

The Man With A Millstone About His Neck

The millstone is lack of special training. It holds one man down to hard work and small wages while others, properly trained, go ahead. But every man and woman who is laboring under such a burden can easily rise to a better position and increased earnings and can find out how for the asking.

To find out how, simply write the I. C. S., stating the position you wish to gain. In return, an institution with 15 years of successful experience in training thousands of others for advancement will tell you how it can fit YOU for a better-paying position. No risk to run. No books to buy. Isn't such a chance for advancement worth this much to you?

The Hemingford base ball nine met the Crawford nine on the Marsland diamond Sunday afternoon, the former driving down, the latter coming over on 44. We hear that the game was a close one, Hemingford winning by a score of 6 to 5. All seemed to have a good time and the best of feeling prevailed. A large number of spectators were present, Whistle Creek coming down en masse to see Crawford get skinned and they did. SAYS SOCIALISTS ARE GAINING

Speaker at Bellevue Chautauqua Declares Wall Street is Real Thing.

Omaha, Aug. 3.—Dr. Frank Dixon of Washington, in an address before the Chautauqua assembly at Bellevue, declared that the Socialist element in the country was growing rapidly. He said that it only polled 80,000 votes ten years ago, but that it could poll 500,000 today. He declared before he began his lecture that he was not himself a Socialist, and then entered upon a discussion of what Socialism is and what its followers stood for. He said that in theory Wall Street was Socialistic, and that it really represented the true idea of Socialism in that it stood for monopoly. He said Socialism would paperize any man and that self-reliance was the supreme virtue. He said it would cost \$2,000,000,000 to build the Panama canal and take twenty years to do it. He declared twenty years more would be used by congress to investigate the graft and crookedness which was, he stated, inevitable in the completion of such an immense work through government supervision.

MODERN WOODMEN WITHDRAW

Drops Its Membership in National Fraternal Congress.

Lincoln, Neb., Aug. 1.—The Modern Woodmen of America has withdrawn its membership from the National Fraternal Congress, a federated organization with about fifty affiliated societies. This action has been contemplated by Head Consul A. R. Talbot and other officials of the Woodmen for several months, practically since the last session of the congress at Buffalo, in August, 1907, when by a close vote a resolution was carried which committed the affiliated societies to the policy of asking state legislatures to enact a law providing a minimum table of assessment rates, to be charged by all societies alike. Talbot opposed this resolution at the time and he was supported by nearly half of the societies in attendance.

Head Consul Talbot declares that the enactment of such a measure as is contemplated would require the collection of assessments at least 20 per cent higher than the death rate demands at this time.

Conference of County Chairmen.

Lincoln, Aug. 3.—Chairman Hayward of the Republican state central committee has issued a call and received favorable responses from every county chairman in the state for a conference of these chairmen to discuss and devise ways and means for carrying on the state campaign. He will meet the first delegation of these chairmen today in Lincoln. They come from counties adjacent to Lancaster. Following these conferences, most of which will be held during the present week, a hot fight will be at once inaugurated by Chairman Hayward all over the state.

Missouri Pacific Protests.

Lincoln, Aug. 1.—The Missouri Pacific railroad has filed a protest against the application of the Union Stock Yards company for permission to increase its switching charges. The railroad declares that the switching charges now in effect have been those of the past twelve years, which is prima facie evidence that they are compensatory. It is also pleaded that this is most too much of a hardship to impose upon a road after it has been compelled to reduce its passenger and some of its freight rates.

Nebraska Farmer Commits Suicide.

Fairbury, Neb., Aug. 3.—George Buchli, a wealthy and prominent farmer, aged sixty years, committed suicide by shooting himself through the head. Buchli lived near Powell and was well known in the rural districts. He owned a large farm, which was unincumbered, and his family relations are said to have been the best. The funeral occurred today.

Tel Jed Sokol Tournament Opens.

Omaha, Aug. 1.—A big Tel Jed Sokol tournament opened this morning in Turner's hall and will continue two days. Owing to the non-arrival of delegates who were expected from Seio, Ore., and Oklahoma and Kansas City, the tournament is purely a Nebraska affair. Sunday there will be a big parade, followed by an address by Mayor Dahlman and John Rosiecky.

Beatrice Opera House Leased.

Beatrice, Neb., July 31.—The Padlock opera house has been leased by Fulton & Powers, a local company, and will be reopened October 1, after being closed for nearly a year. It was one of the finest small city theaters in the state. It will be remodeled and modernized during the next two months.

Levies Occupation Tax.

Brainard, Neb., Aug. 1.—With \$2,000 in the village treasury, the board of trustees has levied an occupation tax against nearly every business man in the town. There is strong opposition among the men engaged in active business in Brainard to the tax and many say they will refuse to pay it.

Eight Poisoned at Banquet.

Beatrice, Neb., Aug. 4.—Eight members of the family of John B. Collier were poisoned while partaking of a banquet spread in honor of a family reunion. They were all critically ill for a time and only the quick work of physicians with emetics saved their lives.

THOUGHTS ON BUSINESS

BY

WALDO PONDRAY WARREN

DO MORE

THE man who makes the best progress is the man who does more than he is told. Some men think they have done their full duty when they perform certain routine work. They consider that they are being paid fifteen dollars a week for fifteen dollars' worth of work—and they measure out the correct amount with as much care as the grocer measures out rice, putting in and taking out a few grains until the scales balance.

But the progressive man goes about his work with the spirit of the athlete. The satisfaction of accomplishing a feat, and the knowledge that with each trial more skill is developed, form one of the best incentives to good work. The athlete does not confine his practice to a certain number of runs and jumps, but keeps at it until he has achieved some greater degree of skill than he ever had before. He delights in attempting harder and harder feats because it means more and more skill.

Thus does the truly progressive man love his work. He does not consider that he is working merely for his salary, nor for the house, but for himself—for the development of his individual capacity and skill. He delves into things not required of him, because he wants to gain power to do more—because that is the normal impetus of a progressive mind.
