Automobiles for 1911

The 1911 automobiles will not show very many radical changes from the low as twelve horse-power are turned present models. Although the auto is out in six-cylinder models this has not wind shields, shock absorbers, speedonot standardized the differences are very slight in each succeeding model.

There are many new companies en-

tering the field of 1011 cars and their machines are mostly low priced with low horse power. Practically all of these low priced autos have four cylinder engines and are very similiar to the higher priced makes. Competition is getting system of water circulation is much Most of the manufacturers are putting
