

HASTINGS COLLEGE, HASTINGS, NEB.

FOUNDED IN 1882

LOCATION

Hastings is the fourth city of Nebraska, having a population of over 12,000, and is supplied with handsome public buildings, elegant residences, metropolitan stores, and beautiful churches. It is also an important railroad center, being located on the C. B. & Q., St. J. & G. I., C. & N. W. and M. P. railways. There are also three branch lines of the Burlington route, so that access is easy from any quarter.

FACULTY

It consists of twelve cultured men and women representing eight different universities and colleges. Post-graduate work at Harvard, Chicago, Princeton, Yale, Berlin and Heidelberg gives their teaching and scholarship unusual breadth and thoroughness.

DEPARTMENTS

1. THE COLLEGE, offering two courses for degrees, with many electives.
11. THE ACADEMY, offering high school training under college professors.
111. THE NORMAL SCHOOL, issuing teachers' certificates under state authority.
- 1V. THE CONSERVATORY OF MUSIC, with courses in voice, piano, pipe organ, violin and musical theory.

EQUIPMENT

There are four buildings: Ringland Hall, a men's dormitory and recitatory; McCormick Hall, the principal recitation building; Alexander Hall, a women's dormitory; Carnegie building, the library and scientific laboratories. Facilities for college and science work are unsurpassed and all buildings have steam heat and electric lights.

Next year begins Sept. 8, 1908. Handsome catalogue and illustrated souvenir free upon application to

Man's Work Is More Than Breadwinning.

By President KENYON L. BUTTERFIELD of the Massachusetts Agricultural College.

THE sharp distinction sometimes drawn between vocational studies and culture studies is already being modified. Some time it may be obliterated. Probably we shall have a NEW DEFINITION OF CULTURE. At any rate, vocation hereafter is to be glorified not only for what it contributes to national and individual prosperity, but for its educational possibilities.

VOCATION IS NOT MERELY TECHNIQUE. IT IS NOT MERELY BREADWINNING. AT ITS BEST IT IS A FORM OF SOCIAL SERVICE IN WHICH THE WHOLE MAN IS ENGAGED.

It relates itself to most of the individual demands for growth and even more vitally to the social demands of family and of state and of civil society. Hence we shall discover a way of making a vocational training also a liberal training. Agriculture is to be amply recognized in the schools. If agriculture, properly defined and taught, is efficient educational material, both city boy and country boy may PROFIT by it, the one because he will reach a knowledge of and a SYMPATHY with nature not easily secured in any other way, the other because he is utilizing his environment—physical, industrial and social—as a MEANS OF EDUCATION.

Electricity and Sun's Rays To Accomplish Work Of Coal In Future.

By GUGLIELMO MARCONI, Wireless Telegraph Inventor.

IN all ways science is more and more studying to perfect the practical comfort and well being of the world. Of course there will always be ships upon the sea. The mysterious primeval voice of the ocean will continue its spell over the human imagination.

BUT THERE WILL NOT ALWAYS BE STEAMSHIPS. THEY WILL PASS THE WAY OF THEIR PREDECESSORS, AND BEFORE LONG WE SHALL CROSS THE OCEAN IN SHIPS RUN BY ELECTRIC POWER.

There will be no coal smoke, no sickish odor of stale steam, no blazing caverns in the hold, where human beings with staring eyes and blackened faces sweat their lives away that the pulse of the engines may not stop.

THE STORAGE BATTERY WILL TAKE THE PLACE OF COAL AND FIRE AND WATER.

Instead of coaling the great ship will quietly and cleanly renew its batteries at its journey's end, and if coal is used it will be far from the linen and the noses of men.

In time coal will cease to be our only source of energy. In every land men of science are patiently studying the problem of utilizing the ENERGY OF THE SUN—storing it, in fact, so that the generation of electric force may be cheapened by its use to a point where the storage battery on a large scale will be an economic as well as an academic possibility.

The wasted energy in coal as now used may in the interval be brought to do its work and so bring about the monster storage battery sooner than we now expect.

BUT SOON OR LATER WE SHALL ENSLAVE THE SUN'S RAYS TO OUR USES AS WE HAVE THE OTHER PRODUCTS OF HIS BEING.

The Law Has No Strong Arm.

By President ELIOT of Harvard.

IN no other civilized country of the world is there such absence of effective police supervision as in the United States.

One must say that there is none in country districts and that in urban districts it is ordinarily ineffective. Even well known members of the CRIMINAL CLASS ARE UNDER NO EFFECTUAL CONTROL and by merely changing from time to time their field of operations often succeed in preying on the community for years.

THE LAW HAS NO STRONG ARM.

Watchful Parents Rear True Children.

By Mrs. JOHN A. LOGAN.

PARENTS should never relax their watchful care of their children from their birth to their majority, by which time such comradeship should have been established between parents and children that no temptation would be strong enough to win the children from their parents.

THEY SHOULD BE BOUND TOGETHER BY THE STRONGEST POSSIBLE TIES, INSEPARABLE IN ALL OF THEIR AIMS AND AMBITIONS OF LIFE.

This can be done if parents would look upon their children as the GREATEST BLESSING OF LIFE, the mother consecrating herself to her children in their infancy and the father supplementing the mother's vigilance as soon as their children are out of the nursery, both uniting their efforts to keep their children pure and undefiled by being left to the care of hired servants, tutors, governesses and teachers, who are RARELY WORTHY of the trusts that are constantly confided to them.

The mother who has no time from her "social duties," devotion to amusements and the frivolities of society to give to the homelier ones of caring for her children and training them for usefulness in life can blame no one but HERSELF if they go astray. Furthermore, a mother should make it her conscientious duty to try as far as in her lies to avoid the transmission of evil propensities or idiosyncrasies that are destined to afflict the offspring probably through life.

QUALITY WILL TELL

NOWHERE can quality be made to express care and skill more than in laundering. You can get clothes washed anywhere. But steam laundering means more than washed. It means, 1st—thorough cleansing with steam and harmless soap; 2d—finishing by good machinery and skilled labor. Plain clothes show the result as well as fancy articles. Won't you let us show you?
