While The State Journal has been one of the leading papers of the state for nearly forty years, yet its most rapid growth has been recently, during which time it has come to be recognized by many as Nebraska's greatest paper, making most of those things that interest Nebraskans most, in this way creating a place for itself in the daily life of thousands of Nebraska homes. The country press generally could be quoted as saying that the editorial page of The Journal is exceptionally strong and fearlessly independent. It is also unusually bright, Bixby himself being a gem. No writer in Nebraska ever had the warm admiration of so many people as Bixby. His column in The Journal is alone worth the price of the paper. His wholesome philosophy will put sunshine and cheer into the most chronic grouch. The state university, the state house and all the other public institutions at Lincoln make The Journal peculiarly a paper for state people. It is clean, excluding all liquor and impure medical advertising. Its sporting department is clever and there with the goods. More money is spent for state telegraphic news than by other state dailies. If you want to know what is happening in Nebraska, as well as the whole world, The Lincoln Journal is the paper for you. Why not give it a trial subscription?
