### Alliance Teachers Are Champions

Letter from Former Superintendent  
Hayes Gives Interesting News.

Peru, Nebr., Aug. 7, 1910.  
Dear Mr. Thomas: Doubtless you have noticed in the state papers that Mr. Meyer of Peru has been awarded the silver cup offered by Omaha for the champion tennis player of Nebraska and that Mr. G. H. Williams won second place. A peculiar interest to Alliance people attaches itself to this, inasmuch as Mr. Meyer and Mr. Williams will both be in the high school faculty next year in Alliance and both of them were reared in Peru, receiving their tennis training on the fine tennis courts maintained here, while they were in school at the Normal. A great interest was shown in tennis at Peru this summer, and much of this interest was due to the leadership of Mr. Williams, Mr. Hanna, and Mr. Meyer.

Peru is giving much attention to clean athletics, and more emphasis will be placed on this phase of school work next year than ever before. Physical training directors of exceptional skill in that line of work, in both men's and women's departments, are employed to direct these departments. Lest you might conclude that other departments are not as well represented in Peru, will say briefly: The Peru State Normal has a faculty of nearly 50 members. It enrolls 5,100 students annually. Graduates from the advanced course from 150 to 180 each year.

It offers all the regular courses leading to the various grades of state certificates, life diploma and degree of Bachelor of Education. Also many special courses, as agriculture, domestic science, shorthand and typewriting, business principles and commerce, art, physical culture and gymnastics, library training, music; including piano, violin and stringed instruments, orchestra and band instruments, voice; elocution, debating, parliamentary law, etc., etc.

The low cost of attending school at Peru, the beautiful environment of the school with its removal from the haunts of vice, make it a desirable place in which to receive professional training, and have induced hundreds of young men and women to come to Peru.

In spite of the large graduating classes, we are unable to supply the demand for professionally trained men and women to take charge of the various grade positions, principalships of ward schools, village schools and high schools, and city superintendencies. We shall be pleased to hear from any of the young people who are desirous of securing a better education, or from teachers who want to prepare for more advanced work.

1910-11 catalog will be sent to any who request it. Cordially yours,  
D. W. HAYES.

W. M. Robinson, manager of the Bennett Piano Company, Omaha, with branch store in Alliance, was in town Sunday and Monday of this week. While here Mr. Robinson made a trip to his farm west of Berea which he has been improving this year. Mr. Robinson covers the state thoroughly quite often and he stated to The Herald reporter that Box Butte county today is in better condition than any other portion of Nebraska. He has every confidence in this country and is adding new improvements to the farm right along, the latest being a new barn and implement shed.

Do you expect to start an orchard or plant some shade trees next season? This week's issue of The Herald has a very interesting article on "Method of Planting and Caring for Trees" by J. P. Barger, the Box Butte county nurseryman. Read the article and file the paper. It will be valuable later.

Bayard, Nebraska, is keeping up with the times and that little municipality is taking up the question of electric lights and water works. The town is now entirely without fire protection and kerosene and gasoline lights are the prevailing fashion. Bayard is said to be exceptionally well favored for the installation of water works on account of the high hills close to the town on which the reservoir could be located and which would give the water good force.

Many people say that trees cannot be grown in Box Butte county. Read the article in this week's issue by J. P. Barger. Perhaps it gives the reason for it.

Broken Bow is now constructing an electric light plant. This is owned by a private company which has been promising them light for a long time.

Geo. Gregg and J. M. Tollman shipped two cars of cattle to Omaha on Saturday last. They were accompanied by Mrs. Geo. Gregg as far as Alliance. She returned from Alliance Tuesday. —Marsland Tribune.

George E. Douglas, with the Burlington Exhibit car, was here this week, advertising the Box Butte County Fair, to be held 21, 22 and 23 at Alliance. —Heringford Journal.

Ira E. Nolte, preacher on the Alliance circuit of the Methodist church, is spending several days in Lincoln attending the Epworth Assembly. He will return the last of the week.
