STRASBURGER

Keep your temper-no one wants it. Mr. Philpott is painting the house of Miss Hughes.

Nothing like having good neighbors. We have them here at Strasburger.

Did not Solomon say, "Better is a neighor near by than a brother far off?" Messrs. Hunzinger and Stinnett are

building a large house for Harry McMillan. If you want strong arms and a good

onscience, suppose you pull the weeds in our mother's or wife's garden now

Messrs Fred Berndt, Harry McMillan, and Wm. Philpott helped John B. Strasburger barvest his wheat and oats.

Think right, breath right, eat right, exercise right; in other words do right in everything. There are right and wrong wars of doing. Learn to do the right way and then 'use or lose.

Irby Hall and John Cox are taking a 2000 mile horseback ride to Alabama, their former home. They are accompanied part of the way by Messrs. Cammack and Comer. All four are farmers around Strasburger. We hope they will have a delightful time and believe they will.

Mrs. R. S. Grumbine and Mrs. A. S. Kessler from Chicago, sisters of Edward and John B. Strasburger, are visiting for a few weeks their brothers, and their neices, the Misses Emma and Tula, and nephews, Messrs, William, John B. Jr., and Harrison Strasburger, at and around Strasburger.

Moses Lamberson, eighty years of age, the father of Miss Sera S. Lamberson, Mrs. Chapman, and Mrs. Weibling, all of whom have homesteads around Strasburger, came to visit his daughters. He is also desirous of taking a claim. Mr. Lamberson says he may live twenty years yet, and he intends to grow up with the country. He also tells us that the crops around Strasburger are much better than in Kansas, that he is surprised the soil is so good, and that truly "the half has not been told". Long life and much happiness to our four score years Kinkaider.

We are reminded of an American who ame across a lonely hut in Canada and interviewed the proprietor with a view of writing up the locality.

- Whose house is this?" he asked. 'Moggs.
- 'What in the world is it built of?" 'Logs.
- 'Any animals natural to the locality?
- ·Frogs, "What sort of soil have you?"
- "Bogs." "How about the climate?"
- Fogs.
- 'What do you live on chiefly?' 'Hogs.'
- "Have you any friends?" "Dogs.
- If you know of a thing that will darken the joy

Finding a Leak

is sometimes a dangerous and dirty job unless you are a Practical Plumber. If there is any trouble in the bath room or heating apparatus

So handy; turn the valve, touch a match-fire on: ten minutes, breakfast ready. Turn it off-the fire out.

SAFETY

The use of the burner is absolutely safe, It uses solar, distillate or gas oil, and, taking the same precautions in using this burner as you would an ordinary gas stove, you absolutely eliminate any danger. We more than comply with all insurance regulations and city oil ordinances.

ECONOMY

The value of every appliance is in the economy effected by its use.

The value of oil as a fuel for domestic purposes has long been appreciated. But not until the Gas Flame Burner was perfected has its useful and economical use been assured. We effect the saving by burning oil, and air which doesn't cost a cent. For this burner burns 85 per cent air and 15 per cent oil.

UNIVERSAL APPLICATION

This burner can be installed in any cook stove or heater; Cleaning & Repairing no cost for installing and stove is not injured in any way. Anyone can operate it that can turn a valve and strike a match. Used in a cook stove or range, the same fire that cooks your meals will heat your hot water tank. This is one of the reasons why this burner is so much to be preferred to a gasoline or oil stove.

SOME OF THE BENEFITS

30 to 50 per cent saved over cost of coal and wood. No heavy, dirty fuel to carry in, or ashes to carry out. No poisonous vapors, as from city gas. A uniform, clean, bright fire, as gentle or fierce as requirements demand.

GIVES SATISFACTION

To whom it may concern:

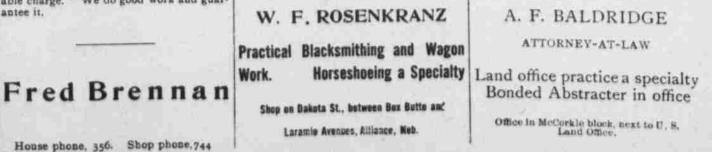

I wish to say that I have installed one of the Hot Blast Oil Burners, and that it gives perfect satisfaction. The cost of operating my stove is about one-fourth cheaper now than when I used coal. MRS. MAGGIE ZURN,

321 Yellowstone Ave., Alliance, Nebr.

Come and see the Burner demonstrated, up stairs over Norton's store. Ladies especially invited.
