.—F. A. Sigler, a carpenter of Omaha, and Mrs. Julia A. Smith, a widow of this city, are at the city hospital badly wounded. It is believed that Sigler will die. Sigler came to this city for the avowed purpose of killing Mrs. Smith, whom he charged with trifling with his affections. Ernest Woods, the successful suitor, was present at the house when Sigler called on Mrs. Smith. Sigler ran Woods out at the point of a revolver, and then, in the presence of her son, Albert, shot Mrs. Smith, who was sick in bed, twice in the head. He then put a bullet through his own head. Both were removed to the city hospital.

A BATTLE AT SAN DOMINGO.

Dominican Government Troops Completely Overthrow Insurgents.

WASHINGTON.—Late Sunday night the state department received a cablegram from Minister Powell, dated San Domingo, February 16, saying: "A decisive battle has been fought between the government forces and the insurgents. It extended over two days and resulted in a victory for the government. The stage has been raised and the insurgents are in retreat."

Mrs. Langtry Buys Trotter.

CHICAGO.—Mrs. Langtry, the English actress, has purchased of Will J. Davis, owner of Willowdale farm, at Crown Point, Ind., three trotters and two brood mares. The horses will be shipped to her breeding farm in England. Mrs. Langtry intends to go into the breeding of light harness horses as well as thoroughbreds. The price was not made public.

Elephant Funerals in Siam.

Curious ceremonies are witnessed in Siam when one of the sacred white elephants dies. It is given a funeral grander than that accorded to princes of royal blood. Buddhist priests officiate, and thousands of devoted Siamese men and women follow the deceased animal to the grave. Jewels and offerings representing some thousands of pounds are buried with the elephant.

America Got the Honors.

NEW YORK.—The official report of the French government relating to the Paris exposition of 1900 shows that this country carried off the honors. The awards accorded to exhibitors of the United States were 2,379; Germany, 1,981; Great Britain, 1,865; Russia, 1,754; Hungary, 1,351; Japan, 1,307; Austria, 875; and a number of smaller nations of lesser importance. The awards of the United States comprised 221 grand prizes, 565 gold medals and 729 silver, 529 bronze and 341 honorable mentions.

IMPORTS FROM THE LUZON.

Only Small Part of Business Carried on Under American Flag.

WASHINGTON.—The development of the Philippines commercially and industrially for the first nine months of 1903 is the subject of a special bulletin by the bureau of insular affairs. It is shown that both in imports and exports there was an increase, compared with a corresponding period in the preceding year. Heavy exports in hemp and copra offsetting heavy imports of rice, explained the increase.

During the period named the imports were \$26,103,601, against \$24,338,322 for 1902. The exports amounted to \$23,563,128, an increase of nearly \$4,500,000. The rice imports were the only ones that increased and there was a falling off in the general trade, the United States losing 10 per cent and the United Kingdom 16 per cent, while Spain has only two-thirds of the amount of its trade in 1902.

United States exports increased from \$7,232,411 to \$9,386,036 and the trade with Spain was practically the same. But a small part of the United States business is carried under the American flag and all but 5 per cent of the general trade of the islands is done in foreign bottoms.

ALL QUIET AT PING YANG.

General Pflug Sends a Report to Alexieff.

ST. PETERSBURG.—Major General Pflug, chief of staff to Viceroy Alexieff, has sent him the following telegram from Port Arthur: "Our scouts report that no Japanese have been seen at Tsan Chu, or at Ping Yang, Korea. The population is indifferent toward us. The ice on the Yalu river is beginning to go out. Natives say that if a high tide comes within five days the ice will begin to drift. The coast of the Liao Tung peninsula is covered with ice for a mile and a half to the sea. None of the enemy's ships has been seen lately. There have been no fresh attempts to destroy the railroad."

Paul Lessar, Russian minister at Pekin, has telegraphed that Yuan Shai Kai, commander-in-chief of the Chinese army, intends to send 10,000 men from Pao Ting to Shang Hai Kwang.

NOT CHARGEABLE TO WOMEN.

Shafroth Says Influence of Woman Suffrage is Good.

