Dip Your Sheep The First of June

Dipping sheep is an operation that is performed once a year only as a rule and it is important that this once should prove effective.

The right sort of dip is one that should destroy all insects or parasites and should have a healing and tonic effect on the skin without any possibility of injury.

ZENOLEUM

meets all these requirements. We believe it is the best one made.

The great secret society known as the "Mary Janes" has accepted an invitation from Mrs. Geo. Gaddis to partake of a chicken supper at her home, ten miles southwest of Alliance, some evening next week. It is needless to say that the large red automobile which we have seen about our streets so often will be the means of conveying this merry party to their destination. We would like to suggest that each of the girls bring her pocket full of gasoline, as it is likely that the chauffeur will need it.

Next Sunday at the Methodist church the Peru quartette will sing both morning and evening. Do not miss the treat thus offered you. Junior Normal Lecture and Entertainment Course.

The management of the Junior Normal lecture and entertainment course has placed season tickets on sale at Holsten's at one dollar each. This gives five numbers of first-class entertainment for the price of one. Adrian M. Newsen, reader and impersonator, will give the first number, Friday night of this week. Prof. H. H. Reimund, with his state normal quartette, will give the second number June 22. The Chicago Glee Club will appear July 9, Captain W. R. Akers July 1, and the normal graduating exercises July 17.

While this is an expensive course, the management deemed it best to place the price so low that every one might attend the full course. There is no better reader and impersonator in the country today than Adrian M. Newsen, and no better glee club than the Chicago Glee Club. Single admissions, soc. Tickets on sale and seats reserved at Holsten's Thursday and Friday.

OFF THE WATER WAGON AGAIN

(Musings of an Alliance citizen who met a congenial stranger with a rather heavy grip that might be termed "excess baggage." When asked if Alliance was a dry town, he replied, "Yes, it is, but all grips are not.")

I dreamed I dwelt on an isle of cracked ice In the midst of a lake of champagne, Where bloomed the mint julep in meadows of green, Amid showers of lithia rain.

I reclined on a divan of lager beer foam, With a pillow of froth for my head, While the spray from a fountain of sparkling gin fizz Descended like dew on my bed.

From far-away mountain of crystalline ice, A zephyr refreshing and cool Came wafting the incense of sweet muscatel That sparkled in many a pool; My senses were soothed by the soft purring song

Of a brooklet of pousee cafe That rippled along over pebbles of snow To a river of absinthe frappe. Then, lulled by the music of tinkling glass From schooners that danced on the deep, I dreamily sipped a high ball or two, And languidly floated to sleep.

And then I awoke on a bed of rocks, With a bolster as hard as a brick, A pain in my head, a rack in my neck, And a stomach detestably sick; With sand in my eye and grit in my throat Where the taste of last evening still clung, And felt a bath towel stuffed into my mouth Which I afterwards found was my tongue; And I groped for the thread of the evening before

In a mystified maze of my brain Until a great light burst upon me at last, Ye gods! I'm in Alliance and off of the wagon again.

State Senator Sibley was among the prominent visitors to Alliance during the stockmen's convention last week. The senator has been "mentioned" as a possible contestant with Foxy Mose for the republican nomination for congress in this district.

Four "tourist" printers have applied at this office for employment during the past week. They reported work slack all around. About twenty more workmen were laid off at the railroad shops in this city last week. Monday morning the Burlington railroad dumped at this station over twenty so-called "hoboes"—presumably workmen who have lost their jobs. Aside from politics, there is a lesson here that all men whose daily bread depends upon their labor should seriously consider—and that is Economy. Lay up a little for a rainy day, for you have no security against that day's coming.

A Washington dispatch to the Omaha Bee says: "C. E. Thatcher of Alliance, Nebr., has been transferred from the office of the auditor of the war department and made assistant chief of the new railroad rate board. Before coming to Washington, Mr. Thatcher was in the employ of the Burlington railroad as train dispatcher at Alliance." Mr. Thatcher is a brother-in-law of F. W. Harris, of this city, and J. T. Whitehead, of Mitchell.

The Knights of Columbus entertained the members of the stockmen's association, at their hall, with an interesting program last Thursday night. Ethel Nolan and Wm. Heelan gave recitations that were creditable performances, and Miss Broome sang some enjoyable songs. Father McNamara delivered a short address which was eloquent and instructive.

Mrs. J. J. Graining, who was taken to the Box Butte hospital recently, was operated on yesterday and is improving nicely.
