Services in Demand.

There are few men who are as much in demand for farmers' institutes, live stock exhibits, county and state fairs, etc., as Prof. E. W. Hunt. Before coming to Alliance last spring for his agricultural experimentation work in Box Butte county this year he had a very flattering offer for Chautauqua lectures which he declined to accept, owing to his interest in the development of agriculture here. Now that he can spare a part of his time from the work here for the present, he has accepted a few of the many calls which he has received from various counties throughout the state.

On Tuesday of this week he went to Gordon to deliver an address at the Sheridan county fair and to judge stock on Wednesday and Thursday. Tomorrow and Saturday he will be at the Dawes county fair at Chadron for the same purpose, returning to Alliance next Sunday.

He has received from State Senator Wiltse of Randolph an urgent request to attend a corn show at that place and make an agricultural address. In fact, so urgent is the request that the promoters of the show offer to set the date for the same to suit Prof. Hunt's convenience in order to have him present.

He declined requests to attend and make addresses at farmers' institutes at Hastings, Axtell, Holdrege and Holdbrook on account of the time of the same being during potato harvest when he wished to be in Box Butte county. He has reconsidered the matter, however, and may attend one of these institutes.

Grain and Vegetable Specimens.

A number of The Herald readers have favored us with specimens of this year's crops, which adorn our walls. These are very much appreciated, not only for the satisfaction there is in

having daily before our eyes evidences of the agricultural development of this country in which we believe so strongly; but, as we have frequent calls from persons who do not reside in this county, we are pleased to show them something of what is already being done in farming here.

Our friend George Douglas has brought us in during the summer a number of specimens of grain and tame grasses from "East Side Alfalfa Farm" that would be a credit to an older farming country. On Tuesday of this week L. E. Stouffer, whose farm is seventeen miles west of the city, showed us an ear of corn more than a foot long, taken the first of the week from a field which was planted June 24th. He also showed us some fine potatoes, and left a couple of them which we have added to our office collection.

Hospital Notes.

Little Roy Ballinger of Bingham, who has been with us about three weeks, expects to leave Saturday for home.

Mrs. Cherry from Mitchell, will probably be able to return home the last of the week.

Mrs. Whetstone from near Lakeside, who was brought to us last Saturday suffering from both ankles being fractured, caused by jumping from a buggy during a runaway, is as comfortable as could be expected.

For a few days last week as many as twelve patients were being cared for. If this should continue we would find it necessary to enlarge our force of assistants.

Miss Bertha Hunt of Crete stopped in Alliance on her way home from Seattle, for a short visit at the home of her sister, Mrs. H. E. Bennett. Mrs. Bennett accompanied Miss Hunt on the balance of her homeward journey, and will spend a few days visiting friends in the city on the Blue.

Mrs. Phillips of West Lawn is visiting her daughter, Mrs. Howard Short, of Slater, Mo. She writes home that Mr. Short, who was formerly a brakeman here, wishes he were back to Alliance.

Harry Kelly of Crawford passed through Alliance last Sunday on his way home from a visit to Lincoln, where he went to see the state fair and

some one else. We have heard it strongly hinted that his visits to the capital city will soon be less frequent.

The business of the Bennett Piano company's store is not confined to this city and county. One sale that was made last week to a party at a distance was a piano to Rev. Cecil Phillips of Minatare.

Misses Anna and Emma Nerud have returned to their school work at Alliance and Hemingford; they each having the same schools and teaching the same grades as last year.—Minatare Free Press.

Miss Baker, of the clerical force at the Newberry hardware store, is still away on her western trip. She writes from Seattle that that is the nicest city she has seen since leaving Alliance, from which we infer that she does not consider it a nicer place than her home town.

Isadore Reichstein, foreman of Brennan's ranch at Orlando, was in Alliance last Saturday to receive medical treatment for blood poisoning in one of his hands, which started from a slight scratch. He, in company with one of his men, Willard Golden, called at The Herald office and informed us that hay, which is the principal crop in that section of the country, is unusually heavy this year and of good quality.

W. B. Young who has the contract for erecting M. O. Joder's new residence on north Big Horn avenue, has commenced work on the same, which is to be bungalow style, seven rooms, and modern throughout. When completed it will be one of the prettiest and most convenient and comfortable houses in the city, and being well located will be a most desirable residence. The contract calls for its completion by November 15.

Assistant Postmaster McFarland requests us to advise the people to lock

their post office boxes. Fully eighty per cent. of persons having boxes leave them unlocked, thus inviting the unscrupulous to tamper with their mail.

Wisdom For Hot Weather.

As a man thinketh, so is he heated.
Constant fuming wears away the chill.
Take plenty of fresh air and suit water.
Fanning drives away the heat and brings more to the fanner.
Some folks get all heated up working so hard to keep cool.
Don't run to catch a street car.
The next one will be cooler.
