THURSDAY, APRIL 14, 1910.

An interesting "Washington Letter" is crowded out of our columns this week.

The state board of education held a meeting Tuesday of this week—but not at Chadron.

"Bud" Lindsay, one time ward heeler and political boss at the state capital, didn't cut much ice down at Lincoln Monday.

The demands of our home advertisers for space in the Herald this week will make it necessary to omit some items of interest that would otherwise be published.

The saying, "As goes Lincoln so goes the state," is probably not giving any great gobs of satisfaction, since last Monday, to certain Douglas county gentlemen who have been flattering themselves that they had the world by the tail (in Nebraska) and a down-hill pull.

"Party solidarity" is getting a "black eye" in all parts of the country. Partisan rancor has been the convenient tool of political bosses and tricksters.

We wish to call particular attention of our readers to the articles in this issue of The Herald in regard to the census which begins tomorrow.

The New York stock brokerage firm of Warren W. Erwin & Co. has the following to say in regard to the effect of the Payne-Aldrich-Smoot tariff law:

"The biggest cloud in sight is that of the high cost of living and the relatively low wages, salaries and incomes. Consumption is curtailed by the fact that two-thirds of our population are unable to purchase as much goods, per capita, as they have purchased in past years.

Editorial Opinions

They claimed that it was the system they were determined to destroy when they let Joe Cannon go free. New disclosures show also that it was a system they were after when they sent Mabray to the pen.—Lincoln Star.

The gossips in Paris have a marriage arranged between Count Boni de Castellane and a daughter of J. Pierpoint Morgan contingent upon the annullment of Boni's first marriage with Anna Gould, now the Princess de Sagen of odoriferous memory.

News Snapshots Of the Week

The refusal of Colonel Roosevelt to visit Pope Pius without restrictions brought to the front Rev. B. M. Tipple of the Methodist church of Rome.

A Word About Advertising

The Herald has a large and increasing number of friends who wish to see the paper prosper.

The Herald's local competitor having an absolute monopoly on final proof notices, and to a considerable extent on other legal notices, which constitute the most profitable business received by newspapers in this country,

We admit that we do most of the job printing of the city, the orders being given to this office, we suppose, largely because of the quality of the work and the promptness with which we usually fill them.

We wish to call particular attention of our readers to the articles in this issue of The Herald in regard to the census which begins tomorrow.

The Milwaukee Election

Omaha Daily News

Next to the defeat of a republican candidate for congress in Massachusetts, the recent victory of the social democrats in Milwaukee is the most significant expression of the feeling engendered by republican rule as dictated by Aldrich, Cannon and the sort of men from whom the president takes advice.

The Milwaukee result cannot be dismissed by the mere statement that that city has long been a hotbed of various forms of socialism.

Private monopoly paves the way for public monopoly. By fostering private monopoly, the ruling republicans have provided the socialists with ammunition.

By the abuse of privilege accorded by these same republicans to monopoly, they have driven into the ranks of the socialists men who know how to use the ammunition already at hand.

If the republican party would continue in power its big problem is not so much how to fight democrats and socialists as how to make itself right.

Census Law No Joke

From Omaha Daily Bee:

Persons who think they may fail or refuse to answer any questions propounded by the census enumerator should read the bill "to provide for the thirteenth and subsequent decennial censuses."

City Boundary Enlarged

At the meeting of the city council on Tuesday evening an ordinance was passed enlarging the city boundary so as to take in that part of West Lawn lying east of the railroad tracks and also a small tract west of the Academy, including the block on which the new hospital is to be built.

This is as it should be, but still there is a large part of the city proper that is outside of the corporate limits. It is unfortunate that petitions were not circulated and signed to take in all the actual residents of the city before the census enumeration which begins tomorrow.
