## TRAFFIC OF THREE ROADS.

C. F. Daly Selected for a Highly Responsible Position.

CHICAGO—Since the reorganization of the Vanderbilt roads east of Chicago, a short time ago, several changes have been made in the operating department. The most important is the

C. F. DALY

promotion of Mr. C. F. Daly from the position of Assistant General Passenger Agent of the Lake Shore, to that of Passenger Traffic manager of the Lake Shore, Michigan Central and Lake Erie and Western. The general passenger agents of these lines retain their positions.

Mr. Daly came to Chicago three years ago from the Lake Erie & Western, where he had been general passenger agent. His promotion to so responsible a position is a deserved tribute to Mr. Daly's ability as a railroad operator. Some further changes in the Vanderbilt lines are expected in the near future but have not yet been announced.

## TERMS OF PEACE

They Are Said to Be Under Consideration.

LONDON—A dispatch to Reuters' Telegram company from St. Petersburg, confirming the Associated Press advices of February 17 and 18 from St. Petersburg to the effect that peace was under consideration, says: "The question of peace has not only been formally discussed, but the conditions on which Russia is prepared to make peace have practically been agreed upon. These are as follows:

Corea to be placed under Japanese suzerainty.  
Port Arthur and the Liaoting peninsula to be ceded to Japan.  
The Eastern Chinese railroad to be placed under neutral international administration.  
Manchuria as far north as Herbin to be restored as an integral part of the Chinese empire.  
The difficulty lies in settling the question of indemnity upon which it is known that Japan insists, but it is thought that this difficulty is not insuperable.

The most trustworthy opinion at St. Petersburg is that in view of the internal situation and the enormous difficulty in carrying on the war, peace on the terms outlined will be concluded within a comparatively short time if the indemnity question can be arranged, but it is quite possible that Russia will risk another battle before a decision is reached.

MOSCOW—The assassin of Grand Duke Sergius maintains an attitude of profound indifference.  
When pressed to reply to questions he declared that all the efforts of the authorities would have no result.  
Before his victim was laid under earth, he said, other victims would be found.

Regarding his motives, the assassin said he only acted in the interests of an oppressed people. He considered the deed was an act of duty. The grand dukes had for years violated every canon of ordinary decency and ruined the country while exploiting the weak will of the emperor for their own end.

## DIDN'T CHANGE IT A DOLLAR.

House Passes River and Harbor Appropriation Bill.

WASHINGTON—Without a dollar being added or subtracted, the river and harbor appropriation bill passed the house on Thursday after the session had run well into the evening.

The total amount carried by the bill is \$17,234,657. Throughout the day the progress of the bill was impeded by the offering of amendments, but only those presented by the committee were adopted, although on a point of order the house struck out the committee provision giving the supervisor of harbors at New York authority to make regulations regarding the towing of vessels. The most important committee amendment agreed to was one giving the supervisor of harbors at New York increased police power and providing for the protection of oyster beds against deposits from dredgings.

The military academy appropriation bill was sent to conference after agreeing to the senate amendment authorizing the president to appoint Senator Joseph Hawley (Conn.) as brigadier general on the retired list of the army, and with a further provision conferring similar authority in the case of General Peter J. Osterhaus.

## TAKE OFFENSIVE

GENERAL KUROPATKIN REPORTS ON MOVEMENTS.

A SEVERE FIGHT IS REPORTED

Japanese Occupy Coveted Position at Its Close.—It is, However, Said that They Did This With Loss of Many Men.

ST. PETERSBURG—General Kuropatkin has telegraphed to the emperor, under date of February 25, as follows:

"At 5 o'clock this morning the enemy occupied Tsinkehchen. Exact reports of our yesterday's losses have not yet been received. There are twelve officers and about 300 men wounded in hospital at Saniunyu. The percentage of killed is very large. The commander of the detachment reports acts of bravery by many detached bodies of troops."

General Kuropatkin instances many cases of close fighting and bayonet charges, and concludes: "This morning a battalion of the enemy advanced in the direction of Papi pass, six miles southwest of San Lunyu, and this evening the enemy's outposts commenced to approach the passes occupied by us."

