It is sad news to learn of the death, caused by accident, of E. A. Raymond,

who recently visited in Alliance at the home of his son, Harry Raymond. Mr. Raymond fell from a street car at Waterloo, Iowa, from which he sustained injuries that caused his death. He was an estimable gentleman and all who have met him will regret to learn of his demise.

An item of interest that we unintentionally omitted last week was the visit to Alliance of Mrs. Sears of Hyannis, who came here to purchase a musical instrument for the opera house of which she is proprietor. After investigating the merits of the Automatic piano she purchased one of Mrs. J. T. Wiker, saleslady for the Bennett company.

W. C. English returned the fore part of the week from his Omaha trip, but was not permitted to remain at home long, being summoned to Chadron by information by wire that the Bennett company salesman at that place had accidentally broken a leg, and consequently some one else was needed to take charge of the Chadron branch store until his recovery.

Uncle Robert Graham came down yesterday from his farm five miles east of Hemingford, and favored The Herald office with a call while in Alliance. He reports plenty of rain in his neighborhood lately and crops looking well. Last week The Herald announced the purchase by Ferris Bros. of Mike Vaughn's interest in the business of Ferris & Vaughn. This week we have another announcement. Vaughn has bought out Ferris Bros. and will conduct the grocery and fresh fruit business at the stand formerly occupied by S. B. Libby. The Omaha All-Stars looked to the Alliance boys just like other ball players from abroad. The O. A. S. had won about all the games they had played on a several hundred mile trip until they met the Alliance team, when they found they were up against a proposition too hard for them. The score Tuesday was 11 to 3, and Wednesday 4 to 1, both in favor of Alliance. They will try it again at the ball park this afternoon.

The exposition at Seattle is visited by thousands each day, says Mr. Carey.

Box Butte county has organized a county fair this fall for week following the Scotts Bluff county fair. The first dates given out were the same as ours, but upon the matter being called to their attention they advised the secretary of the fair here that they had changed to Sept. 28-29-30. The Alliance people have come in liberally with funds, and while the whole work will have to be organized this year, there is no reason to doubt there will be a good fair arranged and that it will be well worth the while of the river people to go over and attend.—Comier, Gering.

E. Mead Wilcox, agricultural botanist of the experiment station of the University of Nebraska, is desirous of obtaining specimen plants from this section infected with disease of any kind. He has appointed J. E. Keabaugh as collector for this section and has supplied him with a quantity of franks for the purpose of sending in specimens. Every farmer should be interested in ridding this section from plant disease. So whatever you have that shows signs of disease, whether potatoes or any other crop, bring in a sample and it will be sent to Prof. Wilcox.—Mitchell Index.

John Pederson, the cement worker, whose advertisement has been running in The Herald for some time past, informs us that he has purchased lots on north Toluca avenue. As soon as he completes the street crossings which he has contracted to construct, he will begin work on a substantial dwelling house, which will be frame, resting on a somewhat elevated foundation of cement blocks and having a cement basement. This feature of the house would, in our opinion, add much to the comfort and convenience of residences generally if adopted. Mr. Pederson informs us that he has already put in twenty-five crossings in Alliance this year and is now only about half done. These crossings will certainly be appreciated by the people of the city.

Pianos and sewing machines at a great sacrifice. Prices cut in two for the next thirty days. Cash or easy payments.—T. J. Threlkeld.

IN SUMMER DON'T—

DON'T fail to take a bath every morning. If you can't manage a full bath, take a sponge bath.

DON'T wear the same stockings two days running nor the same shoes if you can afford to keep several pairs on hand.

DON'T wear shoes that are too small for you.

DON'T drink iced water or you may have an attack of acute indigestion.

DON'T eat meat more than once a day and then as little as possible. Bread and milk or bread and fruit are enough for the midday meal in very hot weather.

DON'T wear a high, tight collar. Leave the blood vessels of the neck free.

DON'T wear stiff, starched clothing. You will find the soft garments much more comfortable.

DON'T drink whisky or other alcoholic drinks. They are poison on a hot day and breeders of sunstroke.

Of all these don'ts the two most important to be observed are those regarding alcoholic drinks and tight clothing. The others are for comfort; THESE ARE FOR SAFETY.
