Quick Meal Gasoline Stoves

Make Happy Homes

The above is the "Quick Meal" Trade Mark. If you want to see the little "Quick Meal" chick get a quick meal, put it close to your eyes and your nose on the cross (+). Look at it that way steadily for a minute and you will see the chick make a "Quick Meal" of the bug. People who use a "Quick Meal" know how to cook a meal quick and eat it in comfort. "Quick Meal" Stoves look well, cook well, bake well and last well. They could not be made better at any price. Their immense sale is due to their merits—to nothing else.

Over 300 Stoves
to Choose from
Prices, \$2.75 to \$32

A Quick Meal Stove will do any and all work that can be done on a range or cook stove. Only it does it QUICKER, CHEAPER and in a more agreeable way

Newberry's Hardware Co.

320 Acre Free Homestead

WYOMING, COLORADO AND MONTANA.—The Mondell Homestead law makes provisions for 320-acre homesteads in certain localities, instead of the usual 160 acre tracts. The requirements of the law are practically the same regarding residence, improvements and cultivation. These lands are going fast; if you want a homestead close to the railroad, you should act now.

CROPS AND RAINFALL.—Visitors to the Omaha Corn Show will remember the magnificent display of farm products from Weston County, Wyoming, grown on exactly the same kind of land that can now be taken in 320 acre homesteads. The Mondell Act includes lands that receive from 16 to 21 inches of rainfall annually and you only need to see the crops grown by the farmers already located there, to be convinced. These homesteads can be taken along the Burlington's new line now building in Wyoming.

I personally conduct excursions the first and third Tuesdays of each month to these lands; send this ad to your friends back east and have them write me.

HARRIMAN WORSE

Magnate's Condition Again Believed to Be Serious.

DOCTORS HOPE FOR THE BEST.

Issue Brief Bulletin Saying Patient Had Sharp Attack of Indigestion, but is Now Resting Comfortably. Trained Nurse is Hastily Summoned and Lawn Picnic Arranged by His Daughters is Postponed.

Arden, N. Y., Sept. 7.—E. H. Harriman is not as well as he was a week ago, on the day that his personal reassurance led the newspapers of the country to abandon the watch maintained for four anxious days about the home at Tower Hill. Dr. W. G. Lyle, Mr. Harriman's personal physician, during the night gave out a brief bulletin from Arden house on his patient's condition. The bulletin follows:

"Mr. Harriman has suffered a relapse. He had a sharp attack of indigestion on Sunday, but rested comfortably today. We hope for the best."

Dr. Lyle appeared anxious that Mr. Harriman's condition should not be exaggerated. "Mr. Harriman is a sick man, but we hope for the best," he repeated when pressed for a further statement. The physician was besieged with telephone inquiries, following a day of rumors, which had apparently started in New York and had disturbed Wall street throughout the latter part of the market day. Two incidents at Arden seemed to indicate that Mr. Harriman's condition is again believed to be serious. A trained nurse was hastily summoned from St. Luke's hospital. A second incident was the sudden postponement of a lawn picnic arranged by Mr. Harriman's daughters for the children of the Episcopal church here.

WORK OF TRAIN WRECKERS

Four Persons Killed and Thirty-five Hurt When Flyer is Derailed.

Pittsburg, Sept. 4.—Four persons were killed and thirty-five others injured, several perhaps fatally, early this morning, when the Royal Blue limited on the Baltimore and Ohio, running between New York and Chicago, was wrecked at Chewton, Pa. The train ran into a broken rail, supposed to have been caused by wreckers, and the engine, two coaches and two Pullmans were thrown from the track. The cars immediately took fire. The engineer and fireman were instantly killed. Two passengers died on the way to the hospital.

The railroad officials claim the wreck was caused by train wreckers, who removed two fishplates.

NO HOMESTEAD BY PROXY

Decision in Dakota Case Will Take Flight Away From Sioux City Man.

Rapid City, S. D., Sept. 4.—Acting Commissioner Proudfoot of the general land office has handed down a decision in a case sent up from the Rapid City land office, refusing to accept the proof to a claim filed upon by a Sioux City man. The decision establishes, in brief, that a man's wife cannot establish residence on a claim. It was brought out in the testimony that his wife had made the claim her continuous residence since Aug. 7, 1907, but that the husband had been absent two or three months at a time and on one occasion six months.

HIGH OBSERVATORY READY

It is Now Completed on Mount Whitney in California.

Washington, Sept. 5.—The scientists soon will have placed at their disposal the highest meteorological and astronomical observatory on the American continent.

