CHAFIN AND WATKINS Prohibition National Convention Names Ticket.

Chicago Attorney is Nominated for President on Third Ballot-Tangle Over Second Place-Platform Fa. vors Deposit Insurance.

For President-Eugene W. Chafin of Chicago. For Vice President-Aaron S. Watkins of Ada, O.

The above ticket was nominated by the Prohibition national convention at Columbus, O., Thursday afternoon. The full indorsement of the convention was not given to Mr. Chafin until after three ballots had been taken. On the first two ballots, Mr. Chafin did not show a great amount of strength, receiving but 195 out of 1,-083 votes on the first and 376 out of 1,087 on the second ballot. His nomination was practically assured, however, when the roll call began for the third ballot. His own state, which had voted largely for Daniel R. Sheen of Peoria, and the New York delegation, followed by Indiana and Wisconsin, came over to Mr. Chafin and on the third ballot he received a total of 636 votes

A. G. Wolfenbarger of Nebraska made the nominating speech for Mr. Chafin.

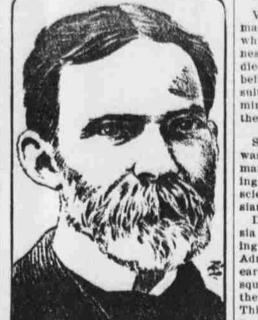

The strongest competitor of Mr. Chafin was Rev. William B. Palmore of St. Louis, who received 274 votes on the first ballot and 418 on the second ballot and a comparatively small vote after it was apparent that the nomination of Mr. Chafin could not be prevented.

The convention up to this time run smoothly and without the slightest friction. It was decided to make Mr. Palmore the vice presidential nomi nee, and he was nominated by acclamation. He declined to accept the office, however, and persisted in his attitude. The convention, finding itself confronted with the necessity of naming another vice presidential candidate and many of the delegates being anxious to catch the early night trains for their homes, became involved in a deep parliamentary tangle. The rules were several times suspended and the suspensions immediately revoked. Finally it was decided that Professor Aaron S. Watking of Ada, O., should be named by acclamation. There was no opposition to him at the moment, and Chairman Charles Scanlon was on the verge of declaring Professor Watkins the nominee, when delegates in various parts of the hall broke in with a flood of motions, counter motions, amendments and suspension of the rules. An extended dethe restoration of the rules, and a

Sinovi Petrovlitch Rojestvensky was about sixty years of age and for many years bore the reputation of being one of the most cool-headed and scientific naval officers in the Russian service.

During the late war between Russia and Japan, the latter country having scored great advantages on land Admiral Rojestvensky was ordered, early in August, 1904, to have his squadron in readiness to proceed from the Baltic around to Vladivostok. This proved to be one of the most remarkable voyages ever made and resulted in the annihilation of the Russian Baltic fleet. The start was made

from Libau, on Oct. 16 of that year, and passing around Denmark, the Russians encountered the British North sea fishing fleet off Dogger bank. The warships fired on the fishermen, mistaking them for torpedo boats, which led to a strained state of affairs between Great Britain and Russia that chief signal officer, and the board of at'one time threatened to result in ordnance and fortifications of the war hostilities between the two countries. LABOR BUREAU BULLETIN

Some Figures on Rates of Wages and Retail Prices of Food.

Wages per hour in 1907 were 3.7 per cent higher than in 1906, the regular hours of labor per week were 0.4 lower than in 1906, and the number of employes in the establishments investigated was 1 per cent greater than in 1896. These are some of the facts of interest in a statement issued

of an investigation of the principal wage working occupations in 4,169 estimates representing the principal manufacturing and mechanical trades et this country. The article is entitled "Rates of wages and retail prices of food, 1890 to 1997."

investigations covering the sales of 1.014 dealers in sixty-eight localities show that the retail prices of thirty principal articles of food, according to consumption in representative workingmen's families, were 4.2 per cent higher in 1907 than in 1906. As the advance in retail prices from 1906 to 1907 was greater than the advance in wages per hour, the purchasing power of an hour's wages, as measured by food, was slightly less in 1907 than in

1906, the decrease being one-half of 1 per cent. The average hourly wages in 1907

were higher than in any other year of the eighteen-year period from 1890 to 1907. The average price of food in 1907 was higher than in any other year in the eighteen-year period.

JUDGE TAFT LAUDS JURIES

Assists in Opening of Court and Dedication of Court House.

Judge W. H. Taft assisted in the open. ing of court and in the dedication of a court house at Germantown, Va., five miles from Hot Springs. Judge Taft accepted the invitation to be present at this ceremony on the ground that it was a neighborhood affair. The subject of his speech was the administration of justice by the courts. He was greeted by a large assemblage of sojourners at neighboring resorts and country folk, many of whom traveled far to see and hear the Republican candidate for the presidency. He was given a cordial welcome

The strength of the judiciary, he declared, was based on the fact that it Frank Johnson, a negro, was hanged rested on the principle that the people share in the responsibility for the work of the courts, in the form of Beulah Martin, at Gypsy, W. JACKIES PARADE AT HONOLULU

Greatest Military Pageant Ever Witnessed in Hawaiian Capital.

About 3,200 men of the Atlantic battleship fleet paraded at Honolulu, arousing enthusiastic cheers from the dense crowds which lined the way along which they passed. The line of march was along the principal streets of the city and every available post of vantage was occupied long before the parade began,

Before the march began, the men were drawn up in company front at the starting point and a committee of 100 Hawaiian ladies passed along the ranks placing about the neck of each white-clad "jackle" a tei, or chain of close packed blossoms, characteristic of the islands. It was a pretty ceremony, picturesque in the extreme, and officers and men joined in hearty appreciation of the efforts of the ladies. A formal reception to the officers of the fleet was tendered by the commander of the navaf station, Captain Reese and Mrs. Reese.

Governor Frear and Rear Admiral Sperry shared in the duty of receiving the many guests.

STRIKING MINERS IN BATTLE

Strikebreakers' Train Attacked and Sheriff's Deputy Fatally Shot.

Deputy Marshal Gardner was fatally wounded and at least a dozen miners were more or less seriously shot. as the result of an attack on a train bearing strike breakers to take the places of striking union miners at Jefferson, Ala. The train was in charge of thirteen deputies and was en route to Adamsville. It is said the union miners attempted to induce the strike breakers to leave the train and threatened to kill them if they went to work. Governor Comer has ordered a company of cavalry from Montgomery to the scene and troops are already on the ground, under arms, and will patrol the district, preventing further disorders.

Deputy Gardner, mortally wounded, was brought to Birmingham. Deputy George Smith, accompanying him, estimates that no less than 1,000 shots were fired on both sides in the attack at Jefferson.