1:35 a. m.—An action of no mean proportions is in progress on the Russian left flank. The advantage thus far is on the side of the Japanese, though at heavy cost. From advices from the front it is difficult to say how severe the losses have been or how decisive the reverse and whether the Japanese are likely to attempt to drive in the Russian left much further. General Kuropatkin evidently has been trying to establish his left flank far in advance, to command the crossings of the Taitse river, the operation being a counterpart of General Gripenberg's movement on the right flank to secure the fords of the Hun river preparatory to the breaking up of the ice in the spring. The scene of the operations is fifty miles southeast of Mukden beyond Da pass, an important defile commanding the road to Fushun. Both armies occupying apparently impregnable positions on the centers, General Kuropatkin evidently planned to inaugurate widely sweeping operations on both flanks, but the Japanese countered hard.

According to a Vladivostok dispatch to the Associated Press the entrance to that harbor is open and the squadron, which is seaworthy, is apparently taking no risks, but is saving its strength for co-operation with Vice Admiral Rojstvensky's squadron.

STATEHOOD BILL MAY FAIL.

Opposition in the Senate Blocks All Progress.

WASHINGTON—Efforts to harmonize the differences over the statehood bill continued fruitlessly in the Senate on Friday. There seemed to be no disposition on the part of the friends of the proposition for two states to be made of four territories to accept a compromise permitting Oklahoma and the Indian territory to come in at the present session and compelling the other territories to wait. When this was proposed it was insisted that the house would not agree to such an arrangement, while the appointment of conferees was prevented by Senator Morgan. Several other senators who opposed the house bill were ready to agree to these appointments, but evinced opposition to the adoption of a conference report which proposes to bring into statehood the territories of Arizona and New Mexico jointly. A disposition to debate at any length the adoption of such a report would be fatal to the passage of any statehood measure at this session.

## CALLS RUSSIAN ELECTION.

Rule Made for Selecting Commissioners of Labor and Capital.

ST. PETERSBURG—Senator Shidlovski, president of the commission appointed by Emperor Nicholas to ascertain the causes of discontent among the working classes of St. Petersburg, in a note issued Monday invites the employers and workmen to elect representatives to sit on the commission. Factory owners and contractors employing not less than 100 persons are entitled to elect fifteen representatives of the different industries, while the workmen of the various establishments can choose electors who who on March 3 will elect forty-five delegates to serve on the commission. Each establishment, employing 100 to 500 persons, is entitled to choose one elector, and those employing 500 to 1,000 persons, are entitled to an elector for each 500 employees. Both men and women are entitled to vote, but delegates must be men who have worked at least a year in their respective factories and must be freely elected by the workers themselves without interference on the part of the employers.

Naval Appropriation Bill.

WASHINGTON—The naval appropriation bill as agreed upon by the senate committee carries \$190,339,869, an increase of \$122,520 over the house bill. For increasing the number of petty officers, and men of the marine corps \$305,000 is added. The limit of cost of each of the colliers and scout cruisers authorized by the last naval appropriation bill are increased to \$1,450,000 and \$2,000,000 respectively. The limit of cost of the sailing training vessels authorized by the act of 1903, is increased to \$410,000 each.

## HERE'S A NEW IDEA.

A Convenience for Farmers Who Have Telephone Connection.

WASHINGTON—Senator Millard is in receipt of a communication from Hon. C. J. Garlow of Columbus, Neb., enclosing copy of a resolution passed by the republican county convention of Platte county. The resolution declares in favor of a proposed law to provide for the sale by the government of a special postage stamp which when placed upon a letter and sent through the mails would be authority for the postmaster at the point of destination to open the letter and to transmit its contents by means of telephone communication to the party for whom the message may be intended. It is easy to see that this is intended for the convenience of farmers residing in the country whose homes are connected with towns by telephone wires.

