Engineer F. E. Allen and Lou Shaw-

ver went up to Ranchester this week on a bear hunt, and President Roosevelt's record will, no doubt, be distanced.

Brakeman F. W. Gray will leave next week for Buffalo, N. Y., where he goes to represent the Alliance lodge of the B. of R. T. at the national convention that will be held in that city.

Conductors M. E. Johnson and W. E. Cotant, accompanied by their wives, left Sunday on 41 for Portland, San Francisco and other points on the coast. Mr. Johnson while away will attend the national convention of the O. R. C. that will be held in Portland next week, he having been delegated to represent the Alliance division of that order.

H. C. Nutt, General Superintendent of the Iowa lines of the Burlington, has been transferred to the Missouri lines in the same capacity with headquarters at St. Louis vice Henry Miller, who recently resigned to accept the position of General Manager of the Wabash railroad. It is understood that Superintendent of Station Service Ross, of the Burlington, will succeed Mr. Nutt as general superintendent of the Iowa lines. Mr. Nutt was at one time trainmaster at Alliance and also assistant superintendent at Sheridan.

Conductor J. S. Neary, of Sheridan, was ran over and killed in Billings yard by Northern Pacific passenger No. 6 last Saturday morning. He was taking a check of a freight train that he was going to bring out of Billings on the Burlington, and stepped on the N. P. track in time to get caught. His remains passed through Alliance on 42 yesterday en route to Junction City, Kansas, for burial. Conductors Phelan and Cunningham, of Sheridan, accompanied the remains. The deceased left a wife and two children. Mr. Neary was well-known among the railroad men in this part of the country. He lived in Alliance a number of years prior to 1894 and had charge of the yards as yardmaster. He left here and worked for Omaha Bridge and Terminal company with F. S. Harris for several years. He has been braking and running trains out of Sheridan for past four or five years.

Sheridan has passed an ordinance to hold an election June 2, to vote \$38,000 bonds to build a sewer for that city. Alliance can build a sewer for \$10,000 less money. Let us get at it.

Harry Thiele has installed a new, modern, up-to-date, soda fountain that is a beauty. It does away with the old system of a lot of marble and congeals the nectar beneath the counter, while a handsome new counter adds to the appearance of the place. It is modern in every way.

The new show window on the north side of the Mallery grocery store is a big improvement in convenience and appearance both from the inside and outside. A new walk has been laid along the south side of the street and will be continued west for three blocks. Improvements still continue.

Engineer C. C. Smith had his foot smashed by the breaking of a "Johnson bar" on his engine yesterday and was brought home on 42 this morning. The accident is painful, but will not prove serious, except to lay him up for some time as some of the bones are broken, and the toes were thrown out of joint.

W. J. Marsh arrived at Alliance from Albuquerque, N. Mex., the first of the week, and went down on his claims, yesterday, to put up some buildings and have the surveyor show him how much of the country he owns. Mr. Marsh and family will make their home in this part of the country in the future.

William Welsh and Pat Donohoe were up from Bingham the first of the week and bought a bunch of cattle for his ranch and took along enough more to run for the summer to make a total of 380 head. The Welsh and Donohoe ranch is just east of the Spade ranch property and grass is reported better in the sandhills this spring than for many years.

Editor Elquist of the Bayard Transcript, was an Alliance visitor yesterday, coming over to attend to matters at the land office. Mr. Elquist is an extensive real estate dealer in the valley and predicts a bright future for the North Platte valley, when the new

Government Pathfinder irrigation project is completed, which he predicts at an early date, the dam being practically completed now, and contracts are being let for 45 miles of ditch now. This ditch will water a tract of land fully ten miles wide on both sides of the Platte from Guernsey east.

The twelve-year-old son of James Collins of west lawn had the misfortune to break his leg between the knee and hip on Monday while engaged in a practice game of football. Dr. Bowman reduced the fracture and the patient is doing nicely, but it will be some months before he will be out again.

Considerable excitement was caused Monday night about 10:30 by the sound of the gong or burglar alarm on the first national bank. The mechanism is so delicate that it goes off at the slightest touch and the only excuse the bank officials give for it is that the combination must have been set wrong. The gong continued until Cashier Glen Hampton was called from the Phelan opera house where he was attending the theatre, to turn the thing off and let people sleep.

Dr. J. G. Brenizer, the short horn cattle man from Broken Bow, brought a car load of fancy home grown Scotch and Scotch topped short horn bulls in last Friday and by Monday had sold every one. The Doctor grows his stock near Broken Bow and is one of the best known short horn breeders in the state. He breeds only the very best. When in need of a sire to head your herd, it would be well to see or write Dr. Brenizer, whose stock is acclimated in this western country. The best evidence that his stock is the best is the fact that it took but two days to dispose of a car load of his own breeding.

George Barrett, an electrician, is employed by the electric light company. Nothing strange about that, but he is remarkable in that he is able to whistle in two keys at the same time. Recently while engaged at work alone, two persons were heard whistling a tune in unison but in a different key. After investigation it was found that he did it alone and all unconscious of any peculiarity. He says he never heard any one whistle that way, but just discovered that he could. His rendition of any popular tune is clear, strong and well defined in both keys. He is a wonder.
