One Who Broke Down from Six Years of Overwork Tells How She Escaped Misery of Enforced Idleness.

"I had been teaching in the city schools steadily for six years." said Miss James, whose recent return to the work from which she was driven by nervous collapse has attracted attention. "They were greatly overcrowded, especially in the primary department of which I had charge, and I had been doing the work of two teachers. The strain was too much for my nerves and two years ago

the crisis came "I was prostrated mentally and phy-

sically, sent in my resignation and never expected to be able to resume work. It seemed to me then that I was the most miscrable woman on earth. I was tortared by nervous headaches, worn out by inability to sleep, and had so little blood that I was as white as chalk.

"After my active life, it was hard to bear idleness, and terribly discouraging to keep paying out the savings of years for medicines which did me no good."

"How did you get back your health ?"

"A bare chance and a lot of faith led me to a cure. After I had suffered for many months, and when I was on the very verge of despair, I happened to read account of some oures effected by Dr. Williams' Pink Pills. The statements were so convincing that I somehow felt assured that these pills would help me. Most people, I think, buy only one box for a trial, but I purchased six boxes at once, and when I had used them up, I was indeed well and had no

need of more medicine. "Dr. Williams' Pink Pills enriched my thin blood, gave me back my sleep, restored my appetite, gave me strength to walk long distances without fatigue, in fact freed me from all my numerous ailments. I have already tanght for several months, and I cannot say enough in praise of Dr. Williams' Pink Pills."

Miss Margaret M. James is now living at No. 128 Clay street, Dayton, Ohio. Many of her fellow teachers have also used Dr. Williams' Pink Pills and are enthusiastic about their merits. Sound digestion, strength, ambition, and cheerful spirits quickly follow their use. They are sold in every drug store in the world.

Days in America.

Hearty farewells were extended last Saturday by the Campania's passengers to their fellow traveller John O'Reilly, aged ninety-five, and his wife, Mary, seventy yers old, as they came ashore at New York. Mr. O'Reilly wore a tall shiny beaver hat. which he bought fifty years ago, the kind that Lincoln and Webster wore at the height of their fame.

When questioned at the landing O'Reilly said:

"I've come back to America to pass my century mark. It's nobody's business how much money I have or have not. I may not have a penny and I may have plenty, but I'm an American citizen and you can't stop me." And they didn't.

O'Reilly at once bought tickets to Dunkirk, N. Y., for himself and wife, it failed. The legislature appropriatand will return to that place, where ae lived for fifty-eight years before tution for the next two years and ceturning to Ireland a year and a half most of this will be spent. 1.80.

Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Long, long ago, when William Penn sailed from England on his second visit to America, what do you think he brought with him on the good ship Canterbury? An English doll. This passenger is the sole survivor of that voyage across the Atlantic, which was made over 200 years ago.

William Penn had a little daughter named Letitia. Letitia heard her father tell wonderful lales of what he saw and heard in Pennsylvania on his first visit to this country, thousands of miles distant from Letitia's home. He often told hcr about little Miss Rankin, who living as she did in the wilderness of Pennsylvania (for this was long ago,, remember), had no tops at all, not even one rag doll. When Letitia's father was getting ready to again cross the ocean to America his little girl insisted upon sending a doll to that lonesome little girl.

The doll was dressed in a court costume of striped and delicately tinted brocade and velvet. The skirt was held out by enormous hoops for such was the fashion of the well-dressed ladies of that period. The doll itself is twenty inches high and has the long waist and slender form of the court beauties she left in her native land. Her hair is rolled back from her face, much in the style of today.

This doll now lives in Montgomery county, Maryland, in the strictest seclusion. She is only removed from her careful wrappings when little girls desire the honor of making the acquaintance of the oldest doll in America.

When Coffee Shows What It Has Been Doing.

"Of late years coffee has disagreed with me," writes a matron from Rome, N. Y.; "it's lightest punishment was to make me 'logy' and dizzy, and it seemed to thicken up my blood. "The heaviest was when it upset my

stomach completely, destroying my appetite and making me nervous and irritable, and sent me to my bed. After one of these attacks, in which I nearly lost my life, I concluded to quit and try Postum'Food Coffee.

"It went right to the spot! I found it not only a most palatable and refreshing beverage, but a food as well. "All my ailments, the 'loginess' and dizziness, the unsatisfactory condition of my blood, my nervousness and irritability disappeared in short order and my sorely afflicted stomach began quickly to recover. I began to rebuild and have steadily continued until now. Have a good appetite and am rejolo ing in sound health, which I owe to the use of Postum Food Coffee."