Upon inquiry, Senator Millard is advised that there is no legislation pending before either house of congress on this subject. Last year Senator Fairbanks introduced a proposed amendment appropriating \$20,000 for experimental telephone delivery of special rural mail matter under the direction of the postmaster general, but the amendment was not acted upon by the senate. In February, 1903, the senate passed a resolution asking the postmaster general to inform that body to what extent and in what manner the telephone is used in the collection and delivery of special delivery mail matter, and whether in the opinion of the postmaster general special rural telephone delivery of mail matter is desirable and feasible. In response to that resolution the postmaster general, under date of March 10, 1903, made a brief report in which he stated that the experiment had been tried at ten important postoffices in various states. These experiments seem to have been confined to the practice of telephoning the A. D. T. offices to dispatch boys to the postoffice to get special delivery letters to be carried to the addresses.

DOLLIVER FOR QUICK WORK

Iowa Senator Desires Rate Regulation Law at This Session.

WASHINGTON—The senate committee on interstate commerce agreed to report a resolution asking that the committee be authorized by the senate to sit during the recess of congress and take testimony for the purpose of preparing some measure for the regulation of railroad rates. A subcommittee consisting of Senators Foraker, Kean and Carmack met immediately and drafted the resolution. It provides that the full committee of a quorum of the committee immediately after the adjournment of the present session of congress, and thereafter at the convenience of the committee, and report to the next session.

Senator Dolliver, proceeding under a motion in a former meeting that the committee should continue the hearing and report a bill to the present session, ascertained by inquiry that the sentiment was almost wholly in favor of sitting during the summer. Therefore he did not press his motion.

The resolution by Senator Newlands creating a commission to frame a national incorporation act for railroads engaged in interstate commerce was ordered referred to the Interstate Commerce commission, with such suggestions and modifications as it may seem advisable.

APPEAL MADE FOR BOWLBY

Dismissed Cadet May Yet Get Into the Army.

WASHINGTON—Congressman Hinshaw called on the president to intercede in behalf of Cadet C. E. Bowlby, son of the well known Crete, Neb., editor, and to ask that he be appointed as second lieutenant of the army. It will be remembered that Cadet Bowlby was dismissed from the senior class at the West Point military academy May 21, 1901, for an infraction of the rules, but an examination of the facts indicate that there may have been an element of personal pique in the order of dismissal. The president did not indicate what his decision would be, but said he would take the matter up with the secretary of war. Four other cadets were dismissed on the same offense.

NO DENOMINATIONAL SCHOOLS

Bard's Amendment to Indian Appropriation Bill.

WASHINGTON—The Indian appropriation bill, as agreed upon by the committee on Indian affairs and reported to the senate, contains the following amendment offered by Senator Bard (Cal.):

"That no portion of the funds appropriated by this act, nor the principal nor the interest of any Indian trust or tribal funds held by the United States for the benefit of any Indian tribe shall be available or be expended for the support of any sectarian or denominational school."

"Waste of Ammunition."

TOKIO—The headquarters of the Japanese armies in the field reports that the Russians yesterday moved a division from the front of the left and advanced from Ta mountain. Several columns moved fifteen miles westward halting at Hang-chaitzu, which is two miles northwest of Wanchiayuan. The Russians continued to shell portions of the Japanese lines Saturday and the Japanese frequently failed to respond to the bombardment which often was ineffective.

## FEARS OF REVOLT

BEGINNING OF A DANGEROUS MOVEMENT IN RUSSIA.

TAKE POSSESSION OF THE LUND

Peasants in Southern Provinces in a Restless Attitude.—Belief that Czar Will Issue Manifesto Dividing It March 4th.

ST. PETERSBURG—The beginnings of a dangerous movement have been observed among the peasantry of some of the southern provinces, where revolutionary agitators are circulating reports that the emperor will on March 4 issue a manifesto providing for a general division of lands. A new allotment has been the dream of the moujiks ever since emancipation and according to private reports the stories have spread like wildfire and are implicitly believed. In the government of Tuia a large proprietor went to his estate last week and found the peasants at work measuring off and staking their shares. In response to his demands for an explanation they told him of the coming manifesto. Refusing to listen to his declaration that the report was absurd they would only say "We have heard the little father has decided."