WASHINGTON.—Former Congressman John L. Shafroth of Colorado, who resigned his seat because of election frauds in Denver, denies that these frauds were committed mainly by women. In an interview Friday Mr. Shafroth said: "Of the persons implicated, very few were women; not more than one in ten at the outside. Frauds were committed in the lowest parts of Denver, where not many women live. The incident was not characteristic of the women voting in Colorado and it was preposterous to make it an argument against female suffrage. Everybody knows there are bad women as well as bad men, but what would any good man think if it were proposed to take his vote away from his because some bad men had cheated at an election? In Colorado the women vote as generally as the men, and fraud is more rare among them. As a rule, their election methods are honorable and the influence of woman suffrage on the state has been distinctly for the good."

ALEXIEFF NOT LOSING FAVOR.

Sending of Commander for Army Was at His Suggestion.

PARIS.—The Echo de Paris' St. Petersburg correspondent says with regard to rumors in circulation that the appointment of General Kuropatkin to the command of the Russian army in Manchuria meant that Viceroy Alexieff was losing favor, and that the truth is as follows: When the war broke out the czar asked Viceroy Alexieff whether he deemed it necessary to send a general to command the troops and if so, whom he preferred. The viceroy replied that he considered it necessary to have a chief commander of the land troops but that he had no preference as to who should be selected. The czar thereupon asked him whether General Kuropatkin would be agreeable, and the admiral replied: "Absolutely, but I beg your majesty to discharge me from all responsibility for the land operations, leaving these to General Kuropatkin."

Viceroy Alexieff retains the viceroyship, but General Kuropatkin is employed to communicate directly with the czar.

Bird was Released on a Writ.

NEW YORK.—In an address to the Associated Press from San Juan, P. R., under date of October 25, 1903, the fact was announced that Mr. Hobart S. Bird, editor of the News, had been sentenced to two months in jail for libelling Judge Pamos, and had begun to serve his sentence. Mr. Bird made an appeal for a writ of habeas corpus before the supreme court, which was granted on the day following his arrest and he was released from arrest by order of the court.

Bryan on Hanna.

TALLAHASSEE, Fla.—William J. Bryan, when informed of the death of Senator Hanna said: "He was one of the most forceful figures in American politics. He won the position as the head of the party in the senate and in the nation by his extraordinary executive ability and by his skill in organizing the forces that control that party. Even his political opponents realized the strength of his personality, and many admirable qualities."

HANNA'S FUNERAL

REMAINS OF SENATOR PLACED IN CRYPT.

LAST TRIBUTE TO THE DEAD

Throngs Are Too Large for All to See the Body Lying in State—Striking Marks of Respect to the Deceased.

CLEVELAND, O.—Cleveland was again a city of mourning on Friday. Business was practically suspended and a large proportion of the population paid homage to the memory of their distinguished fellow citizen, Senator Marcus A. Hanna.

Just as dawn began to break over the city the doors of the chamber of commerce auditorium, where the body lay, were reopened to a vast throng of people who desired to view the face of the dead senator. The long lines of people stretched away until they exceeded in length the five blocks reached during Thursday afternoon. The early hours of opening the doors to the chamber brought thousands of men with their dinner pails on their way to their daily toil. In such great numbers did they come, however, that many were unable to remain in line. Early morning trains brought many excursionists from surrounding towns, and they, too, helped to swell the long line.

The funeral was held in the afternoon at St. Paul's Episcopal church. During the service Cleveland was a silent city. Nearly all business was suspended. Street railway and steam road traffic on every line in the city was stopped for five minutes, from 1 to 1:05 o'clock.

At noon the funeral cortege left the chamber of commerce building, preceded by a platoon of police, for the church.

Following the police came troop A, as guard of honor; then came carriages with the pall bearers, the Washington delegation, the governor's staff, chamber of commerce committee, Loyal Legion committee, and delegations representing various civic societies.

The church was filled long before the hour for the services to commence and thousands lined the street about the edifice.

The choir chanted the 30th and 19th Psalms. President Pierce of Gambier college an institution of which Mr. Hanna was a benefactor read the lesson, which was from 1st Corinthians, 15th chapter, from the twelfth verse to the end of the chapter.

