Railroad Accident at Guernsey.

Mail Clerk Pool of the north branch was present last Tuesday shortly after an accident occurred at Guernsey, in which two people were killed and a third had his leg broken and was otherwise injured. The ore train on the Colorado & Wyoming road, which is made up at Hartville, three miles north of Guernsey, was wrecked and a lone car, which remained on the track, escaped down the steep grade and collided with a caboose in which were seated the conductor, Lenn Briggs, who several years ago was night yardmaster in the railroad yards at this place, the brakeman and a Mrs. Ladd, wife of the station agent at Hartville. The force of the collision wrecked the way car and killed Mr. Briggs and Mrs. Ladd instantly. The crew of the Burlington local assisted with their engine in clearing away the debris which was tossed about in confusion.

Fire on the Bellwood Range.

The season for prairie fires is upon us. The first serious loss from this element occurred last Sunday, when the new house erected on the ranch together with several stacks of hay were destroyed. When the Denver train arrived, it was learned that a vigorous fire was sweeping the Bellwood range near Angora. As hurriedly as possible Engineer Franklin, who just came in with the Denver train, was on his way to the fire with a way car loaded with fire-fighters under the supervision of Claim Agent Boyd. The heavy asbestos blankets and chains were brought into use and the fire was soon extinguished. Six fires were put out along the right-of-way before the crew returned.