It is situated on the top of Mount Whitney, California, and 4,000 feet above the sea level. Realizing the value for effective and progressive astronomical and meteorological study of an observatory far above the clouds and free from dust and smoke near great cities, the Smithsonian Institution decided to build a suitable laboratory on Mount Whitney.

GIRL'S TORSO FOUND IN BAG

Evidence of Terrible Crime is Brought to Light at Detroit.

Detroit, Sept. 7.—Tied in a bag the torso of a young girl was discovered in Ecorse sreek at Ecorse, a down the river suburb of this city. The head, arms and legs were not to be found, and it was impossible to identify the body.

SPERRY ON RETIRED LIST

Admiral Who Took Fleet Around World Reaches Age Limit.

Washington, Sept. 4.—Having reached the age of sixty-two years, Rear Admiral C. S. Sperry was placed on the retired list of the navy.

New Yorker Beats Mt. Blanc Record. Geneva, Switzerland, Sept. 7.—Walter S. Bond of New York has climbed Mt. Blanc in nine hours. He thus breaks the record of nine hours and a half, made by Morehead, an Englishman, in 1865.

Bubonic Plague at Amoy.

Amoy, China, Sept. 7.—During the past fortnight there were ninety-four bubonic and thirty-five cholera deaths in the city of Amoy, according to an official announcement.

GIRL SWIMS NINE MILES

Follows Men in Endurance Test Through Waters of Hell Gate.

New York, Sept. 6.—Adeline Trapp, twenty years old, swam nine miles through the treacherous waters of Hell Gate, from the foot of East Eighty-ninth street to Glasson Point, L. I. Accompanied by Priscilla Higgins, a girl of about her own age, Miss Trapp swam in the wake of forty sturdy swimmers of the United States volunteer lifesaving corps, who were holding their annual endurance test.

Fifteen of the men swimmers were forced to give up before the finish and Miss Higgins, after going most of the distance, was seized with cramps and picked up exhausted. Miss Trapp was in better condition than most of the men at the end of the long swim.

COAL AND IRON SHOW GAINS

Decrease in Shipments of Grain, Flour and Live Stock.

Washington, Sept. 6.—Increased industrial activity in the United States is shown by the figures shown by the statement of the bureau of statistics of the department of commerce and labor. The shipments of soft coal, coke, ore and iron products show marked gains over July in 1908 and 1907. On the other hand, grain and flour, live stock and meats and anthracite coal were not shipped to as great an extent as in the two previous years.

ENDURANCE RUN FOR CRUISERS

Eight Ships of Pacific Fleet Sail for Asiatic Waters.

San Francisco, Sept. 5.—The eight armored cruisers of the United States Pacific fleet weighed anchor at 2 o'clock and steamed slowly from the Golden Gate on a long cruise for Asiatic waters.

The fleet will go direct to Honolulu and thence to the Orient, where it will be joined by the Asiatic squadron. The enlarged fleet will then engage in battle practice in Philippine waters.

ALLAN LINE SHIP ASHORE

Passengers of Steamer Laurentian Are Safely Landed.

St. John, N. F., Sept. 7.—The Aldrich steamer Laurentian, Boston for Glasgow, ran ashore near Cape Race at daylight during a dense fog. The No. 2 and No. 3 holds are full of water and it is feared that she will be a total wreck. The passengers, numbering about sixty, were safely landed.

The Laurentian belongs to the Allan Line Steamship company of Glasgow and ran regularly between Boston and Glasgow.

HURRICANE SEASON AT HAND

Government Issues Instructions to Captains of Vessels.

Washington, Sept. 6.—With the arrival of the season of cyclonic storms and West Indian hurricanes on the Atlantic and the Gulf of Mexico, which in previous years have been so destructive to property at various points on those coasts and are the terror of navigation in those seas and delay to gulf trade, the department has issued instructions to skippers as to handling vessels in storms.

SHIP'S CREW MASSACRED

French Vessel Stranded on Hebrides Island Attacked by Natives.

Sydney, N. S. W., Sept. 7.—The captain and crew of the French schooner Qualite, engaged in recruiting laborers, have been murdered by natives of the Mallicollo islands, in the New Hebrides. The vessel was driven ashore by a storm and while stranded she was attacked. In spite of the stubborn defense all of the crew was massacred. A British warship is investigating the occurrence.

PAULHAN IN FLIGHT

Aviation Meeting Opens in Belgium With Unfavorable Wind.

Tournai, Belgium, Sept. 6.—The aviation meeting here opened with an immense crowd in attendance and there is every prospect of the meet being a brilliant success. The program of events includes the speed, height and duration competitions. The wind was unfavorable for flying, but Paulhan made several fine flights, in one of which he took up his wife.

