W. W. NORTON

To the Patrons of the City Water Department of Alliance.

In view of the recent action taken by the city council looking to such improvement of the water supply as will obviate whatever seeming justification that may have been in the past for the unauthorized using of water for sprinkling laws etc. I deem it well to call your attention to the following sections of the city ordinances, and ask that you assist in consuming what water supply we have by refraining from the use of water improper hours and the use of lawn hose without the regulative nozzle or sprinkler.

Be it ordained by the mayor and council of the City of Alliance, Nebraska, as follows:
Section 1. That the rules, regulations and water rates hereinafter named shall be considered as part of the contract with every person, company or corporation who is supplied with water through the water works of the city, and every such person, company or corporation by taking water shall be considered and held to consent to be bound thereby; and when any of these are violated, or such others as the said city commissioner may hereafter adopt, the water shall be cut off from the building or place of such violation, even though two or more parties may receive water through the same pipe, and shall not be let on again except by order of the water commissioner, and on payment of the expenses of shutting it off and turning it on, and upon such other terms as the said commissioner shall determine and a satisfactory understanding with the party, that no further cause for complaint shall arise; and in case of violation the water commissioner shall have the right to declare any payment made for the water by the person committing such violation, to be forfeited, and the same thereupon shall be forfeited.
Sec. 2. Said section 2 of said ordinance shall be as follows:
Hose for sprinkling yards, gardens, streets and sidewalks shall be used only from the first day of April to the first day of November; for sprinkling yards and gardens shall only be used between the hours of 7 and 8 a. m.

and from 6 to 8 p. m., (mountain standard time) and for sprinkling streets and sidewalks between the hours of 6 and 8 o'clock a. m. and 8 and 6 p. m., (mountain standard time). If allowed to run at other hours, the water will be cut off without previous notice, and it must be continued to a fair application for those purposes, without excessive and unreasonable use, and to the premises of the party. In sprinkling streets each consumer must confine themselves to one-half of the width of the street. The hours above named shall not apply to those using meters who may use water at any time.

By direction of city council, in future the provisions of the foregoing ordinances will be enforced in all cases that come to the knowledge of the undersigned, either by personal observation or reliable information otherwise obtained. This is not a threat but the plain duty of your water commissioner.
