NEARLY ONE WAY

ROOSEVELT CARRIES ALL THE NORTHERN STATES.

ALSO BREAKS THE SOLID SOUTH

His Electoral Vote as Now Figured Will Be 343, or 104 More Than Needed—Maryland and Missouri Both Choose Republican Electors.

NEW YORK—The plurality of the president in the nation, according to all indications will exceed 1,500,000—the greatest plurality ever given an American candidate. The nearest approach to this vote was in 1896, when McKinley received a plurality approximately 860,000, and in 1872, when Grant received 620,991 plurality. The interest centers in Missouri and Maryland. Late returns indicate that the former state is in the republican column so far as presidential electors are concerned, but that Joseph W. Folk, the democratic candidate has been elected governor. The republicans elect eight of the sixteen congressmen. In Maryland the presidential vote will probably be cast for President Roosevelt. Late returns indicate that Thomas A. Smith (dem.) has been elected to congress in the First district by 450 plurality. Congressman Jackson of this district, however, puts forward a claim of trick ballots and fraud and says he will contest the election. In the other states it is simply a question of pluralities.

The "solid south" was broken by the probable defection of Missouri—this section of the country usually having thirteen states in the democratic column. The figures show but twelve states, with 133 votes for Judge Parker.

President Roosevelt carried all the northern states—sweep them, in fact—and today he had 343 electoral votes. The banner state is Pennsylvania. Twenty-four hours after the polls closed the returns from this state indicated that Roosevelt's plurality would reach 485,000. Next came Illinois where the president polled approximately 225,000 votes more than did Judge Parker. The New York City returns are still incomplete, but the amazement over the result has not subsided. Judge Parker carried greater New York by over 41,000.

END OF WAR FAR OFF. France Again Declines to Take Action Looking Toward Mediation.

PARIS—The reports of contemplated mediation in the war in the far east have again made it plain that France does not consider the time opportune to exert influence singly or jointly to induce Russia to make or accept terms. At the same moment that the rumors were circulating in various capitals that France intended to act, M. Delcasse, the foreign minister, was pointing out to diplomatic callers that efforts at mediation would be futile. The following is the textual language used when one of the ambassadors sounded the minister on France's intentions:

The ambassador said: "It is profoundly regrettable that the parties do not heed your advice toward averting the present slaughter."

"Yes," answered M. Delcasse, "but all my efforts were in vain."

The ambassador then asked: "Can nothing be done to terminate the war?"

M. Delcasse replied with an expression of deep regret: "... I am sorry to say that it appears nothing can be done at this time."

Heavy Snowfall in Pennsylvania. YORK, Pa.—Telephone and telegraph wires are down, trolley cars are stalled, railway trains are greatly delayed and there is a general suspension of traffic in this city and throughout York county as the result of what is said to be the heaviest storm York ever experienced at this time of the year. It is estimated that snow fell to a depth of a foot on the level. The city is in darkness, owing to the crossing of wires, due to the wires being weighted down with snow.

PARKER HAS HAD ENOUGH Will Never Seek a Public Office Again.

ESOPUS N. Y.—Judge Parker last night gave to the press an open letter addressed to "The Democracy of the Nation," in which he thanked those in charge of his campaign work and declared that the people will soon realize that "the tariffed trusts are absorbing the wealth of the nation." He said that when that time comes the people will turn to the democratic party for relief. In this letter Judge Parker says he shall never seek a nomination nor public office. He discusses the difficulties encountered by the democrats in making their campaign this year and makes suggestions on harmony in the party. Concluding the judge says he does not hesitate to say that the great moral question that confronts the democrats is "shall the trusts and corporations be prevented from contributing money to control or to aid in controlling elections?"

The telegraph office at Rosemount lodge was dismantled after the day's business. Judge Parker said that his plans for the future were not definitely made, but that soon he would be in harness again. It is generally believed here that he will engage in the practice of law in New York, forming a partnership with some well established firm.

OHIO'S QUARTER MILLION. It Is That Much Plurality For Roosevelt.

COLUMBUS—Nearly complete returns show close to 250,000 plurality for Roosevelt and Fairbanks. Only eighteen out of eighty-eight counties in the state have been carried for Parker and only one democratic congressman has been elected out of twenty-one. State Chairman Harvey Garber, the democratic candidate in the Fourth district, has 1,600 plurality in a district normally 6,000 democratic.

