Analysis of Medicines Open to All. "There is no public demand and there is not the slightest public necessity for a law compelling the publication of the formula of proprietary medicines," says the Committee on Legislation of the Proprietary Association.

Good for Nerves. Herb pillows and herb teas are used to quiet the nerves. A pillow of lavender, a big bag of pine needles, a small sack of catnip, a bunch of clover tied in a pillow case, will give a sweet scent and put one to sleep.

Quality Brings the Business. Seven million (7,000,000) Lewis' "Single Binder" straight 5c cigar now sold annually. Made of extra quality tobacco.

Quercus Medical Prescription. An official report to Parliament on the condition of Gambia states that generally speaking, the natives are in good health, which is rather surprising, considering that they rely, when ill, on the treatment of a native doctor.

Costly Russian Caviar. Genuine Russian caviar is one of the most costly commodities. A tablespoonful of it costs \$2. Twice as much ordinary caviar can be bought for a quarter, but they who have once tasted the real thing never again return to the substitute-sturgeon roe-for Russian caviar is as different from sturgeon roe as plover is from crow.

The Honeymoon is Still Shining. The Ideal Man lives in Atchison. His wife burned the steak and didn't have time to cook anything else. "Perhaps he will not notice it," she thought, "if I put a flower with dew on it beside the steak." So she went out and gathered an aster, and put it beside the burned steak, and he never noticed that the meat was burned.

Venomous Even in Death. William English and Milton Davis of near town, were out hunting on the farm of J. D. Powers a few days ago and they shot a large rattlesnake, shooting off its head and about four inches of its body. The severed head was hurled by the discharge against the bird dog of Mr. English. It bit the dog and he died within a few minutes.

Wonderful Jamaica Family. A century ago there died in Jamaica a woman named Mills. Her age was given as 118 and she was followed to the grave by 295 of her children, grandchildren, great-grandchildren and great-great-grandchildren - no fewer than sixty of whom, all named Ebanks, belonged to the regiment of Militia for St. Elizabeth's parish.

Important Diabetic Point. One writer upon dietetics says that raw nuts should never be eaten except with salt, or in conjunction with fruits. Instinctive obedience to this natural law associates nuts and raisins, walnuts and wine, as naturally as hook and eye, or shovel and tongs. The heavy nut oils demand a corrective in the form of acid or alkali.

What He Paid For. A cynical highland gillie thus explains a certain rich American's action in paying \$25,000 as a year's rental for a castle in the north of Scotland: "He pays \$5,000 for the house, \$5,000 for the fishing, \$5,000 for the deer, \$5,000 for the grouse and \$5,000 for being near Balmoral, where the king occasionally visits."

THE BEST COUGH CURE. A well-known Rochester lady says: "I stayed in the Adirondacks, away from friends and home, two winters before I found that by taking Kemp's Balsam I could subdue the cough that drove me away from home and seemed likely to never allow me to live there in winter."

THE EXTERNAL USE OF St. Jacobs Oil. It penetrates to the seat of torture, and relief promptly follows. Price, 25c. and 50c.

Elephant's Milk. The milk in an average cow contains about 4 per cent of cream; nearly 20 per cent of the elephant's milk is cream. Even buffalo milk is about twice as rich as cow's milk, and the creamiest of all, that of the goat, actually holds over 34 per cent of cream, says Knowledge.

A Mean Man. How's this for a mean man? He gives his little boy a penny for going to bed without his supper. After the little boy has gone to bed, he sneaks upstairs and steals it out of his pocket. When the little boy comes down in the morning he whips him for losing it.

Uncovered Rare Old Painting. Strange noises being heard from behind a picture in St. Anthony's church, in the village of Seurcolla, province of Aquila, Italy, the parish priest removed the panel and discovered a beautiful fresco, representing St. Francis of Assisi, evidently the work of an old master.

The "Good Fellows" Way. It is curious that so many men find it easier to be generous downtown than at home. - Indianapolis News.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, whooping cough, croup, and all the other ailments of infancy.

America's Embryo Army. The total number of men in the United States liable to military service is 11,126,750.

In the palm of the hand there are 2,500 pores to the square inch. If these pores were united end to end they would measure about five miles.

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the signature of J. C. WETTER.

Acetylene Gas. All country people will be interested in reading about it in another part of this paper.

Most people think white grapes juice and grape skins together, and white wine is made by fermenting grape juice alone.

I am sure Pisco's Cure for Consumption saved my life three years ago. - Mrs. THOS. R. BURNS, Maple Street, Norwich, N. Y., Feb. 17, 1906.

Generally the only time a person's conscience troubles them is after they have been found out.