The choir, under the direction of Prof. C. E. Clemens, then sang the hymn "Lead Kindly Light." Bishop Leonard then delivered a eulogy.

The choir sang the hymn, "Forever with the Lord, Amen. So Let It Be." Dr. H. G. McGrew, rector of St. Paul's church, followed with the creed and prayer. The anthem, "I Heard a Voice from Heaven Say," was sung by the choir.

Bishop Leonard then read the committal service and pronounced the benediction.

At the cemetery, where a final farewell of the dead was taken in Wade Memorial chapel, the service consisted simply of a prayer by the bishop. The body was deposited in a crypt in the chapel to await burial at the pleasure of the family.

On the way to the cemetery two striking marks of respect were shown the dead senator. At Adelbert college the students drew up in line in front of Hatch library and stood with uncovered heads as the cortege passed. Again, at the Euclid avenue car barns, near the entrance of the cemetery, several hundred employees were drawn up in line and with bowed heads paid their last respects to the dead.

During the time that the body lay in state from 1:30 to 9:30 o'clock p. m. Thursday, and from 6 to 11 o'clock Friday, it is estimated that not less than 60,000 people gazed upon the features of the dead senator.

NO DESIGNS ON THE COUNTRY.

Matter of Annexation Not Considered at Washington.

WASHINGTON.—Close attention is being given by administration officials to affairs in Santo Domingo. A number of warships are being kept in the waters of that country so that American interests may be zealously protected in case of trouble between the regular government and the insurgents. Foreboding interference in the affairs of the country have been avoided up to this time, so far as news received by the department is concerned.

It is authoritatively stated that the question of the annexing of Santo Domingo to the United States never has received the slightest consideration on the part of the administration, and moreover the administration is unable to take a position or adopt a policy other than the protection of American interests in Santo Domingo, because of the absence of satisfactory information as to conditions there.

Americans Would Help Russia.

WASHINGTON.—The Russian embassy is being flooded with offers of assistance from Americans in various walks of life. Letters from twelve physicians arrived on Wednesday. The Russian ambassador has been obliged to abandon his original intention to answer each of these offers with a personal letter, but a cordial letter of thanks is sent by the embassy to each writer. The offers are declined, as Russia does not stand in need of medical or military aid.

JOHN A. SALZER SEED CO.

LA CROSSE, WIS.

IN A PRAIRIE LAND.

(Editorial Correspondence.)

Moore Jaw, Assiniboia. Farmers' Review, Chicago, July 22, 1903.

Most of the prairies in the United States have ceased to exist. Man has broken them up with orchards, forests and farm buildings. But in Western Canada the prairies still stretch grandly from horizon to horizon as yet unmarred by the hand of man, save where the iron road has been laid. To a city man there is something deliciously restful about the vast grassy solitudes.

Numerous clumps of trees mark the course of the Assiniboine river, which keeps in sight of the railroad for some distance.

"Grass is one of the notable things about all the landscape of Western Canada. It is a remarkable fact that the entire length of the Canadian Pacific railway from its eastern terminus to the Rocky Mountains is over plains where grass grows. The sage brush appears at some points, but never to the exclusion of grass. There is thus not a mile of this country that cannot be used for some agricultural purpose—either for tilling or ranching.

"Moore Jaw is a town of over 2,000 inhabitants, and one of the most important places in Assiniboia, being the center of a very good farming country and a great grain and stock shipping point.

"Near Moore Jaw agriculture and ranching go hand in hand; for near the town was seen a herd of beef cattle several hundred in number. On another side was seen a good sized herd of dairy cows, the property of the citizens in the town.

"In riding over the prairies we saw many good fields of alfalfa. The great need of the country is timber, which grows readily where planted, as was demonstrated by the shelter belts on some of the farms, and the trees on the residence lots in the town.

"Stories were told the writer of men who last year cleared from their wheat crop more than the land on which it was grown originally cost them. This is easy to believe, in view of the large crop and high price for wheat last year."—Henry F. Thurston.

By sending your address to any agent of the Canadian Government you will have mailed to you a copy of an atlas, railway rates, etc., giving fullest information regarding Western Canada.