A conference of republican leaders was held here and it was rumored that a plan had been agreed upon to secure the elimination of all factional lines and rally to Governor Herrick. Chairman Dick denied the conference had any such significance and declared that the discussion related only to campaign finances.

PEABODY IS ONLY ONE LOST. Republicans Sweep Colorado With Exception of Governor.

DENVER—The News (dem.) Friday says: While the returns on the vote for state offices, apart from governor, are far from complete, the News has compiled tables that seem to show the election of the entire republican state ticket, except Peabody, and of the three republican congressmen. A considerable number of counties are estimated on the best possible advice and there is a chance that Mrs. Genfield, democratic candidate for state superintendent of public instruction, may pull through on the scratch vote in her favor.

The state senate is democratic by a good majority, but the complexion of the house is in doubt. The plurality of Adams over Peabody for governor amounts to 9,646.

Concede Everything. PARKERSBURG, W. Va.—The democrats have conceded everything to the republicans in West Virginia, including the five congressmen and the legislature.

Attendance at the World's Fair. ST. LOUIS—Total attendance at the World's fair for the week ending November 12 was 498,149. Total since opening of the fair, 17,065,886.

Call to Form a New Party. CHICAGO—James H. Ferriss, chairman of the national committee of the people's party, has issued a call for a meeting to be held in Chicago sometime during November for the purpose of forming a new national party. In his call for the gathering, which he terms a "Jefferson conference," Mr. Ferriss declares that the time has arrived for the consolidation of a number of progressive parties and factions under a broad and liberal Jeffersonian program.

A Hint to the Ladies.

A young lady of this city dislocated her shoulder by violently throwing her arm around the neck of a girl friend. If girls would put their arms only where they belong they would gain more sympathy in the event of overdoing things and incidentally make men's lives happier.—San Francisco Call.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 1/2 pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

Largest Diamond.

Unfortunately, the largest diamond in the world is not of the crystalline sort used as a gem. It is there its value would be fabulous, for it is seventeen times larger than the famous Victoria diamond, the largest of modern finds, which was sold for \$1,500,000. Its value depends upon the use to which it can be put when broken up, for it is of the amorphous kind known technically as carbon.

Japanese in Frisco Schools.

There are 15,000 Japanese in San Francisco. All the children attend the public schools, side by side with the whites. As the schools will not hold all the white children that seek admission a movement is on foot, for that and other reasons, to provide a separate school for the Japs. The Japs object to being put on the same plane as the Chinese.

Sea water is frequently recommended by physicians for many purposes, and there is now quite a large number of people who are making handsome incomes in eastern towns by the sale of bottled sea water. They have daily or weekly supplies from the sea, and this is put into stone gallon jars and sent around to regular customers.

TILL NOON.

The Simple Dish That Keeps One Vigorous and Well Fed.

When the doctor takes his own medicine and the grocer eats the food he recommends some confidence comes to the observer.

A Grocer of Ossian, Ind., had a practical experience with food worth anyone's attention.

He says: "Six years ago I became so weak from stomach and bowel trouble that I was finally compelled to give up all work in my store, and in fact all sorts of work, for about four years. The last year I was confined to the bed nearly all of the time, and much of the time unable to retain food of any sort on my stomach. My bowels were badly constipated continually and I lost in weight from 16 1/2 pounds down to 88 pounds.

"When at the bottom of the ladder I changed treatment entirely and started in on Grape-Nuts and cream for nourishment. I used absolutely nothing but this for about three months. I slowly improved until I got out of bed and began to move about.

"I have been improving regularly and now in the past two years have been working about fifteen hours a day in the store and never felt better in my life.

"During these two years I have never missed a breakfast of Grape-Nuts and cream, and often have it two meals a day, but the entire breakfast is always made of Grape-Nuts and cream alone.

"Since commencing the use of Grape-Nuts I have never used anything to stimulate the action of the bowels, a thing I had to do for years, but this food keeps me regular and in fine shape, and I am growing stronger and heavier every day.

"My customers, naturally, have been interested and I am compelled to answer a great many questions about Grape-Nuts.

"Some people would think that a simple dish of Grape-Nuts and cream would not carry one through to the noonday meal, but it will and in the most vigorous fashion."
