

REMOVABLE BRIDGE WORK

I Am A Dentist

On the 10th of July I opened my office in Alliance. I am "delighted" with results so far, but like most Americans, I am not satisfied. I want to see and talk dentistry to more of you.

I want to tell you why you cannot afford to neglect your teeth. I also want to show you my system of removable bridgework which I introduced about five years ago. Over 2,000 dentists are using it. I am introducing this class of work in Alliance now and if you will come up I will give you the names of my patients. Talk to them. Don't wait. Do it now.
