We know what you think if your shoes hurt. No matter how you think, nor what you think, you'll think better and pleasanter thoughts if your shoes feel right.

RAILWAY NOTES AND PERSONALS.

H. Leachel is a new employe in the engine service.

Fireman C. B. Willey is suffering from a severely sprained shoulder.

Supt. J. C. Birdsall, Mrs. Birdsall and Miss Arleine came in on No. 44 Saturday afternoon.

Fireman James Hiller is suffering from a severe burn and will be unable to work for some time.

Fireman Martin is suffering from a severely sprained shoulder. He will be on the relief for some time.

Brakeman Richardson is another who is now wearing a conductor's badge and so far has been very successful.

Fireman C. W. DeWall has taken a ten days' lay off to go to Council Bluffs and move his family to Alliance.

Brakeman E. A. Talbot has resigned from the service and left town without paying either board or room rent.

Mr. Robert Monfort until recently a clerk in the Alliance Grocery, is now holding a position in the C. B. & Q. storehouse.

Special Agent E. J. Wilson was a passenger on No. 43 Tuesday. He had business in Edgemont and other points east.

Conductor Walters, formerly of the highline, returned to that division. Conductor Brindley took his place here on the main line.

Owing to a landslide on the Great Northern both Nos. 42 and 44 were from six to ten hours late all the latter part of last week.

Charley Anspaugh, who is well remembered among the railroad men, is again in the service. Formerly he was a brakeman now he is shoveling coal with hopes of being an engineer before long.

Brakeman Hirzenbottle was promoted to the rank of Conductor on November 26. Brakeman Hirzenbottle's record as a brakeman was such that there is no doubt of his record as a conductor.

Burt Hutchison, formerly yardmaster here, now a prosperous ranchman near Angola, was in Alliance Nov. 27 and 28. Mr. Hutchison tells us that himself and wife are very well pleased with ranch life.

Basil Van Court, who for the past two years has been a clerk in the freight house here, sends regards to all his friends from Ogden. He has a good clerical position there and expects to make that city his permanent home.

Something a little unusual occurred Saturday morning. Engineer Sam Burchell was called for an extra west and his brother Tom Burchell was called to fire for him. Needless to add that they made a fine run to Edgemont.

Fred Campbell, who has been acting as yardmaster in Edgemont, has been transferred to Alliance and will be a freight conductor. His family are visiting in the east but will come here as soon as Mr. Campbell can secure a house.

Robert Evans, one of the worthy brakemen, was presented with a new badge marked Conductor and a brand-new punch on Nov. 27. We heard, but cannot vouch for the story, that Bob ruined a new Stet-

son hat practicing with that new punch. Conductor Evans took his first train out Sunday morning. Success to you, Bob.

Mr. and Mrs. Clarence Crisman and son Ralph are visiting friends and relatives in Alliance. Clarence spent several years here as brakeman and conductor. He is now extra conductor for the M. P., running between Auburn and Omaha, with his home in Auburn.

Effective at 11 a. m. on Nov. 27, Conductor C. D. Reed is promoted to Assistant Trainmaster. Charley has worked up from the ranks on the Alliance division, first brakeman for only eighteen months, then conductor and now assistant trainmaster. He has hosts of friends among the railroad men here who are pleased over his well deserved promotion.

Conductor J. S. Ward had a narrow escape Sunday morning. While pulling out of the west switch on No. 45 his train broke in two, then ran together again. Jack was standing in the way-car and was knocked down, striking his head on the stove and rendered unconscious for some time. He was brought back to town and is rapidly recovering. Conductor Burright was called and took the train out.

On Friday morning two D4 engines that were pulling freight No. 203 went on the ground right in the mouth of No. 3 tunnel between Mystic and Rockford, effectively blocking the mouth of the tunnel and piling up ten freight cars behind them. The wrecker from Alliance in charge of Supt. J. C. Birdsall and Conductor Edd Brindley arrived in a few hours. The wrecker picked up one car after another and dropped them into the canyon along the edge of which the track is built. Conductor Walters had charge of No. 203.

Mrs. Dan Fitzpatrick, Miss Agnes Rowland and cousin, Mrs. John Rowland, of Ottumwa, Iowa spent last Monday in Hot Springs.

Traveling men will soon be permitted to ride freight trains, as of yore, and their kick to the railway commission will bear fruit before the formal hearing, which has been set for December 11. General Solicitor J. E. Kelby of the Burlington was at Lincoln today in the matter of the complaint and when the board set the hearing for the December date, he said before that time the Burlington would put back the old rule and the commercial men might ride freights before if they desired. The recent rule of the road prohibiting passenger traffic on some of the freights caused a big protest from the drummers, who were often compelled to make their towns on these trains and otherwise would be put to great delay and much extra expense. They recently sent to the commission a formal petition and embodied in their complaint an offer to pay \$5 a year extra to the railroad for the privilege of riding on the desired trains. Now, according to Mr. Kelby, this will be unnecessary and if the road does as he says, the protest will be dropped, for by the time of the hearing there will be no cause for further objection. * * * The Illinois Central has landed its two free baggage cars in Omaha, laden with exhibits for the National Corn exposition. They were loaded to the limit and came from as far south as Centralia, Ill., picking up exhibits enroute.—Omaha Bee.

The name of Theodore Johnson was recently added to The Herald's Hemford list of subscribers.

Mrs. Fred Woods and children left Tuesday noon for Crawford, where Engineer Woods has been stationed for some time. They will make that city their home for the present, but we hope to see them return to Alliance.

