So Goes the World.

Alone in the west, without the shelter of a friendly roof, whose only charity was the county poor house, there died last Saturday at the midnight hour, a young man who carried his right name with him to the grave, to be forgotten forever. A mother will, perhaps, never know of the sad ending of her boy, and a loving sister will look in vain for a letter from a brother, who in his poverty, sought to restore his failing health in a strange land. The deceased gave his name as George Bell, simply because he had to call himself by some non deplume, but he admitted that it was not his right name. He was in the last stage of consumption when he came to Alliance, and being without means, and his physical strength gradually leaving him, he was compelled to take refuge in the public almshouse. Bell was not a man of coarse nature, but gave every indication of having been reared in a refined atmosphere. Quiet and pleasant in demeanor, he made friends readily, yet he kept his troubles to himself. At any rate, he died as above stated, and after the lifeless bundle of bones were taken to the undertaker to be shipped to some medical institution, it was found necessary to embalm them before the company would accept the same. Here's the only place where poor Bell won out. There being no cash on hand for such purposes, the body was taken to the city cemetery, and the last chapter of a lonely life was completed in six feet of mother earth. God pity the poor, for the world will not.

Bromos Grass and Its "Father."

Leonard Sampy drove down from his farm, five miles south of Hemingford, Tuesday, accompanied by Dennis Bergen. They made THE HERALD a visit, and Mr. Sampy inserted an ad. of bromos grass seed for sale, which appears in another column. This year Mr. Sampy raised about 9,000 pounds of the seed and a quantity of fine hay. He now has about seventy-five acres seeded down, and will continue seeding a large acreage every year. There is no question but what it is a splendid forage, and in a few years there will be thousands of acres sown to bromos in western Nebraska. There are a number in the county who contemplate putting in a large acreage next spring. Mr. Harris, living a mile northeast of Alliance, who raised a crop of bromos this year, upon being asked what he thought of the grass, replied: "I think enough of it to sow forty acres next spring." A very important matter to be considered by those who expect to sow bromos is the kind of seed they secure, as much of that shipped in is not adapted to this country, also seed that is too old will not grow. Mr. Sampy might truly be called the "father of bromos grass in Box Butte county," he being the first to demonstrate the virtues of the plant in this section, and his experience will be valuable to anyone interested along that line.

Telephone orders will likewise be attended to. Give the new firm a trial order and you will become a permanent customer. Phone 405. 46-11.

MORE BUILDING NEXT SEASON

New Business Blocks Contemplated for Alliance and a Busy Year Predicted.

The end is not yet in the way of building boom for Alliance, and with the new blocks now under consideration there will be lively times in trade circles just as soon as the weather will permit next spring.

Among the new buildings under contemplation, S. C. Reck is preparing plans for a substantial one on the second lot west of the new postoffice site and adjoining Graham's grocery store. The structure is to be of brick and two stories high. It will include all the modern improvements and conveniences for business purposes and will be an ornament to the city's improvements. Mr. Reck has a fine location for such a building and it will doubtless make a fine business point, being in close proximity to the postoffice.

Dr. F. M. Knight will also erect a substantial two-story business block just west of the new postoffice site and joining Mr. Reck's building. It will be of brick also.

Another hotel to supply the wants of the public is also under contemplation by Robert Baxter and son. This new proposition is to be a two-story structure covering three lots, located just opposite the passenger depot and across from the Hila Grand. The material will be of cement stone, which has come into popular use all over the country. The door and window finishings of the specifications will lend a metropolitan appearance to the building and give that part of the city a business-like impression to people who travel through.

Let the good work go on, and every one stand up for the metropolis of the northwest, where every hill top is covered with fat cattle and fertile farms grace the valleys.

In Social Circles.

The season for winter parties was graciously inaugurated last Monday evening by Mrs. Fred Ayres, who gave a dard party in which about twenty ladies and gentlemen participated. It was a most pleasant gathering, and the hostess in her graceful manner, made everyone feel at home. Refreshments were served during the evening and the guests expressed themselves as being royally entertained.

A Halloween party was given at the residence recently vacated by Mr. and E. S. Jackson. Miss Kate Bogue, who has the reputation of knowing how to entertain, invited a number of friends that evening to make merry, and they did so in the full sense of the term. A fine luncheon was served and this memorable night, when it is said, lovers look and act their best, will long be remembered by those who enjoyed Miss Bogue's hospitality.

City Property Traded for Ranch.

W. W. Norton has traded the brick block occupied by Franklin Bros., on Box Butte avenue, together with a business lot adjoining the new hotel, and several residences properties in the south part of town, and other considerations for the fine ranch property of S. J. Wilson, located a few miles south of Alliance, and consisting of 2,240 acres deeded, school and range land, with improvements thereon. Mr. Wilson has another ranch in Sheridan county and will remove there on next spring. This was quite an extensive deal.

Mrs. Nellie Slade departed Tuesday morning for her home in Los Angeles. Mrs. Slade spent a few months here with her parents, Mr. and Mrs. S. M. Snyder, and had intended staying until February, when the family goes, but changed her mind during the recent cold snap.

The presentation of "Dr. Jekyll and Mr. Hyde" by Theodore Lorch and company at the opera house last Friday night was fairly well rendered. Mr. Lorch's emotional acting, which has a wide range in this master piece was very strong and he shows the finished actor in every respect. His support is not what it should be, but it matters little, for he is the whole works in the drama.

Card of Thanks.

We desire to express our most sincere thanks to the many kind friends who came to our aid in sorrow for the loss of our husband and father.

Figure Up

your dry goods bill for the last year. Was it \$100.00? Did you get 5 per cent profit-sharing rebates? \$5.00 for dainty luxuries? That's what it means. Is it not worth while?

Think it over.

Horace Bogue

Mr. and Mrs. T. J. Threlkeld are rejoicing over their first born, a young democrat, who took up his abode last Monday. Like his dad he is of the Missouri stripe, all wool and a yard wide.

Simon Spry departed for Missouri last Sunday morning. The attraction in old "Show Me" is said to be of the gentler sex, and a flame of long ago. Let it be so, for Simon is a good Indian to tie to.

W. Bame, a Dawes county rancher, transacted business in the metropolis Tuesday. He came down to buy a corn sheller, which, by the way, is another evidence of prosperous farming this season.

The families of Bartlett Richards and W. G. Comstock of Ellsworth were in Alliance yesterday, enroute to Coronado Beach, Cal., where they will spend the winter. Mr. Richards and Mr. Comstock accompanied them to Denver.

Halloween was observed in Alliance by the younger generation and also by a few who were not so young. The usual pranks were indulged in and a number of gates, outhouses and other movable property showed signs of the evening's mischief.

The eight-months-old son of Mr. and Mrs. Alva Lotspeich of Hyannis died Monday night of bowel complaint. Fred Hoyt, a prominent real estate man of Gordon, is in the city for a couple of days looking after his land interests in this county. Mr. Hoyt says that the potato loss on account of the freeze in the country tributary to Gordon is estimated at 150,000 bushels. The weather man has certainly surprised the farmers in all parts of the country this year, and the experience has been very expensive to them. The potato crop will be harvested earlier in the future.