LIVE STOCK MARKETS.

Best Cattle Steady, Others Ten Cents Lower at Chicago.

Chicago, Sept. 6.—Cattle—Receipts, 26,000; best steady, others 10c lower; heaves, \$4.15@8.00; Texas steers, \$4.15@5.30; western steers, \$4.25@6.40; stockers and feeders, \$3.25@5.10; cows and heifers, \$2.25@6.30; calves, \$6.25@8.75. Sheep—Receipts, 12,000; 10c higher; yearlings, \$5.00@5.40; wethers, \$4.00@4.75; ewes, \$3.50@4.40; lambs, \$6.00@7.25.

CENSUS OF FARMS

Farmers Asked to Keep Written Record of Operations.

MUST TAKE AN INVENTORY.

Questions About Farm Operations Will Relate to Present Calendar Year, but Inquiries Regarding Equipment Are Directed Toward Possessions of This Kind on Date of Enumeration, April 15, 1910.

Washington, Sept. 6.—Farm economists and scientists learned in agricultural problems, appointed as expert special agents for a brief term, are now in Washington assisting Census Director Durand and his staff in the formulation of the agricultural schedule of the thirteenth census so that the questions to be asked by the census enumerators shall be easily comprehended by the farmers of the country and so draw out the information ordered by congress to be ascertained. At the same time these practical steps are being taken by the census bureau, the farmers themselves will be called upon to help push the statistical plow over the country-wide field of farm data. It will be suggested by Director Durand to the farmers that the work of securing accurate returns at the coming census of agriculture, which will be taken April 15, 1910, at the same time as the count of population, will be greatly facilitated if the farmers will keep or provide some sort of written record of their farm operations during 1909.

In order that the farmers may begin at once, Director Durand indicates as follows what operations are to be recorded:

"Each person in charge of a farm will be asked to state the acreage and value of his farm; also the area of land in his farm covered with woodland; and, finally, that which is utilized for specified farm purposes.

"Each farmer will be asked to give the acreage, quantity produced and value of each crop, including grains, hay, vegetables, fruits, tobacco, etc., raised on the farm in 1909.

"Each farmer will be asked to report the number and value of all domestic animals, poultry and swarms of bees on the farm on April 15, 1910; also the number and value of young animals, such as calves, colts, lambs, pigs, and of young fowls, such as chickens, turkeys, ducks, etc., raised in 1909. He will be further asked to state the number and kind of animals sold during 1909 and the receipts from such sales, the number purchased and the amount paid therefor; and also the number slaughtered for food and the value of such animals.

"The law requires a report of the number of cows kept for dairy purposes in 1909, and the total estimated amount of milk produced on the farm; also the amount of butter and cheese sold and the amount received from such sales.

"In addition to the inquiry regarding animals on the farm April 15, 1910, the census will seek to ascertain the quantity and value of all eggs, honey and wax produced on the farm in 1909.

"Of the expenditures of the farm, the census schedule will call for a statement of the amount paid farm labor; the amount paid for feed for live stock; and the amount expended for fertilizers.

"If the farm changes owners or tenants between the crop year, 1909, and the date of enumeration, it is requested that the occupant of the farm in 1910 shall secure the above information relating to the farm for the year, 1909. The owner or tenant this year shall leave his book record with his successor."

SHOW PICTURES FOR FARMERS

Experts to Exhibit Agriculture Tests on Films at St. Paul Fair.

Washington, Sept. 4.—A moving picture show, designed to teach farmers and the public generally practical lessons in agriculture, will be given at the Minnesota state fair next week. Professor Willet M. Hays, assistant secretary of agriculture, and three experts in that department left for St. Paul.

If the experiment at the Minnesota fair is a success the department of agriculture will extend this plan in exhibiting to farmers and to the public tests that the government now has under way. The pictures to be shown at St. Paul will be illustrative of good road making, butter making and plant breeding.

Soils Not Wearing Out.

Washington, Sept. 6.—Soils of the United States are not wearing out and the crop yields are rather increasing than decreasing. These facts are demonstrated in a bulletin shortly to be issued by the bureau of soils of the agricultural department, prepared by Professor Milton Whitney, chief of the bureau.

Advance in Price of Coal.

Pittsburg, Sept. 4.—According to reports here, all the large coal companies in the Pittsburg district will now announce a raise of 10 per cent a ton in the price of coal.

Fire Destroys Kentucky Village.

Shelbyville, Ky., Sept. 4.—Fire destroyed a large portion of the business section of this city. Loss, \$100,000.