The first basketball games of the season will be played at the high school gymnasium Friday evening. This will be a double header, the boys' team from Scottsbluff and the girls' team from Bridgeport being the visiting teams.

The Famous still continues its five dollar prizes to the fortunate holder of the ticket that bears the number nearest the time the clock stops. Mrs. U. N. Hoskins was the prize winner Saturday, the 20th, and Mr. Shipperd, west of town, last Saturday.

The firm of Gray & Guthrie has so much out side business that one of them is away from Alliance a good part of the time. Last Saturday J. B. Gray returned from a business trip to Valentine and J. W. Guthrie left Sunday for Ardmore, S. D., to be gone several days.

Matron Riley of the Alliance hospital informs us that they are taking advantage of a lull in business to do cleaning and repairing which is almost impossible when there is an influx of patients. It is expected to have everything in shipshape when the workmen are through.

Mrs. C. C. Smith and daughter, Beulah, returned Monday from Omaha where the latter was taken for medical examination the previous week. Dr. Allison, who was consulted, thinks Miss Beulah will be able to take up her work in the high school in about six weeks.

The Alliance Creamery continues to increase the price paid for cream, as will be seen by reference to the local ad in another part of the paper. Thirty cents a pound for butterfat, with land as cheap as it is yet in this country, ought to give a fair margin of profit to the dairyman.

Philip Nobe, Jr., who removed from Alliance to Des Moines, Iowa last spring, is an energetic and industrious young man as is shown by his acting as physical director in the Des Moines Y. M. C. A. evenings and devoting his time by day to sign painting, at which occupation he has exceptional ability.

Special services were held in the Baptist church the first three nights of this week, Pastor Huston being his own evangelist. There was a good attendance at each service, and much interest was manifested, especially among the children. No more services will be held this week, but may be continued next. Watch for announcement.

Last week we should have mentioned

Jas. Feagins as one of the last excursion from here to Blackfoot, Idaho. "Jim" is highly pleased with the Snake river valley, as are all others, so far as we have been able to learn, who have recently made a visit to that country.

Sheriff-elect A. D. New was over from Sheridan county last week. He will cry the horse sale for his son, M. O., on Saturday of this week.

T. R. Kennedy having disposed of his barber shop here has decided to locate in Los Angeles, where he will run a shop. We wish him success, which we anticipate he will have.

This week we are opening a department of real estate transfers, which will hereafter be published weekly. The copy for the same being furnished by A. F. Baldrige, bonded abstractor of titles, may be depended upon as being complete and correct.

Wm. J. Fuller, formerly with the Union Mercantile company of Cheyenne, has accepted the position of head clerk with the Alliance Grocery Co., beginning his service there the day following Thanksgiving. He is a jolly good fellow, and no doubt will soon make many friends here.

F. R. Allen, proprietor of the Checkered Front Livery barn, has recently added a touch to the city's metropolitan appearance by getting out his 'bus, dusting it up, and sending a man with it to meet the Burlington trains as they arrive, conveying passengers to any part of the city for so much per convey.

The relatives of Freddie Funk, the boy violinist, who spent the past summer in Alliance, have received word from him that he expects to accompany a noted singer to Kansas City, where he will receive a salary—away up there. Fred is a boy of pleasant manners as well as an able musician and will make many friends wherever he goes.

C. B. Johnston, Smith & Wilson's foreman, received an injury Saturday which might have proved serious. While feeding one of the horses it struck him on the head, rendering him unconscious for quite awhile. Mr. Johnston has handled horses for a great many years and it may be said that he is an expert horseman, and this is the first time that he has ever received an injury from a horse.

The opening of the Model Candy Kitchen, advertised in The Herald last week, did not take place on Saturday as intended, owing to a failure of the fixtures for the sales room to arrive on time. Everything is now on hand, except the counter, a large supply of choice candy and confections has been made, and as soon as the counter comes the opening will be made and business commenced.

S. K. Warrick is attending to business at the state metropolis this week.

J. N. Sturgeon changes his residence from Alliance to Summerfield, Kans. He loaded a car the first of the week, his brother-in-law, Ernest Young, going through with it, and Mr. Sturgeon and family going on the passenger train. We regret to lose them from our city, but wish them a pleasant home in their new location.

A. L. Joy, proprietor of the east side pool and billiard parlors, came to Alliance about a month ago from Grand Island and his family, consisting of wife and four daughters, came about two weeks since. This is quite a musical family, Mr. Joy being a proficient musician, one daughter is a fine violinist and another plays the cello. They are made doubly welcome to Alliance on account of their musical talent.

Charley Huss has decided not to go to Edgemont, as he thought of doing when he sold his cafe to Ed Becker. He has ordered machinery for a "rough dry" laundry, that is, a laundry to do family washings, which will begin operating as soon as the machinery arrives. The Alliance Laundry gives excellent satisfaction in their line of work, both at home and with their outside trade which is large, but owing to the difficulty in securing women help for home washing we think Mr. Huss will find this a good place for his line of laundry work.

The wireless telegraph fever is spreading rapidly in Alliance, the latest victims being Lyle Berry and Charley Parker. They have their aerials in place and will exercise their ingenuity and knowledge of electricity by making their own instruments. We understand Richard Young shows strong symptoms of the disease. (wireless telegraphy) and it is feared George Shreve is also infected with it. There is no known remedy. Simply let it run its course.

Switchmen's Strike

The great strike of switchmen now on has not been joined by the switchmen here but affects the train service to some extent on account of through freight being held. While a number of crews are laid off, it is expected that regular traffic will be resumed soon.
