

TARIFF VOTE NEAR

Such is the Prediction of Senator Aldrich.

TAX ON INCOMES MAY CARRY.

Senators Cummins and Bailey Confident Compromise Amendment Will Carry—Hides, Coal and Petroleum Are Giving Finance Committee Much Concern—Question of Maximum and Minimum Rates.

Washington, June 14.—No set event of the present week may be anticipated with keener news roll than the vote which may be taken in the senate Friday on the income tax amendments to the tariff bill. Second only to the adoption or the rejection of this important tax feature of the pending legislation will be the interest in the alignment of senators, with the Republican regulars on the one hand, opposed by the Democrats and a doubtful number of "insurgent" Republicans. Senators Bailey and Cummins, representing respectively the Democrats and such Republicans as are determined upon an income tax, appear confident that their compromise amendment will be adopted.

Nearing Vote on Tariff Bill.
The feeling in all factions in the senate is that the tariff bill is approaching the last days of its consideration by the senate. Senator Aldrich's prediction that the end may be reached by next Saturday was received with favor by the Republicans, but the "progressive Republicans" are not quite so optimistic.

With the exception of one disputed point in the silk schedule, the senate has concluded its second consideration of the bill and disposed of all paragraphs of the schedules on which the committee had reported. Among the questions not acted upon in committee were many disputed points.

Rough lumber remains on the dutiable list, but the question of the amount of duty and the differential between the duty on rough lumber and on the manufactured article remains to be settled. In the paper schedule the principal items to be considered are the duty on ground wood and print paper.

Hides, Coal and Petroleum.
Hides, coal and petroleum are giving the finance committee no little concern, but the present indications are that the senate will place a duty on all of these. Zinc ore and zinc paint products are still to be considered, as are sulphate of ammonia and barytes. The outcome is uncertain.

There is a demand for a reduction and a reclassification of the window glass schedule, but any prediction as to what the result might be would be misleading. The same may be said of the contest between pig iron and scrap iron in the metal schedule. The southern senators are making an earnest effort to have cotton ties and cotton bagging made free of duty and the binding twine provision has been held up until the cotton tie question could be decided, probably on the theory that the northwestern senators could be prevailed upon to combine with the southern senators in the interest of the two articles together. The leather schedule is suspended, awaiting the decision on hides.

It is uncertain as to how much debate the finance committee's decision relating to maximum and minimum rates will provoke, but it is expected that it will be thoroughly elucidated before it finally receives approval.

FINDS HARVESTER TRUST

Kansas Commissioner in Ouster Case Holds Mergers Controls Prices.

Topeka, Kan., June 14.—State Senator H. W. Gauze, who was appointed by the supreme court as special commissioner to hear evidence in the case of the state to oust the International Harvester company from the state, filed his report. He reports that the harvester company is a trust. He holds that the effect of the harvester merger has been to regulate and control the retail and wholesale prices of harvesting machines in Kansas.

FIVE THOUSAND MASSACRED

Tribesmen Ravaging Northwestern Province of Persia.

St. Petersburg, June 14.—A dispatch to the Novoe Vremya from Astara says that the Shakhsevan tribesmen are ravaging the Ardabil district in Azerbaijan, the most northwesterly province of Persia. According to the dispatch 5,000 persons have been killed and the leading inhabitants have appealed to the Russian consul for protection.

New "Wireless" Hero.

New York, June 14.—S. Coles, wireless operator of the wrecked Cunard Slavonia is the "Jack Blinn" of the latest sea drama. It was the "C. Q. D." message of Coles, sent toward midnight Wednesday night, which was picked up by the Prinzess Irene, 180 miles seaward, and brought her to the rescue of the passengers aboard the Slavonia. Coles is an Englishman.

Bolt Causes Panic in Church.

Green Bay, Wis., June 14.—Lightning struck the steeple of Holy Cross Catholic church at Bay Settlement, north of here, killed one man, shocked and injured sixteen others, two of whom may not survive, while mass was being sung. Panic prevailed for several minutes following the crash.