When the proprietor asked what would become of him they replied, "Oh, we will leave you the buildings and forty acres."

Once the peasantry becomes possessed of the idea that the emperor has willed a division of land it will be exceedingly difficult to disabuse their minds, and agrarian troubles on a large scale are feared. The moujiks are likely to turn on the proprietors as they did several years ago in the provinces of Saratoff and Poteva, when anarchy reigned for some time.

Among the reservists agitators are spreading the story that the war is over. A case is cited which occurred a fortnight ago at Raizain, where 200 reservists who had been called in hastily told the officer they did not intend to serve. "The war is over," said the leader. "We know you simply want to make money out of a contract for feeding us. We will not serve," and off they marched. An instance was given of reservists who actually left a railway train after they had been started for the front.

Private reports also leave no room for doubt that the strikes in the whole region below Moscow are almost entirely political in character. The situation generally in the south of Russia is becoming worse instead of better and contains many factors which are causing the authorities the greatest alarm. The possibility of the necessity for the dispatch of additional troops to the Caucasus is already being considered.

GRAND OPERA.

CHICAGO—Dr. George Stephen Goodspeed, professor of history at the University of Chicago, died of pneumonia. He graduated from Brown university in 1880, and took his doctor's degree at Yale.

Russian Advance Posts Driven In

ST. PETERSBURG—Official dispatches given out here Friday dispose of the rumor of General Kuropatkin's retirement from the Shalke, but taken in connection with the Associated Press Tsinkehchen dispatches show that operations of an important nature are in progress in the mountain region to the eastward. The movement was precipitated by the Russians, who last week sent out two divisions and occupied well advanced positions. Severe fighting is looked for in near coming days.

## COULDN'T LIFT TEN POUNDS.

Doan's Kidney Pills Brought Strength and Health to the Sufferer, Making Him Feel Twenty-five Years Younger.

J. B. Corton, farmer and lumberman, of Deppe, N. C., says: "I suffered for years with my back. It was so bad that I could not walk any distance or even ride in easy buggy. I do not believe I could have raised ten pounds of weight from the ground, the pain was so severe. This was my condition when I began using Doan's Kidney Pills. They quickly relieved me and now I am never troubled as I was. My back is strong and I can walk or ride a long distance and feel just as strong as I did twenty-five years ago. I think so much of Doan's Kidney Pills that I have given a supply of the remedy to some of my neighbors and they have also found good results. If you can sift anything from this rambling note that will be of any service to you, or to anyone suffering from kidney trouble, you are at liberty to do so."

Billion Dollar Grass.

When the John A. Salzer Seed Co., of La Crosse, Wis., introduced this remarkable grass three years ago, little did they dream it would be the most talked of grass in America, the biggest, quick, hay producer on earth, but this has come to pass.

AGRICULTURAL EDITORS wrote about it, Agr. College Professors lectured about it, Agr. Institute Orators talked about it, while in the farm home by the quiet fireside, in the corner grocery, in the village post-office, at the creamery, at the depot, in fact wherever farmers gathered, Salzer's Billion Dollar Grass, that marvelous grass, good for 5 to 14 tons hay per acre and lots of pasture besides, is always a theme worthily of the farmer's voice.

Then comes Bromus Inermis, then which there is no better grass or better permanent hay producer on earth. Grasses wherever soil is found. Then the farmer talks about Salzer's Tessie, which produces 100 stocks from one kernel of seed, 11 ft. high, in 100 days, rich in nutrition and greedily eaten by cattle, hogs, etc., and is good for 80 tons of green food per acre.

Victoria Rape, the luxuriant food for hogs and sheep, which can be grown at 25c a ton, and Speltz at 20c a bu., both great food for sheep, hogs and cattle, also come in for their share in the discussion.

Honesty is the best policy, provided you keep your premiums paid up.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 2 1/2-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

The older some women get the more girlish they try to act.

Insist on Getting It.

Some grocers say they don't keep Defiance Starch because they have a stock in hand of 12-ounce brands, which they know cannot be sold to a customer who has once used the 16-ounce package. Defiance Starch for some money.
