LAND OFFICE NEWS

John Flannigan of Chadron is granted leave of absence from his homestead in 35-35-49.

Andrew J. Holstead applies for second homestead to embrace parts of 25, 26, 35-24-46.

D. C. Hunsaker, section foreman at Hemingford was transacting business at the land office Tuesday.

Stanley C. C. Hemmingford was at the land office Monday completing his homestead application for a second entry which had been allowed by the Commissioner.

Mary Heesaker and Frank Wassenberger of the Rushville country were at the land office Saturday fixing up some papers on the application of Mrs. Heesaker for a second homestead.

A decision of sweeping importance was received this week in the matter of contest by Barney Pitts of Hemmingford against the homestead entry of Mueller. Pitts lived for seventeen years on his homestead and after the Kinkaid homestead law was enacted he offered his filing for a quarter section adjoining. Mueller, desiring to beat him out of it jumped in ahead and got his filing on first. Barney contested it on the ground that the law gave him preference right for vacant land adjoining his homestead for ninety days after April 28, 1904. Mueller resisted the contest on the ground that Pitts owned several quarter sections of deeded land at the time he made his application and was not a qualified entryman and the Register holding that under the act of April 28, 1904, every bona-fide homesteader has the right to file on additional land sufficient to make up 640 acres, no matter how much land he may own other than his homestead. He even goes farther and holds that a single woman holding a homestead, and after April 28, 1904, marries, she has the right to fill out her 640 acres. He holds that Pitts being qualified to enter the land, the entry of Mueller is held for cancellation.

BREEDER OF
Pure Scotch and Scotch Topped
SHORTHORN CATTLE
BROKEN BOW, NEBRASKA.
Herd headed by CRIMSON SCOTT,
177035, Straight Scotch Breeding.
Herd numbers 90 breeding cows that weigh 1400 to 1800 pounds, a large number being pure Scotch, and as good breeding as was ever brought from Scotland. Experience has taught me that for breeding purposes cattle shipped in are very little good the first year, their constitutions must become accustomed to our high altitude and our grass. Hence animals raised here are preferable. I intend to raise them here. Good, first class Nebraska breeders, the equal to anything raised in the U. S. Come and see me. (20-6m*)