MUTINY IN PHILIPPINES

Company of Visayan Constabulary Revolts and Flees to Mountains.
Manila, June 14.—Brigadier General Harry H. Bandholtz, chief of the Philippine constabulary, who is at present on a tour of inspection in the island of Jolo, will at once proceed to Davao, Misamis Island, the scene of the mutiny of the second company constabulary. Brigadier General Bandholtz will assume personal command of the constabulary forces sent in pursuit of the mutineers. The insular government is determined to make an example of the mutinous Visayans, who fled to the mountain fastnesses in the interior with their rifles and equipments, and the pursuit will be pressed with the utmost vigor until the last of the mutineers has been captured. Several columns of troops, both regular and constabulary, are already in the field.

Acting Governor General Forbes, who returned from the province of Pampanga, and soon was in conference with Major General Duvall, commanding the division of the Philippines, said: "This affair, deplorable as it seems to have been, has not changed my opinion of the native constabulary nor my belief in the general excellency and loyalty of the force. Judgment must be reserved until we receive further details of the mutiny and the causes that brought it about."

No additional details of the mutiny and of the three hours' fight made by Governor Walker and the Americans in the church at Davao have been received here. There are no indications of any extensive military plans aside from the ordering of several detachments to follow the mutineers.

SUBMARINE CREW IS DEAD

No Hope of Saving Men Imprisoned in Sunken Russian Boat.

Sebastopol, June 14.—All hope is gone of saving the lives of the crew of the Russian submarine Kambala, which was sunk in collision with the battleship Rostislav during the maneuvers Friday night, or of recovering the wreck, owing to the great depth of the water. Two divers have died in the attempts to rescue the men on account of the immense pressure. Others have repeatedly and heroically tried to pass chains around the wreck, but finally came to the surface utterly exhausted, having accomplished nothing. All operations were abandoned.

The chances of saving the lives of the imprisoned men were recognized from the first as very remote, although under normal conditions the submarines have an air capacity of three days. The Kambala type of submarine, however, is weak structurally and for this reason cannot normally make a descent of more than 100 feet. The Kambala went down in 150 feet of water, and only untrustworthy bulkheads stood between the men and death after the boat was struck by the Rostislav's ram.

The disaster occurred five miles from Sebastopol. Four men were saved, including the commander, Lieutenant Aquilonoff, who was giving orders through the speaking tube to the helmsmen just before the collision. These orders, he says, was misinterpreted, the helm being put to port instead of starboard.

JAP STRIKERS HELD FOR TRIAL

Fifteen Leaders Indicted for Inciting Trouble in Hawaii.

Honolulu, June 14.—Fifteen of the Japanese strike leaders arrested here were given a preliminary hearing. District Judge W. L. Whitney held twelve of them for trial on charges of conspiring to riot and three for conspiracy to murder.

When the territorial district court convened in extraordinary session for the preliminary examination of the strike leaders, Sheriff Jarrett, with the approval of Judge A. J. Robinson, ordered that no crowds be allowed to assemble about the court house during the hearing, on the ground that it was likely to lead to disorder. This order was rigidly enforced by a large detail of police.

Following the action of the court, William P. Henry, high sheriff, united with County Sheriff Jarrett in the issuance of a proclamation forbidding the assembling of large crowds anywhere in the territory while present conditions obtain. With thousands of idle Japanese, excited over the arrest and trial of their countrymen, the authorities deemed the order wise.

The authorities declare the evidence adduced before the grand jury and the papers secured in the Japanese higher wage association raid, furnish abundant grounds for the belief that the strikers intended from the beginning to resort to intimidation and violence in their effort to control the sugar industry and eventually the internal affairs of the territory.

Eleven Dead in Texas Storm.

Dallas, Tex., June 12.—Eleven persons are dead and several injured as a result of the storm in central Texas, including one man who was killed when a windstorm blew a Kansas City, Mexico and Orient railway passenger train from the Brazos river bridge north of Sweetwater.

Convicted of Murder.

Toledo, June 12.—Michael Sobleski, a tailor, who was charged with the murder of Ludwig and Augusta Kraeger, was convicted of murder in the first degree, with a recommendation of mercy. The penalty is life imprisonment.

Two Negroes Lynched.

Branchville, S. C., June 12.—Two negro prisoners, charged with murder, were taken from Constable Maxey and lynched by a mob of white men at Smokes.

