

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

Ask Mrs. Pinkham's Advice—A Woman Best Understands A Woman's Ills.

Mrs. Ella Lee, Frankford, Ind., writes:
Dear Mrs. Pinkham—
"I want to thank you for what your medicine has done for me."
"Three years ago I had inflammation of the ovaries and ulcers on my womb. I was under the doctor's care for about three months, and the only time I was not in pain was when under the influence of morphine. The doctor finally said I never would be better, and would be an invalid the rest of my life. I had given up in despair, but one evening I came across one of your advertisements and decided to write you for advice. I did so and commenced to take Lydia E. Pinkham's Vegetable Compound. I began to improve at once, and to-day I am a well woman, and I know it is all due to your advice and medicine."

Mrs. J. H. Farmer of 2809 Elliott Avenue, St. Louis, Mo., writes:
Dear Mrs. Pinkham—
"I cannot thank you enough for what your advice and medicines have done for me. They have done me more good than all the doctors I ever had."
"For the last eight years I have suffered with female troubles; was very weak; had nervous prostration, and could not do my work; but I am happy to say Lydia E. Pinkham's Vegetable Compound has made a different woman of me. I am in perfect health and have gained in weight from 93 pounds to 123 pounds."

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record for actual cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

The Finns' Barometer.

A small stone has been lodged in the British museum; it is somewhat of a mystery. It has been named the semakur. It is a native of Finland, and the Finns tell the weather by it. The explanation is that the stone changes its appearance through absorbing the moisture in the air preceding rain, turning it black.