FEUD FATAL TO 4

Troops Sent to Preserve Order at Meadville, Miss.

SEVERAL PERSONS WOUNDED.

Fierce Encounter, During Which the Lives of Many Bystanders Are Jeopardized, Follows Acquittal of Doctor on Murder Charge—Chancery Clerk of Franklin County, and His Son, Are Among the Victims.

Meadville, Miss., June 15.—Two men are dead, two were perhaps fatally wounded and three others slightly injured, due to a bloody street battle, waged by parties to a bitter feud that had been previously marked with tragedy. As a result of the affair feelings here runs high and state troops were rushed to Meadville from Brookhaven to guard against possible rioting.

Those killed were: Dr. A. M. Newman, clerk of the chancery court of Franklin county, and Silas G. Reynolds.

Dr. Lenox Newman, a son of one of the slain men, is believed to have been fatally injured, and Applewhite, an attorney, may not recover. Two men, named Boyd and Parr, alleged to have been involved in the affray, were slightly wounded, but escaped. L. P. Prichard, a brother of Cornelius Prichard, whom Dr. Newman killed several weeks ago, was arrested and charged with complicity in the tragedy.

The trouble had its inception in a political campaign in which Newman and Prichard were opposing candidates. Newman was tried a few weeks ago for Prichard's murder and acquitted.

SLAVONIA A TOTAL WRECK

Passengers Taken to Gibraltar by the Prinzess Irene.

Gibraltar, June 15.—The steamer Prinzess Irene, with the first class passengers of the wrecked Cunard liner Slavonia on board, came into Gibraltar.

The Cunard company has made arrangements for the accommodation of the saloon passengers of the Slavonia at the principal hotels here in the event that it is not feasible for the Prinzess Irene to convey them to Naples.

The Slavonia went ashore the night of June 9 on Flores island, one of the Azores group. Help was summoned by wireless telegraphy and Thursday night the first class passengers were transferred to the Prinzess Irene, that had hastened to Flores island in answer to the "C. Q. D." call of distress. The Slavonia became a total wreck and the crew landed on Flores island.

RIFLES FOUND IN PIANO BOXES

Shipment of Guns Seized at Franklin, Va., for Use of Venezuelan Rebels.

Norfolk, Va., June 15.—Packed in piano boxes and evidently ready for shipment, a quantity of rifles and ammunition, believed to be destined for Venezuelan revolutionists, was discovered at Franklin, Va.

The rifles are said to be a part of a consignment of 15,000 Mauser guns shipped from New York to St. Louis and back to Franklin, billed as pianos and packed to weather the trip to South America. The filibuster suspect steamer Nanticoke was lying near Franklin, and in the back water below the steamer was her consort, the tug Dispatch.

The revenue cutter Pamlico is blockading the two suspects and it is not believed that either could pass her even in the darkness.

PRESIDENT OF BRAZIL IS DEAD

Dr. A. M. Penna Succumbs to Attack of Influenza.

Rio Janeiro, June 15.—Dr. Alfonso Moreira Penna, president of Brazil, died here. He was stricken with influenza on June 2 and, although quite seriously ill for a time, improvement was noted on June 6, which continued until Saturday. The president then suffered from a relapse and there were marked pulmonary and gastric symptoms. The physicians succeeded in prolonging life for some time, but the president passed away after being unconscious for a considerable time. The vice president assumed the executive powers in the presence of the ministers, senators and deputies and representatives of the foreign powers.

GREAT CHURCH CONVENTION

Twenty-five Millions Represented at Presbyterian Alliance Meeting.

New York, June 15.—One of the most important religious gatherings of recent years in number of persons represented is that of the world's Presbyterian alliance, which began in this city today. In it are represented five continents, ninety separate denominations and nearly 25,000,000 members. The meeting is known officially as the ninth quinquennial council of the Alliance of the Reformed Churches Throughout the World Holding the Presbyterian System. To facilitate matters the alliance is generally referred to as the Pan-Presbyterian alliance.

Leper Escapes From Hospital.

Los Angeles, Cal., June 15.—Adelado Aquilo, a leper patient at the county hospital, escaped from the hospital by means of a rope made of twisted bed sheets. He has not been found.
